Partners in East-West Economic Relations Zbigniew M. Fallenbuchl, Carl H. McMillan, 1960 **Partners in East-West Economic Relations** Zbigniew M. Fallenbuchl, Carl H. McMillan, 2013-10-22 Partners in East West Economic Relations The Determinants of Choice covers the proceedings of an international conference of the same name held at Montebello Quebec on April 26 29 1978 This conference brings together various professionals to address contemporary international economic relations issues One of the three major issues tackled in this compilation is the reintegration of the economics of the Soviet Union and Eastern Europe into the international division of labor This compendium also studies the determinants of the choice of partners in East West relations at the national and subnational levels The last major topic concerned in this selection is the similarities and differences between partnerships in the East West and North South contexts This compendium will be of interest to those interested in economics and related disciplines **The Impact of Governments on East-West Economic Relations** Steven Elliott-Gowerd, 2016-07-27 In this volume the perceptive reader will find many clues to the future of the Soviet Union Eastern Europe East West economic relations and the impact of governments in this area The authors are aware of the mistakes of the past the limitations of centralized planning the dangers and the futility of confrontation and the global significance of the new roles that governments must play in the transitional period of political and economic reform in the East **Soviet Economy in a Time of Change** United States. Congress. Joint Economic Committee, 1979 Soviet Economy in a Time of Change , 1979 National Security And Technology Transfer Gary K. Bertsch, 2019-02-22 The deterioration of detente in the wake of the ongoing Soviet arms build up has sharply focused the East West trade debate on the question of advanced technology transfer from the United States and its allies to the Soviet bloc The transfer and acquisition of high technology have become central ingredients in super power relations and are key elements of any national security policy President Reagan among others has questioned the wisdom of the policies of the 1960s and early 1970s when trade with the Soviet Union and Eastern Europe expanded rapidly At recent industrial nation summits conferees of Western countries agreed to high level review of their East West technology trade policies But in light of the apparent West European commitment to continue and expand trade with the East as exemplified by the Siberian gas pipeline project and the growing U S opposition to such technology transfer divisions between U S and Western trade policies toward the East are likely to become increasingly acute in the years ahead Professors Bertsch and McIntyre have selected comprehensive and representative articles to examine the question of technology transfer from a variety of perspectives political economic and military emphasizing both the U S and the Western allies points of view and offering insights into the complex issues raised by the strategic dimensions of East West trade East European Economic Assessment: Country studies, 1980 United States. Economic Evaluation of Soviet Socialism Alan Abouchar,2013-10-22 Economic Evaluation of Soviet Socialism examines the economic achievements of Soviet socialism from a variety of perspectives The Soviet Union s failure to eliminate inflation and its implications for the economy are considered in comparison to a capitalist developed or industrializing economy The effects of inflation on welfare and efficiency are also discussed This book is comprised of eight chapters and opens by sketching the distinguishing characteristics of Soviet socialism as well as six major sources of interest in the evaluation of Soviet socialism The next section deals with three kinds of issues relating to Soviet socialist performance organizational structural aspects economic growth and efficiency Questions such as whether the Soviet economy may have been able to obviate the traditional undesirable consequences of inflation are addressed The growth of the economy and of important macroeconomic aggregates such as national income industrial production and consumption is also analyzed The remaining chapters focus on economic efficiency in agriculture and industry in relation to the Soviet price mechanism This monograph will be of interest to economists social scientists policymakers and government officials **Comecon** J. J. Brine,1992 Comecon or the Council for Mutual Economic Assistance was founded by Joseph Stalin in 1949 to counteract the Marshall Plan and reinforce the bonds between the Soviet Union and the people s democracies of Eastern Europe Other Soviet Bloc nations later joined Comecon and for forty years it dominated the trade policies of the Soviet Bloc and profoundly influenced their domestic economic development and relations with the West Comecon collapsed in 1991 after the countries of Eastern Europe rejected communism It was often compared with the West European Common Market but differed vastly in its aims structure powers and activities Its influence is a critical factor in assessing both the economic failures of the Soviet Bloc and the problems facing former member states as they make the transition to free market economies This detailed annotated bibliography is an essential guide to the extensive English language literature about Comecon from its founding until its demise Chapters cover Comecon s history structure and law socialist economic integration the organization s arrangements for international trade and finance environment natural resources and energy labor industry and agriculture science and technology Comecon like the rest of the Soviet Bloc collapsed suddenly but its legacy will color international relations and worldwide economic issues for years to come An understanding of its institutions mechanisms and policies remains vital hi appreciating the economic organization of the former Soviet empire This bibliography will therefore be indispensable to policymakers economists historians and political scientists **Special Bibliography Series** United States Air Force Academy.
