 Columbia University,Subandhu,1913 *Columbia University Indo-Iranian Series* ,1913 Entanglements Crispin Sartwell,2017-03-01 Presents strikingly original and contemporary answers to the most traditional philosophical problems in epistemology ethics aesthetics and political theory A work of maximally ambitious scope with a foundation in humility Entanglements sets out a philosophical system of the sort rarely seen over the past century In a discipline marked by greater

and greater specialization and the narrowing of increasingly insular traditions and approaches Crispin Sartwell has spent his career engaging widely across philosophical topics and texts Here he brings together his philosophical positions in a unified system that is coherent across the issues and subdisciplines in the field In addition to presenting his own theories of truth knowledge free will beauty and the political state Sartwell s criticisms of other figures and movements provide an overview of the history of philosophy The project of presenting an overarching philosophical system is a resolutely old fashioned one and in undertaking it Sartwell is not only encapsulating an extraordinarily unique and productive career but also nudging philosophy back to its broader aims of explaining the world and our place in it One of the greatest strengths of this book is its breadth not just in topics but in the range of ideas drawn on it s unusual to find a scholar who can move effortlessly from J L Austin to Heidegger to Emerson Original engaging and accessible there s nothing else like it Roderick T Long Auburn University
