Mason, K. Lonka, 2012-12-06 In a brief summary the debate concerning the nature of writing processes is about whether the essential characteristic of expertise in writing is a matter of mastering problem solving strategies In this respect the role of social and interactive factors such as writers familiarity with the particular genre in which they are writing and their relationship with the discourse community in which they are participating have been pointed out e g Nystrand 1989 According to the socio interactive approach which refers to Vygotsky's theory the composition process is a dialogue between the writer and the reader made possible by socially shared knowledge The meaning of a text is a social construct that is negotiated between the reader and the writer through the medium of the text The importance of motivational aspects has also been highlighted by two main lines of research studies of the relationship between writing and self efficacy e g Pajares Benton Corkill Sharp Downey Khramtsova 1995 Hidi McLaren 1990 1991 Self efficacy in this context individuals beliefs about their ability to produce certain types of texts have been found to be predictive of writing skills strategy use and writing performance Digital Writing Technologies in Higher Education Otto Kruse, Christian Rapp, Chris M.
