Russia In Revolution 1900 1930:

Russia in Revolution, 1900-1930 Harrison Evans Salisbury, 1978 A narrative and pictorial portrait of the political and artistic upheaval that changed the course of Russian history and culture during the first three decades of the century

Why Lenin? Why Stalin? Theodore Hermann Von Laue, 1971 Why Lenin? Why Stalin? A Reappraisal of the Russian Revolution, 1900-1930 [by] Theodore H. Von Laue Theodore Hermann Von Laue, 1971 Russia in the Age of Modernisation and Revolution 1881 - 1917 H. Rogger, 2014-07-30 Hans Rogger's study of Russia under the last two Tsars takes as its starting point what the Russians themselves saw as the central issue confronting their nation the relationship between state and society and its effects on politics economics and class in these critical years **Why Lenin?** Theodore H. von Laue, 1966

Why Lenin? Why Stalin? Vere Claiborne Chappell, 1964 **Why Lenin?** Theodore H. VonLaue, 1971 The Russian Revolution, 1917 Rex A. Wade, 2017-02-02 This book explores the 1917 Russian Revolution from its February Revolution beginning to the victory of Lenin and the Bolsheviks in October *The Russian Revolution and Civil War 1917-1921* Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state *Revolution in Russia* Edith Rogovin Frankel, Jonathan Frankel, Baruch Knei-Paz, 1992-01-30 The Russian Revolution of 1917 continues to be a subject of most intense controversy Eighteen leading specialists from different generations countries and schools of thought accordingly re examine the key issues and events of that crucial year **Why Lenin?** , 1964 **Revolutionary Russia, 1917** John M. Thompson, 1996-10-31 The Russian Revolution of 1917 profoundly affected the recent history of the world Its impact has been felt in every corner of the globe People ideas and events have all been touched by it This thought provoking book not only offers a short clear narrative of what happened in 1917 but also analyzes and discusses the whys of the revolution Within bounds of reasonable speculation the author raises interpretive questions about the events of 1917 in an effort to stimulate the interest and thinking of students **Why Lenin?** Theodore H. von Laue, 1966 Russia in the Era of NEP Sheila Fitzpatrick, Alexander Rabinowitch, Richard Stites, 1991-09-22 a comprehensive look at an enigmatic era Choice This provocative collection of essays certainly takes some of the polish off Soviet socialism's golden age Journal of Interdisciplinary History The authors and editors of this splendid volume deserve great praise Their work moves the field of Soviet history several large steps

forward Slavic Review Lenin's New Economic Policy of the 1920s although a relatively free and open potential alternative to Soviet communism was also a time of extreme tension as Russian society and culture were rocked by the forces of resistance and change These essays examine the social and cultural dimensions of NEP in urban and rural Russia in the years before Stalin and rapid industrialization *The Origins of the Stalinist Political System* Graeme Gill, Graeme J. Gill, 2002-07-18 New and challenging perspectives on Soviet political development from 1917 to 1941 *Encyclopedia of the Developing World* Thomas M. Leonard, 2006 A comprehensive work on the historical and current status of developing countries *Adventures in Russian Historical Research* Samuel H. Baron, Cathy Frierson, 2015-04-08 American historians of Russia have always been an intrepid lot Their research trips were spent not in Cambridge or Paris Rome or Berlin but in Soviet dormitories with official monitors They were seeking access to a historical record that was purposefully shrouded in secrecy boxed up and locked away in closed archives Their efforts indeed their curiosity itself sometimes raised suspicion at home as well as in a Soviet Union that did not want to be known even while it felt misunderstood This lively volume brings together the reflections of twenty leading specialists on Russian history representing four generations They relate their experiences as historians and researchers in Russia from the first academic exchanges in the 1950s through the Cold War years detente glasnost and the first post Soviet decade Their often moving acutely observed stories of Russian academic life record dramatic change both in the historical profession and in the society that they have devoted their careers to understanding **Legacies of Violence: Eastern Europe's First World War** Jochen Böhler, Włodzimierz Borodziej, Joachim von Puttkamer, 2014-08-20 The First World War began in the Balkans and it was fought as fiercely in the East as it was in the West Fighting persisted in the East for almost a decade radically transforming the political and social order of the entire continent The specifics of the Eastern war such as mass deportations ethnic cleansing and the radicalization of military paramilitary and revolutionary violence have only recently become the focus of historical research This volume situates the Long First World War on the Eastern Front 1912-1923 in the hundred years from the mid 19th to the mid 20th century and explores the legacies of violence within this context Content Jochen Böhler Włodzimierz Borodziej Joachim von Puttkamer Introduction I A World in Transition Joachim von Puttkamer Collapse and Restoration Politics and the Strains of War in Eastern Europe Mark Biondich Eastern Borderlands and Prospective Shatter Zones Identity and Conflict in East Central and Southeastern Europe on the Eve of the First World War Jochen Böhler Generals and Warlords Revolutionaries and Nation State Builders The First World War and its Aftermath in Central and Eastern Europe II Occupation Jonathan E.  First World War A Commentary from a Comparative Perspective **Commissar and Mullah** Glenn Roberts, 2007-05 During
 the revolutionary period the Soviets came into political and cultural conflict with Russia's Muslims. Despite indications that
 the majority of Muslims desired political unification based on their Islamic heritage the Party divided them into separate
 nationalities along narrow ethnic lines incorporated most into the RSFSR and attempted to uproot traditional Islamic
 institutions and customs under the aegis of class war. Resistance took the form of pan Muslim nationalism a reformist
 political conception with roots in the Near East. This conflict not only aborted the export of revolution to the Islamic world
 contributing to the passing of the revolutionary era in Russia but aided Stalin's rise to power. Soviet policy succeeded
 politically defining the terms of interaction between Russians and Soviet Muslims for the next 70 years but failed culturally in
 1921-22 when the Party was forced to suspend its war on Islam as the price of political control **The Environment and
 World History** Edmund Burke III, Kenneth Pomeranz, 2009-04-08 Since around 1500 C.E. humans have shaped the global
 environment in ways that were previously unimaginable. Bringing together leading environmental historians and world
 historians this book offers an overview of global environmental history throughout this remarkable 500 year period. In eleven
 essays the contributors examine the connections between environmental change and other major topics of early modern and
 modern world history: population growth, commercialization, imperialism, industrialization, the fossil fuel revolution, and more.
 Rather than attributing environmental change largely to European science, technology, and capitalism the essays illuminate a
 series of culturally distinctive yet often parallel developments arising in many parts of the world leading to intensified
 exploitation of land and water. The wide range of regional studies including some in Russia, China, the Middle East, India,
 Southeast Asia, Latin America, Southern Africa, and Western Europe together with the book's broader thematic essays makes
The Environment and World History ideal for courses that seek to incorporate the environment and environmental change
 more fully into a truly integrative understanding of world history. CONTRIBUTORS Michael Adas, William Beinart, Edmund
 Burke III, Mark Cioc, Kenneth Pomeranz, Mahesh Rangarajan, John F. Richards, Lise Sedrez, Douglas R. Weiner
