argues for a historicized approach to conceptual analysis by exploring the relevance of the history of color science for
contemporary philosophical debates about color realism Adams contends that two prominent positions in these debates
Cartesian anti realism and Oxford realism are both predicated on the assumption that the concept of color is ahistorical and
unrevisable Adams takes issue with this premise by offering a philosophical genealogy of the concept of color This book
makes a significant contribution to recent debates on philosophical methodology by demonstrating the efficacy of using the
genealogical method to explore philosophical concepts and will appeal to philosophers of perception philosophers of mind
