Watching Birds Martha Gillham,2013-08-12

This book is a compilation of bird stories written by our mother Martha Ramseur Gillham They were first published in the Arkansas Wildlife Federation newspaper Arkansas Out of Doors from 1972 until 1985 She was a longtime member of the federation which was instrumental in passing Amendment 35 to the Arkansas constitution which established the Arkansas Game and Fish Commission as an independent body All the illustrations were drawn by another member and close friend Joe Gray a commercial and wildlife artist and political cartoonist in Dardanelle Arkansas The book has been assembled and published at the insistence and funding of our father Ralph Gillham All proceeds from sales will go to the Yell County Wildlife Federation Lucien and Richard Gillham Joanna Gray Lange and Bob Gray

Birdscapes Jeremy Mynott,2009 What draws us to the beauty of a peacock the flight of an eagle or the song of a nightingale Why are birds so significant in our lives and our sense of the world And what do our ways of thinking about and experiencing birds tell us about ourselves Birdscapes is a unique meditation on the variety of human responses to birds from antiquity to today and from casual observers to the globe trotting twitchers who sometimes risk life limb and marriages simply to add new species to their life lists Drawing extensively on literature history philosophy and science Jeremy Mynott puts his own experiences as a birdwatcher in a rich cultural context His sources range from the familiar Thoreau Keats Darwin and Audubon to the unexpected Benjamin Franklin Giacomo Puccini Oscar Wilde and Monty Python Just as unusual are the extensive illustrations which explore our perceptions and representations of birds through images such as national emblems women s hats professional sports logos and a Christmas biscuit tin as well as classics of bird art Each chapter takes up a new theme from rarity beauty and sound to conservation naming and symbolism and is set in a new place as Mynott travels from his home patch in Suffolk England to his away patch in New York City s Central Park as well as to Russia Australia and Greece Conversational playful and witty Birdscapes gently leads us to reflect on large questions about our relation to birds and the natural world It encourages

birders to see their pursuits in a broader human context and it shows nonbirders what they may be missing **The Hawaiian Honeycreepers** H. Douglas Pratt, 2005-05-12 The Hawaiian Honeycreepers are typified by nectar feeding their bright colouration and canary like songs They are considered one of the finest examples of adaptive radiation even more diverse than Darwin's Galapagos finches as a wide array of different species has evolved in all the different niches provided by the Hawaiian archipelago The book will therefore be of interest to evolutionary biologists and ecologists as well as professional ornithologists and amateur bird watchers As with the other books in the Bird Family of the World series the work is divided into two main sections Part I is an overview of the Hawaiian Honeycreeper evolution and natural history and Part II comprises accounts of each species The author has produced his own outstanding illustrations of these birds to accompany his text Looking for Birds and Other Wild Life Nell Hutchison, 1998-08
