Modernity's Wager Authority The Self And Transcendence By Seligman:

Modernity's Wager Adam B. Seligman, 2009-02-09 Adam Seligman one of our most important social thinkers continues the incisive critique of modernity he began in his previously acclaimed *The Idea of Civil Society and The Problem of Trust* In this provocative new work of social philosophy Seligman evaluates modernity's wager namely the gambit to liberate the modern individual from external social and religious norms by supplanting them with the rational self as its own moral authority Yet far from ensuring the freedom of the individual Seligman argues the fundamentalist doctrine of enlightened reason has called into being its own nemesis in the forms of ethnic racial and identity politics Seligman counters that the modern human must recover a notion of authority that is essentially transcendent but which extends tolerance to those of other or no faiths Through its denial of an authority rooted in an experience of transcendence modernity fails to account for individual and collective moral action First deprived of a sacred source of the self depictions of moral action are reduced to motives of self interest Second dismissing the sacred leaves the resurgence of religious movements unexplained In this rigorous and imaginative study Seligman seeks to discover a durable source of moral authority in a liberalized world His study of shame pride collective guilt and collective responsibility demonstrates the mutual relationship between individual responsibility and communal authority Furthermore Seligman restores the indispensable role of religious traditions as well as the features of those traditions that enhance rather than denigrate tolerance Sociologists political theorists moral philosophers and intellectual historians will find Seligman's thesis enlightening as will anyone concerned with the ethical and religious foundations of a tolerant society

Dissident Women, Beguines, and the Quest for Spiritual Authority Catherine Lambert, 2024-11-12 *Dissident Women Beguines and the Quest for Spiritual Authority* focuses on the responses of a group of twenty first century women to the lives and writings of thirteenth century beguine mystics and reveals how the struggle to discover their own inner spiritual authority connects two groups of women across centuries For contemporary women who are disenchanted with the institutional church and who seek spiritual direction models deeply rooted within the tradition may not be the most helpful The author explores the value of exemplars from the fringes ushering Hadewijch of Brabant Mechthild of Magdeburg and Marguerite Porete into the spotlight The contemporary women studied developed a relationship with the beguines that transformed and influenced their own journeys Their encounters underline the importance of remembering the beguine mystics the value of contemplative engagement with historical mystics and the need for explicit validation of the richness of the edges of tradition within spiritual direction *Dissident Women Beguines and the Quest for Spiritual Authority* will be of particular interest to scholars of mysticism and spirituality as well as practical pastoral and feminist theology

Ritual and the Sacred Massimo Rosati, 2016-04-08 *Ritual and the Sacred* discusses some of the most important issues of modern socio political life through the lens of a neo Durkheimian perspective Building on the main lesson of Durkheim's *Elementary Forms of Religious Life* this book articulates values and practices common to non Western and

religious traditions that have the capacity to shape our modern way of living Central to this volume is the question of modernity and scepticism with regard to mainstream Western wisdom Rosati focuses on the notion of societal self reassessment and self revision illustrating a willingness to learn from primitive societies This reassessment necessitates us to rethink the central roles played by ritual and the sacred as building blocks of social and individual life both of which remain salient features within the modern world This title will be of key interest to sociologists of religion philosophy politics and social theorists

The Authority of Scripture in Reformed Theology Henk Van Den Belt, 2008-01-01 This book discusses the concept of the self convincing authority of Scripture in the historical development of Reformed theology and advocates an emphasis on the autopistia in a postmodern context because truth and trust are inseparable

Multiple Modernities and Postsecular Societies Kristina Stoeckl, 2016-04-15 Engaging with the idea that the world reveals not one but many routes to modernity this volume explores the role of religion in the emergence of multiple forms of modernity which evolve according to specific cultural conditions and interpretations of the modern project It draws upon case study material from Africa The Middle East Russia and South America to examine the question of whether modernity democracy and secularism are universalistic concepts or are on the contrary unique to Western civilization whilst considering the relationship of postsecularism to the varied paths of modern development Drawing together work from leading social theorists this critical theoretical contribution to current debates will appeal to sociologists social theorists and political scientists with interests in religion secularization and postsecularization theory and transitions to modernity in the contemporary globalized world

The ^ACatholic Labyrinth Peter McDonough, 2013-06-14 At the heart of Catholicism s resistance to change in the U S is the equation of hierarchical authority with traditional gender roles especially the subordination of women The Catholic Labyrinth traces the variably confrontational and incremental strategies of advocacy groups as they struggle to reconcile an age old culture with the onslaughts of modernity

Imperfect Oracle Theodore L. Brown, 2009-01-01 Science and its offshoot technology enter into the very fabric of our society in so many ways that we cannot imagine life without them We are surrounded by crises and debates over climate change stem cell research AIDS evolutionary theory and intelligent design the use of DNA in solving crimes and many other issues Society is virtually forced to follow our natural tendency which is to give great weight to the opinions of scientific experts How is it that these experts have come to acquire such authority and just how far does their authority reach Does specialized knowledge entitle scientists to moral authority as well How does scientific authority actually function in our society and what are the countervailing social forces including those deriving from law politics and religion with which it has to contend Theodore Brown seeks to answer such questions in

this magisterial work of synthesis about the role of science in society In Part I he elucidates the concept of authority and its relation to autonomy and then traces the historical growth of scientific authority and its place in contemporary American society In Part II he analyzes how scientific authority plays out in relation to other social domains such as law religion government and the public sphere Intending the World Ralph Pettman,2008 How we look at the world is informed mainly by our assumptions and the ways in which we rationalise them Seldom do we rely or allow ourselves to rely on gut thinking or intuition Intending the World shows how rationalism which is our primary approach in thinking about world affairs is in crisis By studying the world rationalistically we objectify it and we look at it as detached from ourselves But in doing so we cease to see that we are using a perspective that limits as well as enlightens In a disciplinary first Ralph Pettman provides an account of twenty first century international relations in terms of phenomenology one of the main philosophical attempts to compensate for these limits He explores how this re embedded use of reason can successfully describe and explain world affairs in ways unused by rationalists Intending the World follows the lead of the German philosopher Edmund Husserl It looks at the world not only in terms of things in themselves but also in terms of why it is we keep willing the world the way we do **Models of God and Alternative Ultimate Realities** Jeanine Diller,Asa Kasher,2013-06-13 The envisioned volume is a collection of recent essays about the philosophical exploration critique and comparison of a the major philosophical models of God gods and other ultimate realities implicit in the world s philosophical schools and religions and of b the ideas of such models and doing such modeling per se The aim is to identify exactly what a model of ultimate reality is create a comprehensive and accessible collection of extant models and determine how best philosophically to model ultimate reality if possible and desirable
