Number One Realist Nathaniel L. Moir, 2022-04-01 In a 1965 letter to Newsweek French writer and academic Bernard Fall 1926-67 staked a claim as the Number One Realist on the Vietnam War This is the first book to study the thought of this overlooked figure one of the most important experts on counterinsurgency warfare in Indochina Nathaniel L Moir's intellectual history analyses Fall's formative experiences his service in the French underground and army during the Second World War his father's execution by the Germans and his mother's murder in Auschwitz and his work as a research analyst at the Nuremberg Trials Moir demonstrates how these critical events shaped Fall's trenchant analysis of Viet Minh led revolutionary warfare during the French Indochina War and the early Vietnam War In the years before conventional American intervention in 1965 Fall argued that far more than anything in the United States military arsenal resolving conflict in Vietnam would require political strength willpower integrity and skill Number One Realist illuminates Fall's study of political reconciliation in Indochina while showing how his profound humanitarian critique of war continues to echo in the endless conflicts of the present It will challenge and change the way we think about the Vietnam War **Charlie Chaplin** Adolphe Nysenholc, 2014-07-24 No detailed description available for Charlie Chaplin African Christian Theology, Volume 1, Number 1, March 2024 Joshua Robert Barron, 2024-07-11 **Japan as -anything but- Number One J.**

Woronoff, 1996-10-11 Japan as anything but Number One should be everybody's number two book to read about Japan After almost any introduction that lays out the claims made for Japan's truly unusual economy and society the next step forward should be to read an informed critical text to set a contrast in the mind No book achieves this more concisely more accurately and more succinctly than Japan as anything but Number One James Y Bourlet Professor of Japanese Management London Guildhall University Is Japan No 1 Well maybe it is if you only consider those sectors where it has been particularly successful But not if you add many others where its performance was mediocre or worse Is Japan No 1 Well maybe it is if you ask the foreign friends who have made a career and sometimes a fortune as apologists of Japanese causes But if you ask the Japanese themselves you will find that they are anything but satisfied Is Japan No 1 Well maybe it is if you are taken in by the tatemaie i.e. the official version or how its admirers like to picture it But it does not look so great once you perceive the honne

i e the realities of life in Japan Is Japan No 1 Well maybe it is if you take what is best in Japan and contrast it to what is less good in foreign countries But it does not compare so well if you mix the good with the bad in both places No the author does not think that Japan is a horrible place or that its leaders have made a complete mess of things But if you look closely it is certainly not the extraordinary success it is frequently claimed to be It is closer to the mean with many serious problems that will only get worse if people foolishly assume it is No 1 **Living in the Number One Country** Herbert I.

Schiller,2000-09-05 Living in the Number One Country is Herbert I Schiller s chronicle of the symbiotic relationship between post WWII American Empire and the substance and technology of the communications businesses Schiller traces how the State has supported corporatized information by pushing their products abroad both through phony pronouncements about the free flow of information and by subsidizing research and development for new technologies Schiller s refreshing account infuses elements of his own experience growing up during the Great Depression in New York as a bureaucrat in the civilian sector of the military occupation forces in Berlin after the war and as a radical journalist and academic This intriguing book argues that the main pillar of today s U S economy the ever expanding communication sector is also the most crucial element in keeping a 500 year social system capitalism alive Capitalism s future relies not only on labor exploitation but also on a steadily entertained and hence diverted populace Therein lies the importance of challenging the overarching institutions of corporate information production **Little Number One** Butch Tweedy,2023-07-31 Fourteen year old Sharon Renae

Daniels falls in love with Jimmy Lee Lane the leader of an up and coming rock band Sharon is new to the Charleston West Virginia area after moving from Cedar Bluff North Carolina She is still making new friends when she happens to see the Jimmy Lane Band in concert at their high school Jimmy notices her as well in the crowded lunchroom It takes weeks however for them to actually meet in person due to previous obligations pride and bad timing First they become friends then soon begin dating Everything is fine for a while but Sharon has to deal with the emptiness of missing home and Jimmy oftentimes puts the band before his girlfriend Once they realize their true love for each other and mature to the point of a stable relationship it is already too late for resolution Immaturity and inexperience cause chaos which leads to bad habits missed opportunities poor decisions and recklessness only complicating their already dire situation *Resources in Education*
