Nunca Mas Never Again:

The Healing of Nations Mark R. Amstutz, 2005 How does one forgive an international political transgression as deep as genocide or apartheid Forgiveness is often conceived of as an element of personal morality and even at that it is difficult This book argues that it is also an essential part of political ethics especially when dealing with collective wrongdoing by political regimes In the past a retributive justice demanding prosecution and punishment of all past offenses has kept the international community away from moving on to the next step in regime change Here Mark R Amstutz takes a restorative justice approach calling for nations to account for crimes through truth commissions public apology and repentance reparations and ultimately forgiveness and the lifting of deserved penalties The distinctive feature of forgiveness is the balance it strikes between backward looking accountability and forward looking reconciliation The Healing of Nations combines a theory of the role of forgiveness in public life with four key case studies that test this ethic Argentina Chile Northern Ireland and South Africa Amstutz uses the hard cases to illustrate the promise and limits of forgiving without forgetting

Reframing the Transitional Justice Paradigm Jill Stockwell, 2014-01-29 This volume explores the evolving and complex memorial consequences of state sponsored violence in post dictatorial Argentina Specifically it looks at the power and significance of personal emotions and affects in shaping memorial culture This volume contends that we need to look beyond political and ideological contestations to a deeper level of how memorial cultures are formed and sustained It argues that we cannot account for the politics of memory in modern day Argentina without acknowledging and exploring the role played by individual emotions and affects in generating and shaping collective emotions and affects Drawing from direct testimony from Argentinian women who have experienced political and physical violence the research in this volume aims at understanding how their memories may be a different source of insight into the deep animosities within and between Argentine memorial cultures In direct contrast to the nominally objective and universalist sensibility that traditionally has driven transitional justice endeavours this volume examines how affective memories of trauma are a potentially disruptive power within the reconciliation paradigm and thus affect should be taken

into account when considering transitional justice Accordingly Cultures of Remembrance for Women in Post Dictatorial Argentina is an excellent resource for those interested in human rights transitional justice clinical psychology and social work and Latin American conflicts *Cry for Me, Argentina* Annette H. human rights across the globe **Memory, Truth, and Justice in Contemporary Latin America** Roberta Villalón, 2017-07-06 This powerful text provides the first systematic analysis of the second wave of memory and justice mobilization throughout Latin America Pairing clear explanations of concepts and debates with case studies the book offers a unique opportunity for students to interpret the history and politics of Latin American countries The contributors provide insight into human rights issues and grassroots movements that are essential for a broader understanding of struggles for justice memory and equality across the globe especially during our current unsettled times of political polarization violence repression and popular resistance worldwide **The Politics of Cruelty** Kate Millett, 1995 From one of the most influential figures of the last twenty years the author of *Sexual Politics* comes this brilliant work in which Kate Millet sets out a new theory of politics for our time a harrowing view of the modern state based on the practice of torture as a method of rule as conscious policy *Into The Looking-Glass Wood* Alberto Manguel, 2011-02-04 By the award winning author of *A History of Reading* For me words on a page give the world coherence Words tell us what we as a society believe the world to be I believe there is an ethic of reading a commitment that is both political and private in the act of turning the pages And I believe that sometimes beyond the author's intentions and beyond the reader's hopes a book can make us better and wiser Through personal stories and literary reflections in a style rich in humour and gentle erudition Manguel leads us the readers to reflect upon the pleasures and responsibilities of reading and the links that exist between the world we live in and the words we live amongst *Into the Looking Glass Wood* is a voyage into the subversive heart of words a voyage fired by the author's humanity and extraordinary breadth of vision *Justice Framed* Marcos Zunino, 2019-03-14 Why are certain responses to past human rights violations considered instances of transitional justice while others are disregarded This study interrogates the history of the discourse and practice of the field to answer that question Zunino argues that a number of characteristics inherited as transitional justice emerged as a discourse in the 1980s and 1990s have shaped which practices of the present and the past are now regarded as valid responses to past human rights violations He traces these influential characteristics from Argentina's transition to democracy in 1983 the end of communism in Eastern Europe the development of international criminal justice and the South African truth commission of 1995 Through an analysis of the post World War II period the decolonisation process and the Cold War Zunino identifies a series of episodes and mechanisms omitted from the history of transitional justice because they did not conform to its accepted characteristics **Apparition** T. J. MacGregor, 2017-02-06 Dominica and her tribe of hungry ghosts were driven from Esperanza that magical city high in the Andes but they were not all destroyed As a last devastating blow against Tess Livingston she seized Tess's niece Maddie as a host and fled away to the United States Now this evil bruja has settled in a small resort town in Florida and is cementing her power over a new tribe of the unquiet dead But she will not be able to take over Cedar Key not without arousing the suspicion of the U S government And not without attracting the attention of Wayra her oldest lover and most bitter enemy On

Cedar Key Kate Davis is trying to raise her son on a bartender's pay She grew up in this small community and she knows everyone in town pretty well So Kate notices when people begin behaving oddly and it scares her to death It makes her want to run Farther away in Florida Nick Sanchez is having visions of a young woman being held hostage by terrorists Nick is a psychic a remote viewer working for a top secret government unit and any hint of terrorism from any source is enough to make Homeland Security take notice When it's combined with reports of a dozen deaths from a mysterious disease that makes the victims bleed out completely then it's time for action Kate's not going to be able to get off Cedar Key Passion terror blood and courage abound in this supernatural thriller that will take your breath away Touched Bodies Mara Polgovsky Ezcurra, 2019-06-21 Shortlisted for the 2020 Association for the Study of the Arts of the Present Book Prize Winner of the 2019 Art Journal Prize from the College Art Association What is the role of pleasure and pain in the politics of art In Touched Bodies Mara Polgovsky Ezcurra approaches this question as she examines the flourishing of live and intermedial performance in Latin America during times of authoritarianism and its significance during transitions to democracy Based on original documents and innovative readings her book brings politics and ethics to the discussion of artistic developments during the long 1980s She describes the rise of performance art in the context of feminism HIV activism and human right movements taking a close look at the work of Diamela Eltit and Ra l Zurita from Chile Le n Ferrari and Liliana Maresca from Argentina and Marcos Kurtycz the No Grupo art collective and Proceso Pent gonio from Mexico The comparative study of the work of these artists attests to a performative turn in Latin American art during the 1980s that like photography and film before recast the artistic field as a whole changing the ways in which we perceive art and understand its role in society

Viewing Photography in Post-Dictatorship Latin America David Rojinsky, 2022-11-30 This book examines the archival aesthetic of mourning and memory developed by Latin American artists and photographers between 1997-2016 Particular attention is paid to how photographs of the assassinated or disappeared political dissident of the 1970s and 1980s as found in family albums and in official archives were not only reimagined as conduits for private mourning but also became allegories of social trauma and the struggle against socio-political amnesia Memorials art installations photo essays street projections and documentary films are all considered as media for the reframing of these archival images from the era of the Cold War dictatorships in Argentina Chile Guatemala and Uruguay While the turn of the millennium was supposedly marked by the end of history and with the advent of digital technologies by the end of photography these works served to interrupt and hence belie the dominant narrative on both counts Indeed the book's overarching contention is that the viewer's affective identification with distant suffering when engaging these artworks is equally interrupted instead the viewer is invited to apprehend memorial images as emblems of national and international histories of ideological struggle
