Nursery World Of Dr Blatz:

The Nursery World of Dr Blatz Jocelyn Motyer Raymond, 1991
Raymond, 1991-12-15 In 1925 Blatz established St George's school for child study associated with the University of Toronto. The school consisted of two divisions: one was Parent Education, a research program created to educate parents in the newest techniques of child rearing. **The Nurture of Nature** Sharon Wall, 2010-01-01 Thousands of children attended summer camps in twentieth-century Ontario. Did parents simply want a break or were broader developments at play? *The Nurture of Nature* explores the history of summer camps and sheds light on a wider phenomenon: the divided consciousness that informs modern assumptions about nature, technology, and identity. Wall examines how two competing tendencies—antimodern nostalgia and modern sensibilities about the landscape—child rearing and identity played out in the camp's interaction with nature, its class and gendered dimensions, its engagement with emerging ideologies of childhood, and in the politics of race inherent in its Indian programming. *The Nurture of Nature* offers a fascinating discussion of the summer camp's contribution to modern social life that will appeal to students and practitioners of the history of childhood, the natural environment, and recreation, or anyone who has been packed off to camp and wants to explore why. **Normalizing the Ideal** Mona Lee Gleason, 1999-01-01 Postwar insecurity about the stability of family life became a platform to elevate the role of psychologists in society. Their ideal of normal as the healthy goal for society marginalized and silenced those who did not fit the model. Ring Around the Maple Cynthia R. Comacchio, Neil Sutherland, 2024-10-29 *Ring Around the Maple* is about the condition of children in Canada from roughly 1850 to 2000, a time during which the modern increasingly disrupted traditional ways. Authors Cynthia R. Comacchio and Neil Sutherland trace the lives of children over this long century with a view to synthesizing the rich interdisciplinary, often multi-disciplinary literature that has emerged since the 1970s. Integrated into this synthesis is the authors' new research into many often seemingly disparate archival and published primary sources. Emphasizing how the child and childhood are sociohistoric constructs and employing age analytically and relationally, they discuss the constants and the variants in their historic dimensions. While childhood tangibly modernized during these years, it remained far from universal experience due to identifiers of race, gender, culture, region, and intergenerational adaptations that characterize the process of growing up. This work highlights children's perspectives through close critical readings of diaries, correspondence, memoirs, interviews, oral histories, and autobiographies, many buried in obscure archives. It is the only extant historical discussion of Canadian children that interweaves the experiences of First Nations, Métis, and Inuit children with those of children from a number of settler groups. *Ring Around the Maple* makes use of photographs, catalogues, advertisements, government publications, musical recordings, radio shows, television shows, material goods, documentary and feature films, and other such visual and aural testimony. Much of this evidence has not to date been used as historical testimony to uncover the lives of ordinary children. This book is generously illustrated with photographs.

and ephemera carefully selected to reflect children's lives, conditions, interests, and obligations. It will be of special interest to historians and social scientists interested in children and the culture of childhood but will also appeal to readers who enjoy the little stories that together make up our collective history, especially when those are told by the children who lived them.

Canadian Men and Masculinities Wayne Martino, Christopher John Greig, 2012. *Canadian Men and Masculinities: Historical and Contemporary Perspectives* is a provocative new volume that examines men and masculinity across Canadian history and culture and sets it against the broader context of neoliberal globalization. This edited collection adopts a multi-perspective social inquiry and interdisciplinary approach and takes into careful consideration the intersections of the social and historical construction of gender with race, social class, sexuality, bodily abilities, and other social justice factors. The chief aim of this book is to examine from historical and contemporary perspectives the production and performance of men, boys, and embodied masculinity within the Canadian context. Within this framework, *Canadian Men and Masculinities* explores a range of issues including modern fatherhood, black male athleticism, indigenous masculinities, wrestling, and body building. This volume will be a valuable resource for general readers and professionals in sociology, history, education, and social and gender studies.

National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1992. [A Diversity of Women](#) Joy Parr, 1995-01-01. Our perception of women's roles has changed dramatically since 1945. In this collection, Joy Parr has brought together ten studies from a variety of disciplines examining changing ideas about women. Mariana Valverde writes about teenage girls in the immediate postwar years and finds that stereotypes of a supposedly simple, secure, politically quiescent and sexually conformist life do not really hold. Joy Parr follows women shoppers of the early 1950s in their sometimes comical encounters with male designers, manufacturers, and retailers in search of the tools and totems of modernity for their homes. Increasingly, these homes were in suburban subdivisions whose pleasures and possibilities for women. Veronica Strong-Boag reconsiders Joan Sangster reminds us that wage-earning mothers were numerous in the fifties and sixties and through a juxtaposition of their own stories with contemporary studies tells much about these self-denying women's lives. Franca Iacovetta discusses the experiences of immigrant and refugee women in northwestern and south-central Ontario, experiences that were interpreted through their starkly different European wartime memories. Based upon her work among the rural women of southwestern Ontario, Nora Cebotarev charts the changes that transformed farm families and finances from the sixties to the eighties. Ester Reiter compares the recollections of women who had worked together during the 1960s in an auto parts plant in the Niagara Peninsula with contemporary newspaper accounts of a strike and leads us into a complex narrative of gender and militancy. Nancy Adamson reconsiders the diversity of feminist organizing within the province over the decades since second-wave feminism began; she tracks the different needs and paths that brought women to the women's liberation movement and the ways in which their feminist analysis arose from their experience as community activists. Linda Cardinal writes about Franco-Ontarian women charting the ways in which feminist

activists challenged and were challenged as they worked with traditional farm and church based women s groups in northern and eastern Ontario Marlene Brant Castellano and Janice Hill introduce us to four aboriginal women Edna Manitowabi Jeannette Corbiere Lavell Sylvia Maracle and Emily Faries whose work has been to reclaim and build upon the knowledge and responsibilities long entrusted to the women of Ontario s First Nations

Psyche Phyllis Young,2008-10-06 A child who is the very centre of her parents life is torn away in the darkness and left to grow up in the hostile hills of the north country Recognizing that the couple who raised her have nothing more to offer she leaves with an artist who initiates her into adulthood Psyche is the gripping story of a wealthy urban mother s anguish and powerlessness when her child is kidnapped and the abandoned child s remarkable resilience as she ultimately finds redemption through art education and psychology This 1959 international bestseller by Canadian writer Phyllis Brett Young focuses on issues of character and environment in an unconventional coming of age story that draws the reader into an

exploration of the decidedly modern themes of kidnapping sexual assault and the sex trade industry Book cover **Boys in the Pits** Robert McIntosh,2000-10-17 Boys in the Pits shows the rapid maturity of the boys and their role in resisting exploitation In what will certainly be a controversial interpretation of child labour Robert McIntosh recasts wage earning children as more than victims showing that they were individuals who responded intelligently and resourcefully to their circumstances Boys in the Pits is particularly timely as despite the United Nations Convention on the Rights of the Child accepted by the General assembly in 1989 child labour still occurs throughout the world and continues to generate controversy McIntosh provides an important new perspective from which to consider these debates reorienting our approach to child labour explaining rather than condemning the practice Within the broader social context of the period where the place of children was being redefined as and limited to the home school and playground he examines the role of changing technologies alternative sources of unskilled labour new divisions of labour changes in the family economy and legislation to explore the changing extent of child labour in the mines
