Healthcare offers a range of tools and topics that support and foster clinically focused nurses and other healthcare professionals to develop their leadership skills and strategies. The textbook is helpfully divided into three parts: information on the attributes of clinical leaders, the tools healthcare students and staff can use to develop their leadership potential, and clinical leadership issues. It also outlines a number of principles, frameworks, and topics that support nurses and healthcare professionals to develop and deliver effective clinical care as clinical leaders. Lastly, each chapter has a range of reflective questions and self-assessments to help consolidate learning. The newly revised third edition has been updated in light of recent key changes in health service approaches to care and values. While it covers a wide spectrum of practical topics, *Clinical Leadership in Nursing and Healthcare* also includes information on theories of leadership and management, organisational culture, gender, generational issues, and leaders' project management, quality initiatives, and working in teams. Managing change, effective clinical decision making, how to network and delegate, how to deal with conflict, and implementing evidence-based practice. Congruent leadership, the link between values and actions, authentic leadership, leaving behind control as an objective, and managing power. Why decisions go wrong, techniques for developing creativity, barriers to creativity, conflict resolution, and management negotiation, self-talk, and leading in a crisis. With expert input from a diverse collection of experienced contributors, *Clinical Leadership in Nursing and Healthcare* is an invaluable resource for new leaders trying to establish themselves and existing leaders looking to perform at a higher level when it comes to quality and effective patient care.

environment Creating a Nonviolent Culture in a Modern Organization Miriam Baermann, 2021-12-21 Increasing violence amongst youth in society burn out as a widespread disease and scandals in companies are only some of the headlines which appear regularly in the news media Politics scarcely seems to have any success in fighting violence and injustice in society and in the world The thesis here suggests that people do not have to wait for a savior such as a politician but that everyone can contribute to a less violent more peaceful and just world It will be demonstrated that organizations have an enormous influence on society and this book deals with the possibilities which an organization has to contribute to a less violent culture By the term organization all forms of organized groups of people who come together for a certain purpose are meant for example schools clubs public social aids and others whilst we mainly concentrate on companies in our research The intention is to focus particularly on the issues related to the theme of creating a nonviolent culture in the workplace In the first part on culture we deal with several questions regarding culture including such fundamental questions as What is organizational culture What are the dimensions of culture and is it possible to influence it and if yes how does it work In the second part we take a look at the terms violence and nonviolence and a survey of how these aspects occur in society and organizations is made The third part is the largest and deals with the qualities of leadership and with the organizational conditions which are necessary to create a nonviolent culture We hope it will become clearer to the reader that nonviolence is not a strategy or a formula to be used It can appear very different in different situations There are component elements which can promote it and there are certain principles that cannot be violated if one wishes to establish true nonviolence Nevertheless there is no one patent formula nor one exclusively correct way of creating a nonviolent culture It requires considerable creativity and endurance to create it and can take a variety of forms **EBOOK: Implementing Excellence in your Health Care**
