Breaking Open the Box Nancy DaFoe,2013-02-12 What do David Foster Wallace s essay on wars over usage and Pico Iyer s comma personification have to do with improving students academic writing Everything For all of the attention supposedly paid to Bloom s Taxonomy with creativity at the top educators tend to shy away from encouraging students creative choices in areas where traditional analysis and the critic s style and tone have reigned While we do not want our students to write inane or empty verbiage we unintentionally set them up for this inevitability or worse The movement away from children s natural creative impulses in elementary school to a direction in which they literally fit their writing into preconfigured shapes is a gradual one Although purportedly taught to instill academic structures these boxes are also designed to facilitate the ease with which student product may be assessed We need a more creative approach to teaching writing A methodology incorporating creativity as modeled by students in this text demonstrates the kind of progress we are all seeking offering an exciting challenge for young writers and educators alike

Securing a Place for Reading in Composition Ellen C. Carillo, 2015-01-15 Securing a Place for Reading in Composition addresses the dissonance between the need to prepare students to read not just write complex texts and the lack of recent scholarship on reading writing connections Author Ellen C Carillo argues that including attention to reading practices is crucial for developing more comprehensive literacy pedagogies Students who can read actively and reflectively will be able to work successfully with the range of complex texts they will encounter throughout their post secondary academic careers and beyond Considering the role of reading within composition from both historical and contemporary perspectives Carillo makes recommendations for the productive integration of reading instruction into first year writing courses She details a mindful reading framework wherein instructors help students cultivate a repertoire of approaches upon which they consistently reflect as they apply them to various texts This metacognitive frame allows students to become knowledgeable and deliberate about how they read and gives them the opportunity to develop the skills useful for moving among reading approaches in mindful ways thus preparing them to actively and productively read in courses and contexts outside first year composition Securing a Place for Reading in Composition also explores how the field of composition might begin to effectively address reading including conducting research on reading revising outcome statements and revisiting the core courses in graduate programs It will be of great interest to writing program administrators and other compositionists and their graduate students

The Promise and Perils of Writing Program Administration Theresa Enos,Shane Borrowman,2008-01-26 Combining formal quantitative research with narrative based scholarship THE PROMISE AND PERILS OF WRITING PROGRAM ADMINISTRATION represents multiple voices from faculty balancing between the demands of teaching writing and administering writing programs in professional ethical ways often under circumstances that can be defined at best as difficult In these pages junior faculty tell their stories of triumph and trauma while more firmly established composition scholars reflect upon the changing and challenging profession we all share

I-writing Karen Surman Paley,2001 In this ethnographic study of the teaching of writing Karen Surman Paley reveals the social significance of first person writing and the limitations of a popular taxonomy of composition studies Paley looks critically at the way social constructionists have created an Other in the field of composition studies and named it expressivist Paley demonstrates the complexity of

approaches to teaching writing through an ethnographic study of two composition faculty at Boston College a program that some would say is expressivist She prompts her colleagues to consider how family experiences shape the way students feel about and treat people of races religions genders and sexual preferences other than their own Finally she suggests to the field of composition that practitioners spend less time shoring up taxonomies of the field and more time sharing pedagogies

in virtual settings *Reforming College Composition* Ray Wallace, Alan Jackson, Susan Lewis Wallace, 2000-07-30 As colleges and universities have responded to the demand of businesses and industries for graduates who can write effectively Composition Studies has gained significance However while new theories and approaches to the teaching of writing have been proposed and implemented many composition courses do not satisfactorily educate their students This volume includes essays by writing specialists who are concerned with their own failure to improve their students writing skills These contributors examine why entering college students still write poorly and why our various attempts to improve such poor writing skills have largely failed They compare the promise of previously touted new methods paradigm shifts and curricular innovations with the reality of little change or improvement they describe what their students can and cannot do in the writing classroom even after 12 years of primary and secondary education and they address what they see as needed reforms in the whole idea of college composition especially for the first year college student **First Time Up** Brock Dethier, 2008-09-30 First time up an insider's friendly question from 1960s counter culture perfectly captures the spirit of this book A short supportive practical guide for the first time college composition instructor the book is upbeat wise but friendly casual but knowledgeable like the voice that may have introduced you to certain other firsts With an experiential focus rather than a theoretical one First Time Up will be a strong addition to the newcomer's professional library and a great candidate for the TA practicum reading list Dethier author of *The Composition Instructor's Survival Guide* and *From Dylan to Donne* directly addresses the common headaches nightmares and epiphanies of composition teaching especially the ones that face the new teacher And since legions of new college composition teachers are either graduate instructors TAs or adjuncts without a formal background in composition studies he assumes these folks as his primary audience Dethier's voice is casual but it conveys concern humor experience and reassurance to the first timer He addresses all major areas that graduate instructors or new adjuncts in a writing program are sure to face from career anxiety to thoughts on grading and keeping good classroom records Dethier's own eclecticism is well represented here but he reviews with considerable deftness the value of contemporary scholarship to first time writing instructors many of whom will be impatient with high theory Throughout the work he affirms a humane confident approach to teaching along with a true affection for college students and for teachers just learning to deal with them *Strategies & Resources for Teaching Writing with the Simon & Schuster Quick Access Reference for Writers 4/E* Linda Julian, Patricia Kelvin, Scott A.
