Rural Labor Flows In China Research Papers And Policy Studies Paperback:

A Study of Labor Mobility in China Sun Wenkai, 2021-12-30 The title investigates rural labor mobility in China since 2003 an important phenomenon in the process of Chinese economic transition influential in economic growth at the macro level and individual wellbeing at the micro level Based on empirical analysis the study identifies and evaluates the characteristics driving forces and impact of the migration and mobility of the rural labor force The following factors are considered to impact rural workers mobility decisions and are thoroughly discussed in each chapter 1 convergence in the level of regional income 2 industrial structure and the age structure of the workforce 3 the household registration system 4 the income gap 5 the issue of children that are left behind 6 the health status of rural migrant workers and 7 their social networks Drawing on new research methods the final chapter reassesses the impact of rural parents migration to the city and the overall wellbeing of their children left behind at home challenging the well accepted view that there is a negative correlation between the two The book will appeal to scholars and students interested in labor economics Chinese economy sociology demography migrant population and especially labor mobility in China

Small Town China Beatriz Carrillo Garcia, 2011-04-19 While much has been written about rural migrant workers experiences in the big cities population movements into China s vast network of towns and small cities has been largely neglected This book presents a detailed case study of rural migrant workers experiences in a small town in a north China county The author explores the processes and institutions that enable or preclude the social inclusion of rural workers into the town s socio economic system Inclusion and exclusion are assessed through an examination of rural workers immersion into the urban labour market their access to welfare benefits and to social services such as housing education and health The book proposes that outside the larger cities there are alternative accounts of urban social change and of the integration of rural migrant workers It stresses the fact that the particular socio economic structure of towns where the state owned share of the economy has been smaller and where consequently social and private forces have been more active allowed for a more open inclusion of rural workers Though shortcomings are still observed the book suggests that China s transformation may not necessarily result in dysfunctional and socially polarized urban environments This book will be of interest to students and scholars of China s rural migrant workers bottom up urbanization and small town development social policy and more broadly on contemporary social change in China

Economic Policy of the People's Republic of China Barbara Darimont, 2023-01-01 This book deals with the current economic policy of the People s Republic of China In addition to a brief overview of economic history since its founding and discussions of economic models an overview of both the forms of business and the Chinese labor market is provided The book pays particular attention to the development of China s e commerce sector Equally significant are China s environmental issues against the backdrop of the climate crisis Without innovations for example in energy production and waste management the Chinese economy will hardly be able to continue growing Therefore one focus of the book is on economic

policy in the environmental sector Finally foreign policy including the Silk Road Initiative is examined The aim of this book is to highlight the above developments It is aimed at laypersons involved in the business of China as well as first year students who want an overview of economic policy institutions and current developments *Political Economy in the Evolution of China's Urban-Rural Economic Relations* Fan Gao,2021-12-29 This book investigates the trajectory and evolutionary mechanisms of China's urban rural economic relationships seeking to explore how a developing socialist country can attain sustainable development and common prosperity Grounded in a deep literature review and a practical analysis of real world conditions in China the study challenges the dual economy theory of development economics that has prevailed in discussion of Chinese urban rural economic relationships and puts forward an alternative analytical framework based on political economy Considering the role political and social factors have played in China's economic development since 1949 the author divides the evolution of China's urban rural economic relationship into two stages In the first stage the relationship is seen to be a separated one a situation that led to several repercussions but the reform and opening up of the late 1970s marked a turning point leading to a second stage featured by imbalanced integration Through empirical research the book analyses the momentum economic effects and problems of this turn thereby envisaging an upgraded stage marked out by collaborative integration integral to further economic development and a more prosperous society in all respects The title will appeal to scholars and student studying political economy urban rural economic relationships development economics and the Chinese economy American Book Publishing Record ,2006 Rural Labor Migration, Discrimination, and the New Dual Labor Market in China Guifu Chen,Shigeyuki Hamori,2013-11-29 This book studies some important issues in China's labor market such as rural labor migration employment and wage discrimination the new dual labor market and economic returns on schooling using the newer and representative data and advanced estimation models This approach has yielded many interesting results including a solution to the dilemma of two ongoing crises since 2004 the rural labor surplus and severe shortage of migrant labor While male workers generally received less favorable treatment and consequently enjoyed a lower average employment probability than female workers in 1996 they also received preferential treatment over female workers who otherwise had identical worker characteristics in 2005 We provide new estimates for male female hourly wage differentials in urban China and our results indicate that the hourly wage differentials and the unexplained part of the hourly wage differentials are smaller than the differentials obtained by ignoring the sample selection bias We study China's new dual labor market which is shifting from a rural migration versus urban workers setup to informal workers versus formal workers setup and present some interesting results Our study is the first to adopt the IV methodology and the Heckman 1979 two step procedure simultaneously for the estimation of economic returns on schooling in China **Work and Organizations in China after Thirty Years of Transition** Lisa Keister,2009-09-17 Thirty years of economic change have fundamentally altered the nature of organizations and work in China This volume brings together the research by many of

the top scholars studying these issues and provides a glimpse into the state of thinking on organizations and work at the start of the fourth decade of transition

China's Left-Behind Children Xiaojin Chen, 2024-04-12 One unintended consequence of the unprecedented rural to urban migration in China over the past three decades is the exponentially increased number of left behind children children whose parents migrated to more developed areas and who live with one parent or other extended family members The daily lives of these children including their caretaking arrangements parent child bonding and communication and schooling are fraught with distractions and uncertainties Paying special attention to this marginalized group this book investigates the role of parental migration and the left behind status in shaping Chinese family dynamics and children s general wellbeing including their school performance delinquency resilience feelings of ambiguous loss and other psychological problems Blending theory empirical research and real world interviews with left behind children China s Left Behind Children provides a uniquely close look at these children s lives while also providing the larger national context that defines and shapes their everyday lives

Transition and Challenge Zhongwei Zhao, Fei Guo, 2007-02-22 With the largest population in the world China has experienced significant demographic social and economic changes in recent decades Extraordinary demographic changes took place in China in the second half of the twentieth century having wide ranging consequences This book written by a group of leading experts examines these profound changes in an effort to understand their long term impact and provide an up to date account of China s demographic reality The volume provides a comprehensive and authoritative analysis of a wide range of issues such as China s unprecedented family planning program the impact of falling birth rates coupled with increasing life expectancy changes in marriage patterns and increasing rural urban migration Anyone who is interested in China and its recent demographic changes will benefit from the rich materials and thorough analysis provided in this book

Inclusive Development and Poverty Reduction Changsheng Zuo, Chengwei Huang, Xiaojun He, Xiaolin Wang, 2021-02-06 This book discusses poverty reduction and inclusive development in China The relevant research reports included here combine unique perspectives and thorough analysis and include both comparative and empirical analyses Although China is the first country to have achieved the UN s Millennium Development Goals it still faces enormous problems and challenges in terms of narrowing the income gap reducing poverty and attaining sustainable development This book not only provides valuable theoretical material to help readers understand inclusive development and poverty reduction in today s China but also offers relevant government authorities a solid theoretical and practical basis for informed decision making

The State and Society of China Yong Gao, Ying Wu, 2017-10-27 This book places the topic of the state and society in the context of modern development in China over the past century investigating the dynamic relation and internal tension between the state s power enhancement and society s vitality activation instead of simply regarding the country and society as two separate entities Building a modern country and activating the people s vitality involves three closely linked and mutually supporting aspects establishing the identity recognition of the people to

unite the nation adjusting the organizational system of the society to promote mobilization and institute a social incentive system and determining dominant strategies and means for the interaction between the country and society to address social governance issues This book carefully sheds light on the logic behind China's roundabout strategy for building a modern country and motivating the vitality of its people *Labor Dispute Resolution in China* Virginia Harper Ho, 2003 **Zainichi**

Literature John Lie, 2018 A multiple contributor volume on Zainichi literature literary works by ethnic or diasporic Koreans in Japan Includes translations of Japanese language essays stories and poems by seven authors **Childhood, Youth and**

Migration Christine Hunner-Kreisel, Sabine Bohne, 2016-07-15 This book shows the different ways in which migration matters in the context of global and local childhood and youth Furthermore it highlights that childhood youth and migration as well as local and global perspectives need to be thought and analyzed together to address the significant dimensions of social inequality in the context of growing up Migration as a phenomenon is most often motivated by the search for a better life Very often children and young people migrating alone or together with their families migrate to ameliorate their own or others living conditions and seize opportunities for realizing a good life Today as well as in the past this search for a better life is very often triggered by socio economic reasons war or terrorism Against the backdrop of the topic raised above the book deals with children and young people's own perspective in countries of migration It promotes the idea of connecting global and local issues of childhood and youth with a special focus on questions of education It studies questions of global and local living and highlights living circumstances shaped by patterns of migration and mobility **Kōmeitō** George

Ehrhardt, Axel Klein, Levi McLaughlin, Steven R. Reed, 2014 Examines the relationship between religious groups and politics in Japan focusing on Kōmeitō Japan's most successful religious party Describes Kōmeitō's campaign practices and varying modes of political participation from its founding to its decision to join the ruling Liberal Democratic Party in a coalition government

Education and Reform in China Emily Hannum, Albert Park, 2012-11-12 Transformative market reforms in China since the late 1970s have improved living standards dramatically but have also led to unprecedented economic inequality During this period China's educational system was restructured to support economic development with educational reforms occurring at a startling pace Today the educational system has diversified in structure finance and content it has become more market oriented and it is serving an increasingly diverse student population These changes carry significant consequences for China's social mobility and inequality and future economic prospects In *Education and Reform in China* leading scholars in the fields of education sociology demography and economics investigate the evolution of educational access and attainment educational quality and the economic consequences of being educated *Education and Reform in China* shows that economic advancement is increasingly tied to education in China even as educational services are increasingly marketized The volume investigates the varying impact of change for different social ethnic economic and geographic groups Offering interdisciplinary views on the changing role of education in Chinese society and on China's educational

achievements and policy challenges this book will be an important resource for those interested in education public policy and development issues in China

Rural Labor Flows in China Loraine A. West, Yaohui Zhao, 2000 Comprises 12 papers which explore the extent and nature of rural urban migration in China during the 1980s and 1990s Examines the characteristics of migrants at the individual household and community levels and investigates the organizational aspect of labour flows Analyses the effects of migration on rural and urban areas Includes a chapter on the development of labour migration from Mexico to the USA

Migration and Social Protection in China Ingrid Nielsen, Russell Smyth, 2008 China has an estimated 1200Co150 million internal migrants from the countryside living in its cities These people are the engine that has been driving China s high rate of economic growth However until recently little or no attention has been given to the establishment of a social protection regime for migrant workers This volume examines the key issues involved in establishing social protection for them including a critical examination of deficiencies in existing arrangements and an in depth study of proposals that have been offered for extending social security coverage Featuring contributions from leading academics outside China who have written on the topic as well as experts from leading Chinese academic institutions such as Chinese Academy of Social Sciences and the Development Research Center in the State Council this volume provides a comprehensive account from both inside and outside China

A Comparative Study of East Asian Capitalism Hong Yung Lee, 2014 This book represents an initial attempt to compare China Japan and South Korea three close geographical and cultural neighbors whose developmental trajectories though divergent in the past have been moving more recently toward convergence

□□ Di Mo, 2013 Mozi fifth century B C was an important political and social thinker and formidable rival of the Confucianists He advocated universal love his most important doctrine according to which all humankind should be loved and treated as one s kinfolk honoring and making use of worthy men in government and identifying with one s superior as a means of establishing uniform moral standards He also believed in the will of Heaven and in ghosts He firmly opposed offensive warfare extravagance including indulgence in music and allied pleasures elaborate funerals and mourning fatalistic beliefs and Confucianism
