Building Blocks for Learning Occupational Therapy Approaches Jill Jenkinson, Tessa Hyde, Saffia

Ahmad, 2008-11-20 Building Blocks for Learning Occupational Therapy Approaches is a resource book for educational staff and pediatric occupational therapists especially those new to the field. It shows how the implications of physical, psychological, social, and learning difficulties impact upon children's abilities. This highly practical book will help readers recognize when a student's poor performance within the classroom is a result of a medical condition or underlying motor and perceptual deficits.

Look, Listen, Learn, LEAD Jeffery Smith, Kate Wolfe Maxlow, John Caggianno, Karen L. Sanzo, 2020-10-01 Look Listen Learn LEAD: A District Wide Systems Approach to Teaching and Learning in PreK-12 lays out the transformational journey of Hampton City Schools (HCS), an urban school division of 30 schools in southeastern Virginia. Our school district faces numerous challenges such as 62% of students receiving free and reduced price lunch and 14% of students holding an IEP, and in 2015-2016 Hampton City Schools state accreditation rate was approximately half the statewide rate and on a downward trend. In only three years that was turned around and HCS exceeded the statewide accreditation rate a more than 100% improvement with 100% of our schools accredited without conditions. We attribute this in large part to our dedicated educators and their implementation of district wide systems for curriculum instruction, checking for student understanding, climate, and culture. The goal of this book is to break down the process of what it takes to bring about large scale educational change that is sustainable. We describe a process for developing a strong mission and vision to undergird the work around a variety of district wide systems. This book provides insights into how to improve climate and culture, create a guaranteed and viable written curriculum, establish a process for evaluating its implementation, and create a balanced assessment framework to measure student success. Complete with example templates, action plans, and lessons learned, this book is a true example of theory into practice to bring about sustained improvement for all learners.

Using Internet Primary Sources to Teach Critical Thinking Skills in Visual Arts Pamela J. Eyerdam, 2003-03-30 Use the Internet to teach visual arts and refine students' critical thinking skills. This book is based on the Discipline Based Art Education program, a proven art instruction program that teaches everything from the creative process and art history to criticism and aesthetics. An abundance of primary source Web sites and background information is offered. The main focus of the book is western art history and painting, but examples of sculpture, drawings, prints, and architecture are included along with a chapter on diversity. Part I provides background material. A brief history of art education is presented followed by a review of the components of design elements and principles. The book describes using the Internet as a primary source by identifying and evaluating websites. Part II follows the program through the main historical periods from prehistoric and ancient Middle Eastern art through the Renaissance through the 20th century. A bibliography and index are included.
