Lookin In The Mirror:

In the Looking Glass Rebecca K. Shrum, 2017-08-30 An utterly fascinating reading of the multiple uses and meanings of mirrors among European Americans African Americans and Native Americans Journal of Social History What did it mean Rebecca K Shrum asks for people long accustomed to associating reflective surfaces with ritual and magic to become as familiar with how they looked as they were with the appearance of other people Fragmentary histories tantalize us with how early Americans people of Native European and African descent interacted with mirrors Shrum argues that mirrors became objects through which white men asserted their claims to modernity emphasizing mirrors as fulcrums of truth that enabled them to know and master themselves and their world In claiming that mirrors revealed and substantiated their own enlightenment and rationality white men sought to differentiate how they used mirrors from not only white women but also from Native Americans and African Americans who had long claimed ownership of and the right to determine the meaning of mirrors for themselves Mirrors thus played an important role in the construction of early American racial and gender hierarchies Drawing from archival research as well as archaeological studies probate inventories trade records and visual sources Shrum also assesses extant mirrors in museum collections through a material culture lens Focusing on how mirrors were acquired in America and by whom as well as the profound influence mirrors had both individually and collectively on the groups that embraced them In the Looking Glass is a piece of innovative textual and visual scholarship A superb reflection of the many meanings held by an object usually taken for granted Highly recommended Choice *Munsey's Magazine*, 1920 Diary of a Foster Kid Growing Up T Dog, 2019-06-11 All praise is due to the Creator I thank him for always coming through for me in time on time and for all my ups and downs To all my kids always know that Daddy loves you no matter what To my brothers I love you all My mom thanks for having me I love you To my adoptive parent thanks so much for keeping us all in church It really helped To my foster family I will always love you all no matter what and we are still family Special thanks to all the book clubs bookstores and vendors who are always on their grind And I m saving the most important thanks for last my readers You are the best I really do appreciate all the love and support This one is for you This book is dedicated to my childhood my struggles made me who I am today *Catalog of Copyright Entries* Library of Congress. Roth, 2016-04-12 When Meredith hit the finish line at the Niagara Falls Marathon last year people in their living rooms all across America choked up Who could help it Here was a young woman who just a few months earlier had weighed in at 340 pounds on the hit ABC show Extreme Weight Loss Now for all the world to see and merely part way into her one year effort to pare down she d literally gone further than she d ever expected From barely being able to walk up the stairs to running 26.2 miles in practically no time The body is an amazing thing And yet it s no match for the brain It wasn t the strength of Meredith s body propelling her across the Niagara Falls finish line it was the power of her mind No one knows that better than JD Roth who as the number one producer of TV weight loss shows has helped countless overweight people change their bodies and lives for the better Viewers of Extreme Weight Loss The Biggest Loser The Revolution and other transformational shows have seen the technicians the trainers the nutritionists the doctors and other health pros who appear on screen but they ve never seen the heart and soul behind these amazing makeovers That would be JD whose production company not only created weight loss television but who has produced more episodes in the genre than all other producers combined He s the behind the scenes wizard who gets inside the heads of the shows participants encouraging persuading prodding and inspiring them to succeed Intimately involved in casting the shows contestants then seeing them through the weight loss process he s the guy whose picture they tape onto their elliptical trainers and angrily scream at each night then hug out of gratitude the next morning He s the guy who holds them when they cry and the one who tells them they need to get back on the treadmill even though they re crying JD is the shows tough love dad love being the operative word Because it s not just TV to JD he s on a mission to change people s lives Every fat person yes fat person there ll be no sugarcoating here knows that you need to move more and eat less to shed pounds Not exactly rocket science Yet that simple formula doesn t get to the root of what makes someone top out at 500 pounds or sometimes just carry an extra fifty The missing link in transformative weight loss is mental and emotional fortitude Mining the same problem solving and motivational skills JD has used so successfully with reality show contestants The Big Fat Truth gets readers to address the real reasons they re overweight and nobody gets away with saying it s because they love food With his combination of enthusiasm empathy no holds barred style and master story telling abilities JD helps them unearth and tackle the unresolved issues they ve buried under the French fries and chocolate chip

Facing the Other: Novel Theories and Methods in Face Perception Research Davide Rivolta, Aina Puce, Mark A Williams, 2016-04-08 We rely heavily on faces during social interactions Humans possess the ability to recognise thousands of people very quickly and accurately without effort The serious social difficulties that follow abnormalities of the face recognition system i.e. prosopagnosia strongly underline the importance of typical face skills in our everyday life Over the last fifty years research on prosopagnosia along with research in the healthy population has provided insights into the cognitive and neural features behind typical face recognition This has also been achieved thanks to non invasive neuroimaging techniques such as functional Magnetic Resonance Imaging fMRI Electroencephalography EEG Magnetoencephalography MEG Diffusion Tensor Imaging DTI and Transcranial Magnetic Stimulation TMS However there is still much debate about the cognitive and neural mechanisms of face perception In the current Research Topic we plan to gather experimental works opinions commentaries mini reviews and reviews that focus on new or novel theories and methods in face perception research Where is the field at the moment Do we need to re think the experimental procedures we have adopted so far Again what kind of techniques or combination of them and analysis methods will be important in the future From the experimental point of view we encourage both behavioural and neuroimaging contributions e.g. fMRI EEG MEG DTI and TMS Despite the main emphasis on face perception memory and identification we will also consider original works that focus on other aspects of face processing such as expression recognition attractiveness judgments and face imagery In addition animal investigations and experimental manipulations that alter face recognition abilities in typical human subjects e.g. hypnosis are also welcome Overall we are proposing a Research Topic that looks at face processing using different perspectives and welcome contributions from different domains such as psychology neurology neuroscience cognitive science and philosophy The current Research Topic evolved over the desire to acknowledge the relatively recent loss of three giants in the field Drs Shlomo Bentin Truett Allison and Andy Calder We dedicate this Research Topic to them and their pioneering studies
