Bring Me Your Midnight Rachel Griffin, 2023-08-01 From the New York Times bestselling author of *The Nature of Witches* and *Wild is the Witch* comes a lush romantic fantasy about forbidden love the choices we make and the pull between duty and desire Featuring an exclusive case only available on the first print run Tana Fairchild's fate has never been in question Her life has been planned out since the moment she was born she is to marry the governor's son Landon and secure an unprecedented alliance between the witches of her island home and the mainlanders who see her very existence as a threat Tana's coven has appeased those who fear their power for years by releasing most of their magic into the ocean during the full moon But when Tana misses the midnight ritual a fatal mistake there is no one she can turn to for help until she meets Wolfe Wolfe claims he is from a coven that practices dark magic making him one of the only people who can help her But he refuses to let Tana's power rush into the sea and instead teaches her his forbidden magic A magic that makes her feel powerful Alive As the sea grows more violent her coven loses control of the currents a danger that could destroy the alliance as well as her island Tana will have to choose between love and duty between loyalty to her people and loyalty to her heart Marrying Landon would secure peace for her coven but losing Wolfe and his wild magic could cost her everything else

The Wild Marsh Rick Bass, 2018-06-01 An account of one year in the Yaak Valley wilderness range by the acclaimed naturalist and memoirist Beginning with his family settling in for the long northwestern Montana winter and capturing all the subtle harbingers of change that mark each passing month the initial cruel teasing of spring the splendor and fecundity of summer and the bittersweet memories evoked by fall this is a beautiful evocation of the fauna flora and folks in this rugged and spectacular landscape Publishers Weekly starred review It is full of rich observation about what it takes to live in the valley toughness improvisation and of course duct

tape *The Wild Marsh* is also poignant especially as the author reflects on what it means for his young daughters to grow up surrounded by the strangeness and wonder of nature He shares with them the Yaak's little secrets where the huckleberries are best in a dry year where to find a grizzly's claw marks in an old cedar and discovers that passing on this intimate local knowledge the knowledge of home is a kind of rare and valuable love Bass emerges not just as a writer but as a father a neighbor and a gifted observer uniquely able to bring us close to the drama and sanctity of small things ensuring that though the wilderness is increasingly at risk the voice of the wilderness will not disappear A work of wonder praise and thanksgiving for all the marvels of nature where every aspect is connected and every process has its place Bass grounding his book in science well takes the facts and transforms them as a musician transforms musical notes into a work of great beauty This walk through a year is a walk through the author's soul filled with passions dreams fears and the exuberance of Walt Whitman School Library Journal starred review Whether the topic is a forest fire in his front yard or the excitement of the first tiny cheerful glacier lilies in spring Rick Bass is a stirring companion on the trail that leads west from the Walden Pond of Henry David Thoreau and the Sand County of Aldo Leopold Ivan Doig author of *The Whistling Season* Porcelain, and Chay Yew, 1997 *Porcelain* is an examination of a young man's crime of passion Triply scorned as an Asian a homosexual and now a murderer nineteen year old John Lee has confessed to shooting his lover in a public lavatory in London *Porcelain* dissects the crime through a prism of conflicting voices newscasts flashbacks and John's recollections to a prison psychiatrist *A Language of Their Own* is a lyrical and dramatic meditation on the nature of desire and sexuality as four men three Asian and one white come together and drift apart in a series of interconnecting stories **Hurricane Season** Sonja Bentley Zant, 2007-09 Notes from a Necrophobe T.C. Armstrong, 2015-04-21 The world ends life goes on A sharp witted novel that asks After surviving what do you do next This is not an apocalypse it's an adjustment There is still electricity There is still the internet There is still order We will adapt and we will survive U S government After twenty years of toil Russian researchers drilled through nearly four kilometers of ice and reached Lake Vostok a massive body of fresh water Unfortunately their efforts released the microorganisms entombed inside which nature had managed to keep sealed off from the rest of the world for twenty five million years Tiny aggressive and lethal the microbes emerged from the ancient lake and wormed their way into the world's water supply Anyone who washed their hands or took a sip of water absorbed these primal parasites and died in a fraction of a second How do you live when the very thing you need to exist can kill you But death was only the beginning The micro killers reanimate the corpses of their victims Their swarm intelligence enables them to observe scheme and cause a hell of a lot of trouble Rot and decay forces them to hunt for a fresh host they're always on the lookout for the remaining survivors Then three teenagers one child and one adult stumble upon a possible cure but they have to live long enough to share their life saving discovery with the world Taking the Risk: 2014 Short Story Collection Michael Ruiz, 2015-08-12 Inspired to write a short story every month of the year Michael Ruiz imagines a wide variety of fiction filled with romance

RUBY YURI, 2025-07-16 Ayla Cross once an invisible girl from a broken pack is now entangled in a world of power and deception she never asked for At Mooncrest Academy she's a servant among the elite but a chance encounter with Kade Thorne heir to the most powerful werewolf pack shatters her world Their fateful bond ignites passion yet Kade's rejection leaves her broken forced to flee with the child she never expected Four years later Ayla's life in Seattle is unraveling Her son Finn displays powers beyond belief and Kade now a man haunted by his choices is about to learn the truth Finn is his heir As enemies close in and dark forces threaten their family Ayla and Kade must confront their past and the dangerous future that awaits But with Finn's life at stake will they ever truly be free Or is it already too late Is it possible for them to heal the scars of their past or will history repeat itself Renew Ardis Dick Stenbakken, 2011 Throughout history and across cultures women have borne the responsibility of nurturing their homes and communities This vital work can leave us feeling drained empty with nothing left to give But God has promised renewal of your strength your spirit and your life A new day represents a new beginning and with a new beginning comes freshness and vigor Spend a few moments each day communing with God and the nearly 300 women from around the world who have experienced His renewal Through Him and this vast group of sisters may you be restored and revived as you find the strength to begin again until that day you are made perfect in holiness New York Magazine , 1979-07-23 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea *Prescribing under Pressure* Tanya Stivers, 2007-03-01 Antibiotics will soon no longer be able to cure common illnesses such as strep throat sinusitis and middle ear infections as they have done for the last 60 years Antibiotic resistant bacteria are increasing at a much faster rate than new antibiotics to treat them are being developed The prescription of antibiotics for viral illnesses is a key cause of increasing bacterial resistance Despite this fact many children continue to receive antibiotics unnecessarily for the treatment of viral upper respiratory tract infections Why do American physicians continue to prescribe inappropriately given the high social stakes of this action The answer appears to lie in the fundamentally social nature of medical practice physicians do not prescribe as the result of a clinical algorithm but prescribe in the context of a conversation with a parent and a child Thus physicians have a classic social dilemma which pits individual parents and children against a greater social good This book examines parent physician conversations in detail showing how

parents put pressure on doctors in largely covert ways for instance in specific communication practices for explaining why they have brought their child to the doctor or answering a history taking question This book also shows how physicians yield to this seemingly subtle pressure evidencing that apparently small differences in wording have important consequences for diagnosis and treatment recommendations Following parents use of these interactional practices physicians are more likely to make concessions alter their diagnosis or alter their treatment recommendation This book also shows how small changes in the way physicians present their findings and recommendations can decrease parent pressure for antibiotics This book carefully documents the important and observable link between micro social interaction and macro public health domains

process of development and growth This creative process takes on many forms however always following the structure of underlying dynamics The work is focused on recognising the dynamics and creating the right environment and conditions for growth to occur naturally At its root lies the assumed reality that love is the true force behind positive growth and that every human being has this basic capacity Based on 45 years of experience working in mental health institutions it is written by a young explorer of Art Therapy who will guide you through a journey of positive and playful learning It is a book full of recognition and useful tips for anyone who is personally interested in growth creativity and change as well as for parents therapists teachers and other professionals Ad van Vugt worked in psychiatry for over forty years both clinically and on an out patient basis Early on he came to the conclusion that mere talking was not enough and that the felt experience through creativity was at the basis of change Creative activities would be an important tool to support this change He started developing programmes with the help of colleagues and clients The core question that occupied him was about which dynamics are actually responsible for change and development and which conditions stimulate these dynamics in a natural way He moved away from problem oriented thinking and into development oriented thinking The theory that he developed is described in this book Johannes Ziskoven decided in 2015 to stop his philosophy course and travelled to Spain to assist his father participate in the courses and in return write the book about his father s work For three years he followed him did and assisted in workshops tried out the different creative techniques and had almost daily conversations and interviews with his father The result was this book It is not only a fitting rendering of his father s work but also a clear expression of his own creative process He now studies in the Netherlands to become an art therapist himself *Waltraut Gabriele*
