Volume 1-3** Michael Viktor

Schwarz, 2023-04-17 Vol 1 Life Giotto 1334 is the first European artist about whom it is possible to write following the schema of life and work The situation of the sources however is complicated On Giotto's life there are on the one hand biographical accounts from the mid fourteenth century onwards that responded to various ideological requirements patriotism humanism Renaissance ideology cult of the artist on the other there is extensive documentary material from Giotto's lifetime which seems to reflect less the biography of an artist than that of a bourgeois businessman resolutely climbing the social ladder The present volume focuses on this second aspect of the Giotto figure's double life relating it to the form of existence of the pre modern artist Vol 2 Works The paintings examined and contextualised in this volume are those secured for Giotto through early written sources These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300 while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans his artistic path began in Rome in the shadow of the Curia The breakthrough to his own artistic concept came immediately before and during his work in Padua In addition to prominent churchmen ecclesiastical institutions and the King of Naples his clients were predominantly members of Italy's urban and financial elites The adoption and further development of his inventions by other especially Sienese painters pressured him in his later years to try new approaches again Vol 3 Survival Giotto is considered by many to be the founder of modern painting This thesis is discussed and modified in the present volume on an empirical basis What emerges is that Giotto's impact cannot be reduced simply to the introduction of the study of nature Rather his art was involved in the

development of pictorial idioms that were attuned to the skills and interests of their audiences The new approaches in his painting contributed in particular to the possibility of examining and communicating psychological narrative and allegorical content of great complexity outside the media of language and text which not only changed the face of European art but certainly contributed to the intellectual opening of Western societies

**Giotto the Painter. Volume 2: Works** Michael Viktor Schwarz, 2023-04-17 The paintings examined and contextualised in this volume are those secured for Giotto through early written sources These sources also help to reconstruct the sequence of his works and artistic inventions as is plausible in the context of media culture in the decades around and after 1300 while Giotto was spiritually and intellectually formed in the sphere of the Florentine Dominicans his artistic path began in Rome in the shadow of the Curia The breakthrough to his own artistic concept came immediately before and during his work in Padua In addition to prominent churchmen ecclesiastical institutions and the King of Naples his clients were predominantly members of Italy's urban and financial elites The adoption and further development of his inventions by other especially Sienese painters pressured him in his later years to try new approaches again

*Lorenzo Ghiberti's Gates of Paradise* Amy R. Bloch, 2016-02-09 This book examines the heretofore unsuspected complexity of Lorenzo Ghiberti's sculpted representations of Old Testament narratives in his Gates of Paradise 1425-52 the second set of doors he made for the Florence Baptistery and a masterpiece of Italian Renaissance sculpture One of the most intellectually engaged and well read artists of his age Ghiberti found inspiration in ancient and medieval texts many of which he and his contacts in Florence's humanist community shared read and discussed He was fascinated by the science of vision by the functioning of nature and above all by the origins and history of art These unusually well defined intellectual interests reflected in his famous Commentaries shaped his approach in the Gates Through the selection imaginative interpretation and arrangement of biblical episodes Ghiberti fashioned multi textured narratives that explore the human condition and express his ideas on a range of social political artistic and philosophical issues

**Giotto the Painter. Volume 1: Life** Michael Viktor Schwarz, Pia Theis, 2023-04-17 Giotto 1334 is the first European artist about whom it is possible to write following the schema of life and work The situation of the sources however is complicated On Giotto's life there are on the one hand biographical accounts from the mid fourteenth century onwards that responded to various ideological requirements patriotism humanism Renaissance ideology cult of the artist on the other there is extensive documentary material from Giotto's lifetime which seems to reflect less the biography of an artist than that of a bourgeois businessman resolutely climbing the social ladder The present volume focuses on this second aspect of the Giotto figure's double life relating it to the form of existence of the pre modern artist

**Romanesque Renaissance** Konrad Adriaan Ottenheim, 2021-01-11 In early modern times scholars and architects investigated age old buildings in order to look for useful sources of inspiration They too occasionally misinterpreted younger

buildings as proofs of majestic Roman or other ancient glory such as the buildings of the Carolingian Ottonian and Stauffer emperors But even if the correct age of a certain building was known buildings from c 800 1200 were sometimes regarded as Antique architecture since the concept of Antiquity was far more stretched than our modern periodisation allows This was a Europe wide phenomenon The results are rather diverse in style but they all share an intellectual and artistic strategy a conscious revival of an ancient architecture whatever the date and origin of these models Contributors Barbara Arciszewska Lex Bosman Ian Campbell Eliana Carrara Bianca de Divitiis Krista De Jonge Emanuela Ferretti Emanuela Garofalo Stefaan Grieten Hubertus G nther Stephan Hoppe Sanne Maekelberg Kristoffer Neville Marco Rosario Nobile Konrad Ottenheym Stefano Piazza and Richard Schofield **Reading the Middle Ages, Volume II** Barbara H. Volume 3: Survival** Michael Viktor Schwarz, 2023-04-17 Giotto is considered by many to be the founder of modern painting This thesis is discussed and modified in the present volume on an empirical basis What emerges is that Giotto s impact cannot be reduced simply to the introduction of the study of nature Rather his art was involved in the development of pictorial idioms that were attuned to the skills and interests of their audiences The new approaches in his painting contributed in particular to the possibility of examining and communicating psychological narrative and allegorical content of great complexity outside the media of language and text which not only changed the face of European art but certainly contributed to the intellectual

opening of Western societies      **The Intellectual Struggle for Florence** Arthur Field, 2017-07-21 The Intellectual Struggle for Florence is an analysis of the ideology that developed in Florence with the rise of the Medici during the early fifteenth century the period long recognized as the most formative of the early Renaissance Instead of simply describing early Renaissance ideas this volume attempts to relate these ideas to specific social and political conflicts of the fifteenth century and specifically to the development of the Medici regime It first shows how the Medici party came to be viewed as fundamentally different from their opponents the oligarchs then explores the intellectual world of these oligarchs the traditional culture As political conflicts sharpened some humanists Leonardo Bruni and Francesco Filelfo with close ties to oligarchy still attempted to enrich traditional culture with classical learning while others such as Niccol Niccoli and Poggio Bracciolini rejected tradition outright and created a new ideology for the Medici party What is striking is the extent to which Niccoli and Poggio were able to turn a Latin or classical culture into a popular culture and how the culture of the vernacular remained traditional and oligarchic
