the American welfare state and its strong unions and the rise in global and flexible production Apparel manufacturers now have the incentive to move production to wherever low wage labor can be found while maintaining arm s length contractual relations that protect them from responsibility The flight of the industry has led to a huge rise in apparel imports to the United States and to a decline in employment Los Angeles however remains a puzzling exception in that its industry employment has continued to grow to the point where L A is the largest center of apparel production in the nation Not only the availability of low wage immigrant often undocumented workers but also the focus on moderately priced fashion sensitive women s wear makes this possible Behind the Label examines the players in the L A apparel industry including manufacturers retailers contractors and workers evaluating the maldistribution of wealth and power The authors explore government and union efforts to eradicate sweatshops while limiting the flight to Mexico and elsewhere and they conclude with a description of the growing antisweatshop movement Los Angeles Times Best Nonfiction Book of 2000     Urban Sociolinguistics Dick Smakman,Patrick Heinrich,2017-08-29 From Los Angeles to Tokyo Urban Sociolinguistics is a sociolinguistic study of twelve urban settings around the world Building on William Labov s famous New York Study the authors demonstrate how language use in these areas is changing based on belief systems behavioural norms day to day rituals and linguistic practices All chapters are written by key figures in sociolinguistics and presents the personal stories of individuals using linguistic means to go about their daily communications in diverse sociolinguistic systems such as extremely large urban conurbations like Cairo Tokyo and Mexico City smaller settings like Paris and Sydney less urbanised places such as the Western Netherlands Randstad area and Kohima in India Providing new perspectives on crucial themes such as language choice and language contact code switching and mixing language and identity language policy and planning and social networks this is key reading for students and researchers in the areas of multilingualism and super diversity within sociolinguistics applied linguistics and urban studies     **Crossing Borders** Tapan Basu,Tasneem Shahnaaz,2017-05-04 Crossing Borders is a gathering of twenty original interdisciplinary essays on the paradigm of borders in African American literature multi ethnic U S studies and South Asian studies These essays by established and mid career scholars from around the globe employ a variety of approaches to the idea of border crossings and represent important contributions to the discourses on modernity diasporic mobility populism migration exile sub nation trans nation as well as the formation of nationalities communities and identities Borders in these contexts signify social and national inequities and hierarchies and also the ways to challenge and transgress entrenched barriers sanctioned by habit custom and law The volume also honors and celebrates the life and work of Amritjit Singh as a teacher mentor author scholar and editor over half a century     Black Arts West Daniel Widener,2010-03-08 A social and cultural history of African American arts activity in Los Angeles between the Second World War and the 1992 riots     **Street Level: Los Angeles in the Twenty-First Century** Rob Sullivan,2016-04-01 In the latter part of the C20th a series of seminal books were written which examined Los

Angeles by the likes of Reyner Banham Mike Davis Edward Soja Allen Scott Michael Dear Frederick Jameson Umberto Eco Bernard Henri Levy and Jean Baudrillard which have been hugely influential in thinking about cities more broadly The debates which were generated by these works have tended to be very heated and either defensive or offensive in approach A sufficient amount of time has since passed that a more measured approach to evaluating this work can now be taken The first section of this book Contra This and Contra That provides such a critique of the various theories applied to Los Angeles during the last century balancing the positive with the negative The second part of the book is an investigation of L A as it exists on the ground today While political the theoretical stance taken in this investigation is not mounted as a platform from which to advocate a particular ideology Instead it encompasses cultural as well as economic issues to put forth a view of L A which is coherent and cogent while at the same time considering its multi layered complex and ever changing qualities It concludes by arguing that sectorised off and totalizing visions of the city will not do as instruments of urban analysis and that only a theory as mobile as its target will do one that replicates the polymer nature of this place It proposes that extending that theory to the world beyond this particular city only a theory that models itself on the mobile and polymer nature of the world while still retaining a sense of the actual and the real will do as an instrument with which to comprehend the world In doing so this book is not only a model by which to think through Los Angeles but as a model by which to think through other world cities
