mining company endeavors to bribe her out of dire poverty but in an act of integrity that is increasingly rare in the times we live in she balks in the face of their enticements What makes this story especially compelling and lasting is not that it catalogues the horrors endured by one woman or documents the horrible conditions of life in the Bolivian mining camps at large What makes it so compelling is that in documenting one woman's indomitable pursuit of justice her refusal to submit to harassment intimidation and even torture and the threat of death she offers a document of courage that can inspire generations to come As such more than just a personal account it also offers important contextualization of the struggles of her time such as for example a sense of the grip of the ideology that underpinned the potency of the mining sector in Bolivia at that time analysis of US imperialism in its crackdown on communism and leftists in general and a vision for praxis going forward The new edition of *Let Me Speak* includes never before translated testimonies resulting in a fuller picture of both Chungara's worldview and the time and place in which she arose the good the bad and the ugly which scholars of Latin American history women's history and oral history the testimonial genre will find of interest This includes a discussion of her role in bringing down the Hugo Banzer dictatorship and her work as an internationalist during the period of the Garc a Meza dictatorship from her position of exile in Sweden Her account is enduring in its historical significance and continues to be cited in numerous journal articles in every field imaginable from Sociology History and Anthropology survey classes to Latin American studies Labor studies Women's studies But apart from all that it is a very compelling and moving read that feels as vital as it did when first published even as it gives us a window on a truly remarkable movement of indigenous workers who so deeply believed in joint struggle that they supported each other in resisting corruption
