The Secret Lives of Men Chris Blazina,2008-09 Licensed psychologist and university professor Christopher Blazina Ph D offers an exploration explanation and clarification into the hidden realm of the male psyche

Representations of Child Soldiers in Contemporary African Narratives Ademola Adesola,2024-09-11 In Representations of Child Soldiers in Contemporary African Narratives Ademola Adesola examines the dominant factors that writers privilege in their portrayals of child soldiering in sub Saharan Africa In his textual interpretive analyses of selected novels in the African child soldier genre Adesola contends that critical discussions of African child soldier literature have depended on the interpretive frameworks supplied by Western humanitarian discourses which oversimplify and de historicize experiences of war in Africa The author argues that such reductive decontextualization of war realities serve to champion a narrow vision of war in African contexts centered on a moral and humanitarian urge for Western intervention Regardless of whether the casus belli legitimating those wars are genuine or not those conflicts and

children's involvement in them are understood within the same racist colonial and ethnocentric stereotypes about Africa that have been privileged in Western thought and the Western moral political imagination for centuries. Thus in studying African child soldier narratives this book provides an alternative reading of novels whose settings feature African ethnopolitical conflicts such as in Sierra Leone, Liberia, Congo, Brazzaville, Nigeria, notable for their exploitation of children for military ends. The author maintains that these works are significant in the varying ways they reify and challenge the Western ideas of child and childhood as well as privilege child soldiers as social actors whose intricate makeups disavow being simply understood as innocent victims or irredeemable perpetrators of atrocities. Dialogic Formations Marie-Cécile Bertau, Miguel M. Gonçalves, Peter T. F. Raggatt, 2013-01-01

This volume understands itself as an invitation to follow a fundamental shift in perspective away from the self-contained I of Western conventions and towards a relational self where development and change are contingent on otherness. In the framework of Dialogical Self Theory Hermans, Hermans, Gieser 2012 it is precisely the forms of interaction and exchange with others and with the world that determine the course of the self's development. The volume hence addresses dialogical processes in human interaction from a psychological perspective bringing together previously separate theoretical traditions about the self and about dialogue within the innovative framework of Dialogical Self Theory. The book is devoted to developmental questions and so broaches one of the more difficult and challenging topics for models of a pluralist self: the question of how the dynamics of multiplicity emerge and change over time. This question is explored by addressing ontogenetic questions directed at the emergence of the dialogical self in early infancy as well as microgenetic questions addressed to later developmental dynamics in adulthood. Additionally, development and change in a range of culture-specific settings and practices is also examined, including the practices of mothering of migration and cross-cultural assimilation and of doing psychotherapy. **Reading the World's Stories** Annette Y. Making American Boys Kenneth B. Kidd, 2004 Will boys be boys What are little boys made of Kenneth B Kidd responds to these familiar questions with a thorough review of boy culture in America since the late nineteenth century From the boy work promoted by character building organizations such as Scouting and 4 H to current therapeutic and pop psychological obsessions with children s self esteem Kidd presents the great variety of cultural influences on the changing notion of boyhood Kidd finds that the education and supervision of boys in the United States have been shaped by the collaboration of two seemingly conflictive approaches In 1916 Henry William Gibson a leader of the YMCA created the term boyology which came to refer to professional writing about the biological and social development of boys At the same time the feral tale with its roots in myth and folklore emphasized boys wild nature epitomized by such classic protagonists as Mowgli in The Jungle Books and Huck Finn From the tension between these two perspectives evolved society s perception of what makes a good boy from the responsible son asserting his independence from his father in the late 1800s to the idealized sexually confident and psychologically healthy youth of today The image of the savage child raised by wolves has been tamed

and transformed into a model of white middle class masculinity Analyzing icons of boyhood and maleness from Father Flanagan s Boys Town and Max in Where the Wild Things Are to Elin Gonzlez and even Michael Jackson Kidd surveys films psychoanalytic case studies parenting manuals historical accounts of the discoveries of wolf boys and self help books to provide a rigorous history of what it has meant to be an all American boy Kenneth B Kidd is assistant professor of English at the University of Florida and associate director of the Center for Children s Literature and Culture
