contested championship in years this in depth book with a foreword from Haas team principal Guenther Steiner tells the story of how the sport evolved into the exhilarating high octane spectacle it is today The new rules introduced in 2022 signal the greatest change to F1 in a generation cracking the field wide open and seeing some of the most compelling and competitive races in the last 25 years Technical changes aimed at levelling the playing field for the teams combined with the sport s tightening budget cap have made the races closer than ever There will be more sprint races trialled in 2021 and greater fan interest driven by Netflix s hugely successful Drive to Survive series So how did we get here How did F1 become the acknowledged Pinnacle of Motorsport Simon Arron and Tony Dodgins have identified the 100 most significant changes to the series since its inception in 1950 Formula One is unrecognizable from its debut season where drivers raced around on old bomber training aerodrome in Northamptonshire with oil drums to mark the corners and straw bales the only concession to safety New fans will welcome a complete and highly illustrated guide to the history of F1 while older fans will be able to compare their own views of what were the pivotal moments of change in a book written by experienced motoring writers with two lifetimes worth of knowledge of the sport The book will link technical progress with the personalities involved indeed many of the swiftest changes have come about as a result of accidents or tragedies the death of Roland Ratzenberger at Imola in 1994 the same weekend as Ayrton Senna could have been avoided by the HANS safety device The introduction of the halo saved Romain Grosjean s life in Bahrain last year but only came about because of the tragic accident that claimed Jules Bianchi in Japan Along with changes to circuits and the technology of the cars this book highlights the commercial changes and the controversies that threatened to split the sport apart such as the threat of breakaway series proposed at various times by teams A must read for completists or for those new to the sport F1 The Pinnacle is a fascinating insight into one of the most exciting and dangerous sports in the world **AB Bookman's Weekly** ,1994 *Williams Maurice*

Hamilton,2012-04-24 A story of true drive now the topic of a major documentary Founded in 1977 by Sir Frank Williams and Patrick Head Williams F1 represents the last of the true independent teams a company devoid of corporate dogma and run by enthusiasts driven by a love of racing and the satisfaction that comes with beating the rest of the world Since its first Grand Prix victory at Silverstone on 14 July 1979 the team has won a further 116 GPs delivered seven World Champions among them Nigel Mansell and Damon Hill and won nine Constructors Championships This is the definitive history of the Williams team as told by those who have worked for Williams past and present At the heart of the book are Sir Frank s personal recollections along with memories and anecdotes from those at every level from the shop floor to the upper strata of management from the mechanics and machinists to the drivers Mansell Hill Alain Prost and Alan Jones among them It relates both the incredible highs of winning against the odds while never shying the terrible lows the tragic deaths of Piers Courage in 1970 and Ayrton Senna in 1994 among them Conveying the history and soul of a unique band of people Williams F1 explains exactly why the Williams team is held in more affection than any other team in Britain if not the world **Live**
