Natos Strategic Options Arms Control And Defense:

NATO's Strategic Options David Scott Yost,1981 Forfattere Kenneth Adelman Richard Burt Thomas A Callaghan Samuel T Cohen Joseph D Douglass William R Graham John G Keliher Uwe Nerlich Robin Ranger John P Rose Robert Strausz Hup Peter H Vigor Seymour Weiss og David S Yost **Strategic Review** ,1981 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States **The Friday Review of Defense Literature** ,1983 *North Atlantic Treaty Organization* Phil Williams,2024-11-01 This volume consists of major books written in the English language on NATO as well as an extensive listing of journal articles that deal with various aspects of the Alliance All the major debates that have taken place over the last forty years are discussed **Air University Review** ,1982-07 **NATO at 40 years : a critical assessment.** ,1989 **NATO Defense and the INF Treaty** United States. Congress. Senate. Committee on Armed Services,1989 *The Strategic Defense Initiative* Ralph L. Dietl,2018-08-15 The Nuclear and Space Talks revolutionized arms control The Cold War endgame commenced with the umbrella negotiations that linked START and INF negotiations to a regulation on the weaponization of space This volume reveals a US grand strategy to replace deterrence with a collective security order An entente of the superpowers was needed to transform bipolarity The US planned the replacement of mutually assured destruction by mutually assured security A global astrodome was to protect a nuclear disarmed world The Franco German special relationship in European affairs had to be amended by a US SU special relationship to replace classic bloc politics The Reagan Administration planned a global zero agenda a joint development of a global protective system and a creation of a Common House of Europe In brief the superpowers prepared the velvet revolution that eliminated the Cold War structures Neither containment nor convergence offers a valid explanation of the Cold War endgame Co creation is the key to decipher the end of the Cold War NATO Europe challenged the transformation of bipolarity The European NWS resisted to a multilateralization of strategic arms control In Europe the classic Cold War thinking survived the fall of the Iron Curtain European conservatism contributed to the geopolitical catastrophe of the first order the downfall of the Soviet Union The Reagan Administration developed a Grand Strategy to end the Cold War The US SU co creation of an astrodome was meant to ease a global zero agenda A global collective security structure under the United Nations was to replace deterrence The superpower project collapsed due to the penetration of US decision making by NATO Allies The European NWS totally objected to a multilateralization of strategic arms control to preserve their relative position in the international system *1985 Proceedings Federal Acquisition Research Symposium* ,1985 *Special Bibliography Series* United States Air Force Academy. Library,1989 Chemical Warfare Edward M. Spiers,2016-04-30 Ever since its employment in the First World War chemical warfare has always aroused controversy Governments have responded by pursuing the policies of disarmament and deterrence in the hope of avoiding its recurrence However despite the signing of the Geneva Protocol in 1925 which banned the use of poison

gas chemical weapons have been used in subsequent conflicts and most recently in the Gulf War between Iraq and Iran In this work the policies of disarmament and deterrence will be reassessed within a broad historical and strategic context It will be argued that poison gas could still be used in a modern European conflict that the Soviet forces are the best equipped to operate in a contaminated environment and that weaknesses persist in NATO s anti chemical defences and in her deterrent It will be emphasised too that the Geneva disarmament talks which have made some progress in recent years still face formidable difficulties over the issues of verification and compliance Above all it will be claimed that the onset of nuclear parity between the superpowers has eroded the credibility of a deterrent to chemical attack based upon the threat of nuclear release Accordingly this book will contend that the United States should modernize her stockpile of chemical weapons to bolster the Western deterrent and to provide more leverage for the negotiations in Geneva

The Federal Republic Of Germany And The United States James A Cooney,Gordon Craig,Hans-Peter Schwarz,Fritz Stern,2019-07-11 This book examines the current and historical dimensions of relations between the United States and the Federal Republic of Germany focusing on the complex economic issues that make the two countries interdependent and on the resulting policy implications The contributors analyze the reasons for increasingly problematic relations between the United States and West Germany arguing that the situation is exacerbated by the inadequate understanding Americans often have of the changing nature of society politics and culture in West Germany

[Conflict Termination And Military Strategy](#) Stephen J. Cimbala,2019-04-10 Although considerable attention has been paid to deterrence theory and crisis management the equally important topic of ending wars has been virtually ignored Conflict termination is the stepchild of U S strategy for a number of reasons Thinking about how wars should end presupposes acceptance of the fact that war especially nuclear war is possible Further analyzing options for ending conflicts implies less than total victory a concept that not only runs counter to the U S approach to warfare but also raises the specter of limited war an approach that fell into disfavor following Korea and Vietnam

Finally defining conflict termination objectives assumes that we think more about ends than means that we know what is important to us and why and thus understand the risks we will accept to defend specific interests and objectives The contributors examine a wide variety of topics ranging from Soviet and U S views on conflict termination to past present and future U S military service contributions Their aim is to demonstrate the importance of careful evaluation of conflict termination goals during peacetime because when war begins passions and emotions will cloud decisionmaking
