Comparative Federalism Thomas O. Hueglin, Alan Fenna, 2015-08-24. *Comparative Federalism: A Systematic Inquiry*. Second Edition is a uniquely comprehensive analytic and genuinely comparative introduction to the principles and practices as well as the institutional compromises of federalism. Hueglin and Fenna draw from their diverse research on federal systems to focus on four main models: America, Canada, Germany and the European Union, but also to range widely over other cases. At the heart of the book is careful analysis of the relationship between constitutional design and amendment, fiscal relations, institutional structures, intergovernmental relations and judicial review. Such analysis serves the dual role of helping the reader understand federalism and providing a comparative framework from which to assess the record of federal systems. The second edition has been extensively revised and updated, taking into account new developments in federal systems and incorporating insights from the growing body of literature in the field. It includes two new chapters: *Fiscal Federalism* and *The Limits of Federalism*. *The Modern Eclectic Dictionary of the English Language*, Robert Hunter, Charles Morris, 1904. *Book Review Digest*, 1927. **Universal Dictionary of the English Language**, Robert Hunter, Charles Morris, 1897. **Education Outlook**, 1917. **Educational Times**, 1916. The Educational Times, and Journal of the College of Preceptors, 1916. **Educational Times and Journal of the College of Preceptors**, 1916.
