Oregon Historical Quarterly Fall 1998

Kathleen Armour

Oregon Historical Quarterly Fall 1998:

Oregon Historical Quarterly Oregon Historical Society, 1914 *Murder & Mayhem in Portland, Oregon* JD Chandler, 2013-03-19 A shocking true chronicle of some of Portland Oregon's most infamous criminal cases from its wild roots as a frontier town to post war 20th century Here are some of the most horrifying crimes that made headlines and shook Portland Oregon The brutal Ardenwald axe murders The retribution killings by Chinatown tongs The fiendish acts of the Dark Strangler In this compelling account author JD Chandler chronicles the coverups false confessions miscarriages of justice and the investigative twists of Portland's sordid past From the untimely end of the Black Mackintosh Bandit to the convoluted hunt for the Milwaukie Monster Murder Mayhem in Portland Oregon is a true crime account that acknowledges the officers who sought justice and remembers the victims whose lives were claimed by violence all while providing important historical context *Same-Sex Affairs* Peter Boag, 2003-08-14 Same Sex Affairs is a path breaking history of male homosexuality in the Pacific Northwest from 1890 to 1930 *The Western Historical Quarterly*, 1999 *Portland* Heather Arndt Anderson, 2014-11-13 The infant city called The Clearing was a bald patch amid a stuttering wood The Clearing was no booming metropolis no destination for gastrotourists no career changer for ardent chefs just awkward palsied steps toward Victorian gentility In the decades before the remaining trees were scraped from the landscape Portland's wood was still a verdant breadbasket overflowing with huckleberries and chanterelles venison leaping on cloven hoof Today Portland is seen as a quaint village populated by trust fund wunderkinds who run food carts each serving something more precious than the last But Portland's culinary history actually tells a different story the tales of the salmon people the pioneers and immigrants each struggling to make this strange but inviting land between the Pacific and the Cascades feel like home The foods that many people associate with Portland are derived from and defined by its history salmon berries hazelnuts and beer But Portland is more than its ingredients Portland is an eater's paradise and a cook's playground Portland is a gustatory wonderland Full of wry humor and captivating anecdotes Portland A Food Biography chronicles the Rose City's rise from a muddy Wild West village full of fur traders lumberjacks and ne'er do wells to a progressive bustling town of merchants brewers and oyster parlors to the critical darling of the national food scene Heather Arndt Anderson brings to life in lively prose the culinary landscape of Portland then and now **"They Are All Red Out Here"** Jeffrey A. Johnson, 2014-10-20 One of early twentieth century America's most fertile grounds for political radicalism the Pacific Northwest produced some of the most dedicated and successful socialists the country has ever seen As a radicalized labor force emerged in mining logging and other extractive industries socialists employed intensive organizational and logistical skills to become an almost permanent third party that won elections and shook the confidence of establishment rivals At the height of Socialist Party influence just before World War I a Montana member declared They are all red out here In this first book to fully examine the development of the American Socialist Party in the Northwest Jeffrey A Johnson draws a sharp picture of one of the most

vigorous left wing organizations of this era Relying on party newspapers pamphlets and correspondence he allows socialists to reveal their own strategies as they pursued their agendas in Washington Oregon Idaho and Montana And he explores how the party gained sizable support in Butte Spokane and other cities seldom associated today with left wing radicalism They Are All Red Out Here employs recent approaches to labor history by restoring rank and file workers and party organizers as active participants in shaping local history The book marks a major contribution to the ongoing debate over why socialism never grew deep roots in American soil and no longer thrives here It is a work of political and labor history that uncovers alternative social and political visions in the American West **America's Political Class Under Fire** David A.

Horowitz,2013-12-02 While the clash between what has been called the modern and undeveloped worlds has led to America's military involvement in the Middle East and other places few people realize the tension between the modern and the traditional within the United States Beginning in the 1920's professional intellectuals and academics began influencing the nation's public policy on matters as diverse as education economics and public health In this thoughtful work David A Horowitz analyzes the tension between the so called New Class of knowledge professionals and their critics who accused them of being out of touch with the common sense of everyday people strangers to the American Way even Communists America's Political Class Under Fire is organized over nine periods of 20th century history providing a window into everything from the Scopes evolution trial and McCarthyism to affirmative action and the Clinton health care fiasco Along the way the book explores the New Left populist conservatism and the mid 90's reaction to political liberalism which saw Newt Gingrich rise to the top post in the House of Representatives In telling these stories Horowitz seeks to encourage a more balanced and fair minded assessment of the consequences of expertise and applied intellect to democratic existence in the United States **Voices from within the Veil** William H. Alexander,Charles H. Ford,Cassandra L.

Newby-Alexander,2009-05-27 And then the Veil It drops as drops the night on southern seas vast sudden unanswering There is Hate behind it and Cruelty and Tears As one peers through its intricate unfathomable pattern of ancient old old design one sees blood and guilt and misunderstanding And yet it hangs there this Veil between Then and Now between Pale and Colored and Black and White between You and Me W E B DuBois Darkwater Voices from within the Veil 1920 As the promoters of Jamestown 2007 began to speak of the accomplishment of greater diversity in the nation and to market the myth of the seamless confluence of Indian European and African traditions in the early colony many reflected not only about how the United States colonial origins were based on the entrepreneurial ambitions of English settlers the conquest and degradation of native populations and the subsequent uprooting and enslavement of untold numbers of Africans but also about how the more recent legacy of decades of discrimination and marginalization continue to shape our world today Despite the assimilation acculturation and dehumanization that have occurred in the Americas African Americans have continued to refashion their cultures to fit their own social needs and aesthetic preferences From Introduction Voices from within the Veil

explores the 400 year prelude to the inclusion of African Americans in the commemoration of this nation's origins. With innovative approaches and pioneering research, these essays address both the conditions of African Americans' marginalization and some of the paths toward their empowerment: marronage, the Underground Railroad, social organization, and massive protest movements among others.

The Modoc War Robert Aquinas McNally, 2017-11-01 On a cold rainy dawn in late November 1872, Lieutenant Frazier Boutelle and a Modoc Indian nicknamed Scarface Charley leveled firearms at each other. Their duel triggered a war that capped a decades-long genocidal attack that was emblematic of the United States' conquest of Native America's peoples and lands. Robert Aquinas McNally tells the wrenching story of the Modoc War of 1872-73, one of the nation's costliest campaigns against North American Indigenous peoples in which the army placed nearly one thousand soldiers in the field against some fifty-five Modoc fighters. Although little known today, the Modoc War dominated national headlines for an entire year. Fought in south-central Oregon and northeastern California, the war settled into a siege in the desolate Lava Beds and climaxed the decades-long effort to dispossess and destroy the Modocs. The war did not end with the last shot fired; however, for the first and only time in U.S. history, Native fighters were tried and hanged for war crimes. The surviving Modocs were packed into cattle cars and shipped from Fort Klamath to the corrupt disease-ridden Quapaw reservation in Oklahoma, where they found peace even more lethal than war. The Modoc War tells the forgotten story of a violent and bloody Gilded Age campaign at a time when the federal government boasted officially of a peace policy toward Indigenous nations. This compelling history illuminates a dark corner in our country's past.

No Higher Law Brian Loveman, 2010 This sweeping and compelling narrative tells the story of how America's sense of its own exceptionalism and righteous superiority led it to wield its terrible swift sword across the Western Hemisphere from the earliest days of the Republic to the first decade of the twenty-first century. William M. Leogrande, American University.

The People Are Dancing Again Charles Wilkinson, 2012-02-01 The history of the Siletz is in many ways the history of all Indian tribes in America: a story of heartache, perseverance, survival, and revival. It began in a resource-rich homeland thousands of years ago and today finds a vibrant modern community with a deeply held commitment to tradition. The Confederated Tribes of Siletz Indians, twenty-seven tribes speaking at least ten languages, were brought together on the Oregon Coast through treaties with the federal government in 1853-55. For decades after, the Siletz people lost many traditional customs, saw their languages almost wiped out, and experienced poverty, killing diseases, and humiliation. Again and again, the federal government took great chunks of the magnificent timber-rich tribal homeland, a reservation of 1.1 million acres reaching a full 100 miles north to south on the Oregon Coast. By 1956, the tribe had been terminated under the Western Oregon Indian Termination Act, selling off the remaining land, cutting off federal health and education benefits, and denying tribal status. Poverty worsened, and the sense of cultural loss deepened. The Siletz people refused to give in. In 1977, after years of work and appeals to Congress, they became the second tribe in the nation to have its federal status, its treaty rights, and its

sovereignty restored Hand in glove with this federal recognition of the tribe has come a recovery of some land several hundred acres near Siletz and 9 000 acres of forest and a profound cultural revival This remarkable account written by one of the nation s most respected experts in tribal law and history is rich in Indian voices and grounded in extensive research that includes oral tradition and personal interviews It is a book that not only provides a deep and beautifully written account of the history of the Siletz but reaches beyond region and tribe to tell a story that will inform the way all of us think about the past Watch the book trailer <https://www.youtube.com/watch?v=NEtAIGxp6pc> **United States West Coast** Adam

Sowards,2007-08-06 The most up to date and insightful overview available on the environmental history of the West Coast of the United States a region of extraordinary physical beauty distinguished by its inhabitants efforts to both sustain and exploit their natural resources Part of ABC CLIO s Nature and Human Societies series United States West Coast An Environmental History explores the interplay of ecology economy and culture throughout the history of the region of North America where the waters drain to the Pacific Ocean Synthesizing the most recent and insightful studies on the region United States West Coast portrays environmental change in the far western United States from the emergence of humans in the Pacific Northwest about 12 000 years ago to the rise of European colonial trade networks to the era of industrialization and urbanization to present day activism and public policy responses to environmental damage By investigating how humans interact with their nonhuman surroundings across a specific expanse that encompasses all kinds of landscapes cultures and commercial enterprises this insightful volume shows just how interdependent the relationship between people and their environment is *Possessing Meares Island* Barry Gough,2021-11-13 A fascinating account that links early maritime history

Indigenous land rights and modern environmental advocacy in the Clayoquot Sound region by award winning author and historian Barry Gough Centred on Meares Island located near Tofino on Vancouver Island s west coast Possessing Meares Island weaves a unique history out of the mists of time by connecting eighteenth century Indigenous colonial trade relations to more recent historical upheavals Gough invites readers to enter a dramatic epoch of BC s coastal history and watch the Nuuchah Nulth nations spearhead the maritime sea otter trade led by powerful chiefs like Wicaniish and Maquinna Eventually Meares Island declines into an economic backwater due to overhunting the sea otter the bloody Clayoquot War of 1855 and most importantly the proxy of empire the Hudson s Bay Company establishing colonial roots in nearby Victoria Caught up in the tides of change the Treaty of 1846 ushers in a new era as the island is officially declared property of the British crown Gough bridges the gap between centuries as he describes how the Nuuchah Nulth Tribal Council draw on this complicated history of ownership to invoke their legal claim to the land and defend the majestic wilderness from the indiscriminate clear cut saw Possessing Meares Island will not only appeal to history buffs but to anyone interested in a momentous triumph for Indigenous rights and environmental protection that echoes across the nation today **Making a Modern U.S. West** Sarah Deutsch,2022 To many Americans in the nineteenth and twentieth centuries the West was

simultaneously the greatest symbol of American opportunity the greatest story of its history and the imagined blank slate on which the country's future would be written From the Spanish American War in 1898 to the Great Depression's end from the Mississippi to the Pacific policymakers at various levels and large scale corporate investors along with those living in the West and its borderlands struggled over who would define modernity who would participate in the modern American West and who would be excluded In *Making a Modern U S West* Sarah Deutsch surveys the history of the U S West from 1898 to 1940 Centering what is often relegated to the margins in histories of the region the flows of people capital and ideas across borders Deutsch attends to the region's role in constructing U S racial formations and argues that the West as a region was as important as the South in constructing the United States as a white man's country While this racial formation was linked to claims of modernity and progress by powerful players Deutsch shows that visions of what constituted modernity were deeply contested by others This expansive volume presents the most thorough examination to date of the American West from the late 1890s to the eve of World War II

Coming Full Circle Suzanne Crawford O'Brien, 2020-02-17 *Coming Full Circle* is an interdisciplinary exploration of the relationships between spirituality and health in several contemporary Coast Salish and Chinook communities in western Washington from 1805 to 2005 Suzanne Crawford O'Brien examines how these communities define what it means to be healthy and how recent tribal community based health programs have applied this understanding to their missions and activities She also explores how contemporary definitions goals and activities relating to health and healing are informed by Coast Salish history and also by indigenous spiritual views of the body which are based on an understanding of the relationship between self ecology and community *Coming Full Circle* draws on a historical framework in reflecting on contemporary tribal health care efforts and the ways in which they engage indigenous healing traditions alongside twenty first century biomedicine The book makes a strong case for the current shift toward tribally controlled care arguing that local culturally distinct ways of healing and understanding illness must be a part of contemporary Native healthcare Combining in depth archival research extensive ethnographic participant based field work and skillful scholarship on theories of religion and embodiment Crawford O'Brien offers an original and masterful analysis of contemporary Native Americans and their worldviews

Greater Portland Carl Abbott, 2001-04-19 Carl Abbott reports how Portland became a model of American urban planning

The Pacific Raincoast Robert Bunting, 1997 This work chronicles the struggle for the Douglas fir region from the first sustained contact between native American and Euro American cultures to 1900 when Fredrick Weyerhaeuser's purchase of some of the area completed one of the largest land deals in US history

The Rose and Irish Identity NK Harrington, 2021-06-09 Both Ireland and the Pacific Northwest are known for their climates and have historically been associated with the rose This collection of essays explores the exchange Ireland has had with the Northwest using the rose as an example by examining the beautiful and the harsh the petals and the thorns It is the culmination of the work of established and emerging historians and writers who have traversed the boundary between the

Northwest and Ireland several times The timely contributions gathered here include essays about the imperialist mindset biased court systems the victims of social hatred and organized resistance Timeless themes include grief poetry and the oral tradition and the effect plants have upon a given population The book is a much needed contribution to often overlooked aspects of colonialism and boundaries

Reconstructing Historic Landmarks Wayde Brown, 2018-09-03 Historic reconstructions have been a consistent part of the historic preservation and heritage conservation movements in the United States and Canada Indeed reconstruction has been the primary tool at the most influential historic sites for example the Governor's Palace and the Capitol at Colonial Williamsburg USA and in Canada the Fortress of Louisbourg Dozens of other reconstructions have appeared during the past century in North America undertaken by individuals communities states and provinces and by national agencies responsible for cultural heritage Despite this prevalence historic reconstructions have received little scholarly attention and the question of what motivated the proponents of these projects remains largely unexamined This book explores that question through detailed studies of ten historic reconstructions located throughout Canada and the United States ranging from 1908 to 2011 Drawing upon diverse archival sources and site investigations the proponents of each site are given voice to address their need to remake these landmarks be it to sustain to challenge or even subvert a historical narrative or with reference to contemporary heritage studies to reclaim these spaces Reconstructing Historic Landmarks provides a fascinating insight into these shifting concepts of history in North America and will be of considerable interest both to students and scholars of historic preservation and indeed to heritage professionals involved in reconstructions themselves

Frontier Women Julie Jeffrey, 1998-02-28 The classic history of women on America's frontiers now updated and thoroughly revised FRONTIER WOMEN is an imaginative and graceful account of the extraordinarily diverse contributions of women to the development of the American frontier Author Julie Roy Jeffrey has expanded her original analysis to include the perspectives of African American and Native American women
