

POOR KIDS IN A RICH COUNTRY

AMERICA'S RICH KIDS ARE GETTING RICHER, BUT THE POOR ARE GETTING POORER. AND THAT'S THE PROBLEM.

Poor Kids In A Rich Country Americas Children In Comparative Perspective

Kevin Michael Fitzpatrick

Poor Kids In A Rich Country Americas Children In Comparative Perspective:

Poor Kids in a Rich Country Lee Rainwater, Timothy M. Smeeding, 2003-12-03 In *Poor Kids in a Rich Country* Lee Rainwater and Timothy Smeeding ask what it means to be poor in a prosperous nation especially for any country's most vulnerable citizens its children In comparing the situation of American children in low income families with their counterparts in fourteen other countries including Western Europe Australia and Canada they provide a powerful perspective on the dynamics of child poverty in the United States Based on the rich data available from the transnational Luxembourg Income Study LIS *Poor Kids in a Rich Country* puts child poverty in the United States in an international context Rainwater and Smeeding find that while the child poverty rate in most countries has been relatively stable over the past 30 years child poverty has increased markedly in the United States and Britain two of the world's wealthiest countries The book delves into the underlying reasons for this difference examining the mix of earnings and government transfers such as child allowances sickness and maternity benefits unemployment insurance and other social assistance programs that go into the income packages available to both single and dual parent families in each country Rainwater and Smeeding call for policies to make it easier for working parents to earn a decent living while raising their children policies such as parental leave childcare support increased income supports for working poor families and a more socially oriented education policy They make a convincing argument that our definition of poverty should not be based solely on the official poverty line that is the minimum income needed to provide a certain level of consumption but on the social and economic resources necessary for full participation in society Combining a wealth of empirical data on international poverty levels with a thoughtful new analysis of how best to use that data *Poor Kids in a Rich Country* will provide an essential tool for researchers and policymakers who make decisions about child and family policy

Just Plain Data Analysis Gary M. Klass, 2012-04-13 *Just Plain Data Analysis* teaches students statistical literacy skills that they can use to evaluate and construct arguments about public affairs issues grounded in numerical evidence The book addresses skills that are often not taught in introductory social science research methods courses and that are often covered sketchily in the research methods textbooks where to find commonly used measures of political and social conditions how to assess the reliability and validity of specific indicators how to present data efficiently in charts and tables how to avoid common misinterpretations and misrepresentations of data and how to evaluate causal arguments based on numerical data With a new chapter on statistical fallacies and updates throughout the text the new edition teaches students how to find interpret and present commonly used social indicators in an even clearer and more practical way

Social Policy and Social Justice Michael Reisch, 2013-02-21 *Social Policy and Social Justice* provides today's students and tomorrow's practitioners with a comprehensive overview of U S social policy and the policymaking process Author and editor Michael Reisch brings together experts in the field to help students understand these policies and prepare them for the emerging realities that will shape practice in the 21st century This text explores the critical contextual

components of social policy including history ideology political economy and culture and demonstrates major substantive areas of policy such as income maintenance and health mental health

The Palgrave Handbook of Childhood Studies J. Qvortrup, W. Corsaro, M. Honig, 2016-04-30 A landmark publication in the field this state of the art reference work with contributions from leading thinkers across a range of disciplines is an essential guide to the study of children and childhood and sets out future research agendas for the subject

Children of Austerity Bea Cantillon, Yekaterina Chzhen, Sudhanshu Handa, Brian Nolan, 2017-04-07 The 2008 financial crisis triggered the worst global recession since the Great Depression Many OECD countries responded to the crisis by reducing social spending Through 11 diverse country case studies Belgium Germany Greece Hungary Ireland Italy Japan Spain Sweden United Kingdom and the United States this volume describes the evolution of child poverty and material well being during the crisis and links these outcomes with the responses by governments The analysis underlines that countries with fragmented social protection systems were less able to protect the incomes of households with children at the time when unemployment soared In contrast countries with more comprehensive social protection cushioned the impact of the crisis on households with children especially if they had implemented fiscal stimulus packages at the onset of the crisis Although the macroeconomic shock itself and the starting positions differed greatly across countries while the responses by governments covered a very wide range of policy levers and varied with their circumstances cuts in social spending and tax increases often played a major role in the impact that the crisis had on the living standards of families and children

The Narcissism of Minor Differences Peter Baldwin, 2009-11-05 There is much heated rhetoric about the widening gulf between Europe and America But are the US and Europe so different Peter Baldwin one of the world's leading historians of comparative social policy thinks not and in this bracingly argued but remarkably informed polemic he lays out how similar the two continents really are Drawing on the latest evidence from sources such as the United Nations the World Bank IMF and other international organizations Baldwin offers a fascinating comparison of the United States and Europe looking at the latest statistics on the economy crime health care education and culture religion the environment and much more It is a book filled with surprising revelations For most categories of crime for instance America is safe and peaceful by European standards But the biggest surprise is that though there are many differences between America and Europe in almost all cases these differences are no greater than the differences among European nations Europe and the US are in fact part of a common big tent grouping America is not Sweden for sure But nor is Italy Sweden nor France nor even Germany And who says that Sweden is Europe Anymore than Vermont is America Meticulous insistent and elegant John Lloyd Financial Times A must read filled with intriguing facts that add nuance to what can often be a black and white debate Foreign Affairs An exhaustive and enthralling catalogue of our commonalities that begs a reconsideration of just what it means to be European or American Publishers Weekly

Handbook of Social Capital Gert Tinggaard Svendsen, Gunnar Lind Haase Svendsen, 2009 Given the current global economic crisis that has its root

causes in the psychology of the marketplace every bit as much as any other factor the Handbook of Social Capital is timely insightful informed informative thoughtful and thought provoking reading A compilation of impressive and extensive scholarship the Handbook of Social Capital is strongly recommended for academic and professional library reference collections Library Bookwatch Midwest Book Review The Handbook of Social Capital offers an important contribution to the study of bonding and bridging social capital networks balancing the troika of sociology political science and economics Eminent contributors including Nobel Prize winner Elinor Ostrom explore the different scientific approaches required if international research is to embrace both the bright and the more shadowy aspects of social capital The Handbook stresses the importance of trust for economies all over the world and contains a strong advocacy for cross disciplinary work within the social sciences Social capital is becoming one of the most important and hotly discussed topics of today This inter disciplinary Handbook intends to serve as a bridge for students and scholars across the social sciences

Poverty and Health Kevin Michael Fitzpatrick, 2013-10-28 A collection of in depth essays focused on the health issues facing the poorest populations in the United States as it relates to the common good of all Americans Despite living in one of the wealthiest countries in the world far too many low income and no income men women and children in this nation are without health insurance or health care More than half of those financially bereft have a serious health problem with poor children three to five times more likely to experience chronic health issues than their more affluent peers This set is a compilation of writings that address the complex problem of poverty and health across location and population Through two informative volumes the authors examine key issues including health care delivery access and disparities among various disenfranchised populations Leading experts explore the reciprocal relationship between economic disadvantage and poor health and ponder potential solutions to cope with these challenges

The Blackwell Companion to Social Inequalities Mary Romero, Eric Margolis, 2008-04-15 The Blackwell Companion to Social Inequalities is a first rate collection of social science scholarship on inequalities emphasizing race ethnicity class gender sexuality age and nationality Highlights themes that represent the scope and range of theoretical orientations contemporary emphases and emerging topics in the field of social inequalities Gives special attention to debates in the field developing trends and directions and interdisciplinary influences in the study of social inequalities Includes an editorial introduction and suggestions for further reading

The Routledge Handbook of Global Child Welfare Pat Dolan, Nick Frost, 2017-02-17 In the context of the increasing global movement of people and a growing evidence base for differing outcomes in child welfare Routledge Handbook of Global Child Welfare provides a compelling account of child welfare grounded in the latest theory policy and practice Drawing on eminent international expertise the book offers a coherent and comprehensive overview of the policies systems and practices that can deliver the best outcomes for children It considers the challenges faced by children globally and the difference families services and professionals can make This ambitious and far reaching handbook is essential reading for everyone working to make the world a better and safer place for

children *Poverty and Austerity amid Prosperity* Gregg M. Olsen, 2021-09-15 Poverty and Austerity amid Prosperity puts a sharp focus on rising levels of poverty and homelessness in Canada the United Kingdom and the United States Highlighting the important differences between these countries Gregg M Olsen examines how poverty and homelessness have been conceptualized defined measured and addressed in each country Olsen critically contrasts the two main theoretical traditions individual and societal that have emerged to explain poverty and homelessness Ultimately he argues that societal approaches to the study of poverty are better equipped to explain the developments unfolding across these nations and that the eradication of poverty will only happen when the socioeconomic system has been seriously overhauled and founded upon economic democracy

Poverty and Welfare in America David Wagner, 2019-09-12 This book closely examines controversial claims and beliefs surrounding poverty and anti poverty programs in the United States It authoritatively dismantles falsehoods half truths and misconceptions leaving readers with an unbiased accurate understanding of these issues Poverty and Welfare in America Examining the Facts like every book in the Contemporary Debates series is intended to puncture rather than perpetuate myths that diminish our understanding of important policies and positions to provide needed context for misleading statements and claims and to confirm the factual accuracy of other assertions This book clarifies some of the most contentious and misunderstood aspects of American poverty and the social welfare programs that have been crafted to combat it over the years In addition to providing up to date data about the extent of American poverty among various demographic groups in the United States it examines the chief causes of poverty in the 21st century including divorce disability and educational shortfalls Moreover the book provides an evenhanded examination of the nation s social welfare agencies and the effectiveness of various social service programs managed by those agencies in addressing and reducing poverty

Family Poverty in Diverse Contexts C. Anne Broussard, Alfred L. Joseph, 2008-09-30 Family Poverty in Diverse Contexts addresses the context of poverty in the United States and focuses on poverty issues that family members must confront as they move through the life course This edited collection provides a unique perspective that draws together macro and micro research about how poverty affects families throughout their lives increasing risks and reducing opportunities at every stage Individual chapters emphasize the context of poverty in the United States then go on to examine specific life cycle stages and what happens when poverty intersects with family concerns Contributing authors are respected experts in their fields and represent a broad range of disciplines and perspectives including child development community health education family studies gerontology disability public policy social work and sociology Family Poverty in Diverse Contexts includes a range of pedagogical features to enhance learning such as exercises and discussions relating to each chapter which will encourage readers to think critically and apply the knowledge to their own lives It will interest students academics and researchers of sociology family studies social work and health as well as other related disciplines

Handbook of the Economics of Population Aging John Piggott, Alan Woodland, 2016-11-21 Handbook of the Economics of Population Aging

synthesizes the economic literature on aging and the subjects associated with it including social insurance and healthcare costs both of which are of interest to policymakers and academics These volumes the first of a new subseries in the Handbooks in Economics describe and analyze scholarship created since the inception of serious attention began in the late 1970s including information from general economics journals from various field journals in economics especially but not exclusively those covering labor markets and human resource issues from interdisciplinary social science and life science journals and from papers by economists published in journals associated with gerontology history sociology political science and demography amongst others Dissolves the barriers between policymakers and scholars by presenting comprehensive portraits of social and theoretical issues Synthesizes valuable data on the topic from a variety of journals dating back to the late 1970s in a convenient comprehensive resource Presents diverse perspectives on subjects that can be closely associated with national and regional concerns Offers comprehensive critical reviews and expositions of the essential aspects of the economics of population aging

Insufficient Funds Hung Cam Thai, 2014-04-09 Every year migrants across the globe send more than 500 billion to relatives in their home countries and this circulation of money has important personal cultural and emotional implications for the immigrants and their family members alike Insufficient Funds tells the story of how low wage Vietnamese immigrants in the United States and their poor non migrant family members give receive and spend money Drawing on interviews and fieldwork with more than one hundred members of transnational families Hung Cam Thai examines how and why immigrants who largely earn low wages as hairdressers cleaners and other invisible workers send home a substantial portion of their earnings as well as spend lavishly on relatives during return trips Extending beyond mere altruism this spending is motivated by complex social obligations and the desire to gain self worth despite their limited economic opportunities in the United States At the same time such remittances raise expectations for standards of living producing a cascade effect that monetizes family relationships Insufficient Funds powerfully illuminates these and other contradictions associated with money and its new meanings in an increasingly transnational world

Changing Poverty, Changing Policies Maria Cancian, Sheldon Danziger, 2009-08-27 Poverty declined significantly in the decade after Lyndon Johnson's 1964 declaration of War on Poverty Dramatically increased federal funding for education and training programs social security benefits other income support programs and a growing economy reduced poverty and raised expectations that income poverty could be eliminated within a generation Yet the official poverty rate has never fallen below its 1973 level and remains higher than the rates in many other advanced economies In this book editors Maria Cancian and Sheldon Danziger and leading poverty researchers assess why the War on Poverty was not won and analyze the most promising strategies to reduce poverty in the twenty first century economy Changing Poverty Changing Policies documents how economic social demographic and public policy changes since the early 1970s have altered who is poor and where antipoverty initiatives have kept pace or fallen behind Part I shows that little progress has been made in reducing poverty except among the elderly in

the last three decades The chapters examine how changing labor market opportunities for less educated workers have increased their risk of poverty Rebecca Blank and how family structure changes Maria Cancian and Deborah Reed and immigration have affected poverty Steven Raphael and Eugene Smolensky Part II assesses the ways childhood poverty influences adult outcomes Markus J ntti finds that poor American children are more likely to be poor adults than are children in many other industrialized countries Part III focuses on current antipoverty policies and possible alternatives Jane Waldfogel demonstrates that policies in other countries such as sick leave subsidized child care and schedule flexibility help low wage parents better balance work and family responsibilities Part IV considers how rethinking and redefining poverty might take antipoverty policies in new directions Mary Jo Bane assesses the politics of poverty since the 1996 welfare reform act Robert Haveman argues that income based poverty measures should be expanded as they have been in Europe to include social exclusion and multiple dimensions of material hardships Changing Poverty Changing Policies shows that thoughtful policy reforms can reduce poverty and promote opportunities for poor workers and their families The authors focus on pragmatic measures that have real possibilities of being implemented in the United States not only provides vital knowledge about what works but real hope for change

Poverty and Power Edward Royce,2009 *Poverty and Power* suggests that today s poverty results from deep rooted disparities in income wealth and power The rate and severity of poverty remain high because millions of Americans are trapped in low wage jobs inadequately served by government policy excluded from mainstream policy debates and victimized by discrimination and social exculsion

Monthly Labor Review ,2005 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews

The Child Welfare Challenge James K. Whittaker,2017-07-12 Within a historical and contemporary context this book examines major policy practice and research issues as they jointly shape child welfare practice and its future In addition to describing the major problems facing the field the book highlights service innovations that have been developed in recent years The resulting picture is encouraging especially if certain major program reforms I are implemented and agencies are able to concentrate resources in a focused manner The volume emphasizes families and children whose primary recourse to services has been through publicly funded child welfare agencies The book considers historical areas of service foster care and adoptions in home family centered services child protective services and residential services where social work has an important role Authors address the many fields of practice in which child and family services are provided or that involve substantial numbers of social work programs such as services to adolescent parents child mental health education and juvenile justice agencies This new edition will continue to serve as a fundamen tal introduction for new practitioners as well as summary of recent developments for experienced practitioners

Handbook of Family Policy Guðný Björk Eydal,Tine Rostgaard,2018-11-30 The Handbook of Family Policy examines how state and workplace policies support parents and their children in developing earning and caring With original contributions from 44 leading scholars this Handbook provides

readers with up to date knowledge on family policies and family policy research taking stock of current literature as well as providing analyses of present day policies and where they should head in the future
