Pop Architecture Kanner Architects Los Angeles:

Pop Architecture Frances Anderton, 1998 This first series features projects on Los Angeles that pay homage to the commercial popular modernism

Pop Architecture Frances Anderton, Kanner Architects, 1998 The further west we drove the more Pop everything looked on the highways to us it was the new Art Once you got Pop you could never see a sign the same way again And once you through Pop you could never see America the same way again Andy Warhol made his revelatory road trip west from New York to LA in 1962 Stephen and Chuck Kanner are attuned to this playful environment which surrounded them in childhood They have created a body of work that captures the spirit of southern California wide sun drenched streets chrome embellished cars drive in motels and cheery oversized advertising signs

Kanner Architects Kanner Architects, 2007 Kanner Architects have created their own approach to designing Modernist buildings and interiors that relate to their environments and exhibit distinct personalities The firm works internationally applying the optimism and adventurousness of its Southern California roots to the conditions indigenous to each site Stephen H Kanner president and director of design guides his staff in a fusion of structure volume material and color that results in buildings that are light both in sense of weight and in their ability to find and exploit natural light In this survey of 11 projects Kanner Architects demonstrate the harmony of proportion and easy flow of space that marks the firm's aesthetic Stephen Kanner speaks with a distinctive language solving problems with an approach always mindful of context

Cyberspace, 2001 The term cyberspace was first penned in 1984 by William Gibson in his science fiction novel Neuromancer However the architectural possibilities of this area of design were being investigated well before the term was popularised and with good reason

Architects for the New Millennium, 2000 A celebration of architecture from around the world profiling today's leading firms The top one hundred firms

Interior Design, 2006

L'estetica del pop Andrea Mecacci, 2011 Settembre 1963 Blue Velvet di Bobby Vinton domina la top ten americana Al cinema sta per scoppiare il ciclone 007 Dalla Russia con amore mentre dall'altra parte dell'oceano esplode come una tempesta She Loves You dei Beatles Un giovane di nome Andy Warhol insieme a una banda di amici si prepara ad attraversare in auto l'America alla scoperta del West Si respira un vento di cambiamento e quello di Andy e dei suoi amici sar' un viaggio mitico Pi' ci dirigevamo a ovest scrive Warhol pi' sull'autostrada ogni cosa appariva pop Improvvisamente sentivamo di far parte di qualcosa perch' anche se il pop era ovunque per noi era la nuova arte Una volta che diventavi pop non potevi pi' guardare un'insegna allo stesso modo Una volta che pensavi pop non vedevi pi' l'America come prima La parola pop una delle pi' inflazionate del vocabolario comune La si usa per indicare qualsiasi cosa un gusto uno stile una moda un atteggiamento In realt' il pop definisce una particolare sensibilit' estetica nata e affermata in un preciso contesto storico e geografico ma capace poi di attraversare le generazioni e i continenti un fenomeno culturale che non si limito alla sua espressione pi' nota la Pop Art ma che ha investito ogni aspetto della vita del secondo Novecento dal gusto estetico individuale all'immaginario collettivo dagli oggetti quotidiani agli ambienti urbani

Ponendosi come premessa del postmoderno sostiene Andrea Mecacci il pop ha dato espressione all'estetica più emblematica della tarda modernità elaborando una vera e propria mitologia capace di penetrare la vita di ognuno di noi. Così se Warhol in quel lontano '63 scriveva che il pop amare le cose qualche anno più tardi gli faceva eco Madonna sostenendo che il pop il riflesso assoluto della società in cui viviamo. Possibile darle torto?

International Architecture Yearbook 7 Images Publishing, Images Australia Pty Ltd, 2001-03-19 A valuable resource containing the finest architectural projects worldwide. Googie Redux Alan Hess, 2004-10-14 The book that helped spark the retro craze for fifties architecture and introduced the term googie to the world is back. First published by Chronicle in 1986, this key survey of mid-century coffee shop and commercial architecture is still the standard work on the subject. *Googie Redux* is a thoroughly revised and expanded edition of the classic and perennial top-selling book that rekindled the craze for 1950s coffee shop and commercial architecture. Long derided by critics as popular folly, the style so named after John Lautner's eccentric Los Angeles coffee shop was emblematic of Southern California's car-oriented architecture. By the time of the first edition's debut, these buildings were being demolished by the score. Alan Hess' 1985 Chronicle book did much not only to educate, legitimize and popularize the style that characterized this endangered architecture, but it helped spark a resurgence of interest in mid-century modern design. Completely revised and significantly expanded in both text and images, some of them recently unearthed for this edition, this redesigned package features a still an entertaining and informative look at the rise, fall and resurgence of the commercial architecture that changed the American landscape. Includes a greatly expanded guided tour of the iconic buildings in Southern California.
