Pop Art A Critical History:

Pop Art Steven Henry Madoff, 1997-11-15 *Pop Art A Critical History* chronicles one of the most controversial art movements of the century. The anthology draws from a great range of sources from the leading art magazines and art historical journals to newspapers and news magazines such as the New York Times, Life, and Newsweek. What emerges from this rich cross section of critical and journalistic commentary is a fascinating view of the tumultuous rise of Pop art and its establishment as a major force in contemporary art. A broad selection of articles traces the emergence of the movement itself in England and America as seen through the eyes of the working critics of the day. The focus then narrows to present in depth writings on the four major Pop artists: Roy Lichtenstein, Claes Oldenburg, James Rosenquist, and Andy Warhol, along with an examination of many other artists involved in the movement. From reviews of the very first shows of many of these artists to interviews with them to news stories about their collectors and their lifestyles, *Pop Art A Critical History* represents the most complete and coherent record of Pop art yet published. The book concludes with an invaluable chronology of the major 60s exhibitions by Pop artists. Among the contributors are Lawrence Alloway, John Coplans, Donald Judd, Max Kozloff, Gerald Nordland, Peter Plagens, Barbara Rose, Robert Rosenblum, John Russell, Gene Swenson, and Sidney Tillim. *Pop Art* Steven Henry Madoff, 1997. Presents an anthology of 94 critical articles on the American pop art phenomenon including information on such pop artists as Warhol, Lichtenstein, Oldenburg, and Rosenquist. **Pop Art** Marco Livingstone, 1990. This comprehensive and critical history of pop art charts its international development and describes and illustrates the work of over 130 artists including Andy Warhol, Jasper Johns, Peter Blake, Claes Oldenburg, and Roy Lichtenstein. **British Pop Art and Postmodernism** Justyna Stepień, 2015-09-18. British Pop Art was seen as an integral even central part of social change in the Sixties. It was a movement that developed innovative ways of dealing with reality both reflecting on and participating in the culture. Its aesthetics was often homogeneous with the industrial with the mass produced and hence with the artificial manufactured character of the urban environment. This discontinuity in the traditional approach towards artistic creation furthered the globalization of diversity which constitutes the abiding concerns of postmodern art. Drawing from postmodern thought and cultural analysis, this book critically examines British Pop Art within the broad interdisciplinary domain of the social and cultural changes that led to flexibility in conceptualization and provides a contribution to the artistic processes which form and deform the cultural sphere, confirming its relevance to current debates in which questions of postmodern aesthetics prominently figure. *Jewish American Identity and Erasure in Pop Art* Melissa L. Mednicov, 2024-03-05. This volume focuses on Jewish American identity within the context of Pop art in New York City during the sixties to reveal the multivalent identities and selves often ignored in Pop scholarship. Melissa L. Mednicov establishes her study within the context of prominent Jewish artists, dealers, institutions, and collectors in New York City in the Pop sixties. Mednicov incorporates the historiography of Jewish identity in Pop art, the ways by which identity is named or silenced to better

understand how Pop art made or marked different modes of identity in the sixties By looking at a nexus of the art world in this period and the ways in which Jewish identity was registered or negated Mednicov is able to further consider questions about the ways mass culture influenced Pop art and its participants and to a larger extent formed further modes of identity The book will be of interest to scholars working in art history Jewish studies and American studies Pop Art and Popular Music Melissa L. Mednicov, 2018-06-14 This book offers an innovative and interdisciplinary approach to Pop art scholarship through a recuperation of popular music into art historical understandings of the movement Jukebox modernism is a procedure by which Pop artists used popular music within their works to disrupt decorous modernism during the sixties Artists including Peter Blake Pauline Boty James Rosenquist and Andy Warhol respond to popular music for reasons such as its emotional connectivity issues of fandom and identity and the pleasures and problems of looking and listening to an artwork When we both look at and listen to Pop art essential aspects of Pop's history that have been neglected its sounds its women its queerness and its black subjects come into focus "Art and Visual Culture on the French Riviera, 1956-1971" Rosemary O'Neill, 2017-07-05 The Riviera in the 1950s and 1960s was culturally rich with modernist icons such as Matisse and Picasso in residence but also a burgeoning tourist culture that established the C d Azur as a center of indigenous artists associated with Nouveau R isme Fluxus and Supports Surfaces emerged under the mantle of the Ecole de Nice Drawing on the primary sources and little known publications generated during the period from museum archives collections in the region and privately owned archives this study integrates material published in monographic studies of individuals and art movements to offer the first in depth study of this important movement in twentieth century art The author situates the work of the Ecole de Nice within the broader social currents that are so important in contextualizing this phenomenon within this internal region of France and underscores why this work was so significant at this historical moment within the context of the broader European art scene and contemporary American art with which it shared affinities Despite their stylistic differences and associations with groups that are generally considered distinct O'Neill discloses that these artists shared conceptual affinities theatrical modes of presentation based on appropriation use of the ready made and a determination to counter style driven painting associated with the postwar Ecole de Paris Art and Visual Culture on the Riviera 1956-1971 suggests that the emergence of an Ecole de Nice internally eroded the dominance of Paris as the national standard at this moment of French decentralization efforts and that these artists fostered a model of aesthetic pluralism that remained locally distinct yet fully engaged with international vanguard trends of the 1960s Art and Visual Culture on the French Riviera, 1956-1971 Rosemary O'Neill, 2012 Drawing on the primary sources and little known publications from museum archives collections in the region and privately owned archives Art and Visual Culture on the Riviera 1956-1971 offers the first in depth study of the Ecole de Nice The author shows how artists indigenous to the region challenged the dominance of Paris as the national standard at this moment of French decentralization efforts and growing internationalism in the arts **A**

Hunger for Aesthetics Michael Kelly, 2012 This title examines the motivations for the critiques that have been applied to the idea of aesthetics and argues that theorists and artists now hunger for a new kind of aesthetics one better calibrated to contemporary art and its moral and political demands The book shows how for decades aesthetic critiques have often concerned art's treatment of beauty or the autonomy of art Collectively these critiques have generated an anti aesthetic stance that is now prevalent in the contemporary art world *Bulletin* University of Michigan. Art Criticism and Modernism in the United States Stephen Moonie, 2022-03-22 This study is an analysis of high and late modernist criticism in New York during the 1960s and early 1970s Through a close reading of a selection of key critics of the period which will expand the remit beyond the canonical texts the book examines the ways that modernist criticism's discourse remains of especial disciplinary interest Despite its alleged narrowness and exclusion the debates of the 1960s raised fundamental questions concerning the nature of art writing Those include arguments around the nature of value and judgement the relationship between art criticism and art history and the related problem of what we mean by the contemporary Stephen Moonie argues that within those often fractious debates there exists a shared discourse And further contrary to the current consensus that modernists were elitist dogmatic and irrelevant to contemporary debates on art the study shows that there is much that we can learn from reconsidering their writings The book will be of interest to scholars working in art history modern art art criticism and literary studies
