Chinese Entertainment Kwok-Bun Chan, 2014-06-11 Scholarly studies of Chinese culture history and society both within and outside of China generally pay little attention to leisure entertainment and amusement though it has long been known that this aspect of life gives a deep understanding of the psyche and soul and the hopes and fears of a person Leisure is a less coerced upon mandatory human conduct than work certainly leisurely conduct is more voluntary expressive and creative But when seen as human behaviour leisure and entertainment cannot be separated from history heritage ethnicity the community family and kin rituals and customs thus a collective activity and its constraints on the person This book examines a variety of genre of Chinese entertainment from singing clubs Cantonese opera and film to Chinese rock and tourism Though formally voluntary Chinese entertainment when entangled with ethnicity heritage and history is ironically a site of both enjoyment and struggle both pleasure and suffering This book was originally published as a special issue of Visual Anthropology

Contemporary Chinese Art Jeanne Boden, 2022-05-06 In the early 1990s artist Xu Bing stamped two pigs with respectively nonsensical Latin words and fake Chinese characters and allowed them to mate in an art gallery The performance of two creatures devoid of human consciousness yet carrying on their bodies the marks of human civilization engaging in the most primal form of social intercourse confronted the public with the tension between nature and civilization The work also addresses the tension between China and the West and therefore perfectly fits the core message of this book Contemporary art in China takes place in a post socialist post Mao context and at the same time a post traditional one searching for balance between aesthetic legacy and modernization It also tries to find its position in the post colonial globalized arena This book explores the tension between individual artistic freedom and a dominant discourse of central Chinese government between China's cultural legacy and modernization and between China and a global art world still dominated by a Western canon As a case study it focuses on the artists who participated in the Venice Biennale in 1993 which was the first time contemporary art from mainland China was structurally invited to participate in a global art context Jeanne Boden has a PhD in Oriental Languages and Cultures Her research focuses on Eurocentrism Sinocentrism and contemporary Chinese art jeanneboden.com Cover picture Xu Bing A Case Study of Transference 1993 94

culturally and in terms of cross media perspectives **The Future History of Contemporary Chinese Art** Peggy Wang, 2021-01-26 A revelatory reclaiming of five iconic Chinese artists and their place in art history During the 1980s and 1990s a group of Chinese artists Zhang Xiaogang Wang Guangyi Sui Jianguo Zhang Peili and Lin Tianmiao ascended to new heights of international renown Even as their fame increased they came to be circumscribed by simplistic Western interpretations of their artworks as social and political critiques a perspective that privileged stories of dissidence over deep engagement with the art itself Through in depth case studies of these five artists Peggy Wang offers a corrective to previous appraisals demonstrating how their works address fundamental questions about the forms meanings and possibilities of art By the end of the 1980s Chinese artists were scrutinizing earlier waves of Western influence and turning instead to their own heritage and culture to forge their own future histories As the national trauma of the 1989 Tiananmen Square massacre converged with the mounting expansion of the global art world these artists turned to art as a profoundly generative site for grappling with their place in the world Wang demonstrates how they consciously and energetically sought to make their own ideas about art and art history visible in contemporary art Wang s argument is informed by extensive primary research including close examination of the artworks analysis of Chinese language documents and archives and deeply personal interviews with the artists Their words uncover layers of meaning previously obscured by the popular and often recycled assessments that many of these works have received until now Beyond Wang s reinterpretation of these individual artists she contributes to an urgent conversation on the future direction of art history how do we map engagements between art from different parts of the world that are embedded within different art histories What does it mean for histories of contemporary art and art history more generally to be inclusive The new understandings offered in this book can and should be engaged when considering current hierarchies in histories of Chinese art the global art world and the intersections between them
