Eltinge Hosier, 1890 **Leonide Massine and the 20th Century Ballet** Leslie Norton, 2014-11-18 The great Russian choreographer Leonide Massine was the most important figure in modernist ballet in the 1930s known for works such as *Gaite Parisienne* and *The Three Cornered Hat* His versatility and scope made his choreography the most representative of the century Whatever period he portrayed his style flowed freely and unselfconsciously His character ballets dealt not with stereotypes but individuals and his symphonic ballets proved how great music could be employed without demeaning it Like his mentor Diaghilev he strove to bring music painting and poetry to his ballets Massine was responsible for the first resolutely abstract ballet and the first true fusions of ballet and modern dance This work provides a biography of Massine and a detailed analysis of his major ballets including those for Diaghilev's *Ballets Russes* the *Ballet Russe de Monte Carlo* and

viruses and worms The difference between good and bad software can be a single line of code and Barr includes code to illustrate the consequences of seemingly inconsequential choices by programmers Looking to the future Barr writes that the best prospect for improving software engineering is the move to the cloud When software is a service and not a product companies will have more incentive to make it good rather than good enough to ship
