Print, Visuality, and Gender in Eighteenth-century Satire Katherine Mannheimer, 2011 This study interprets eighteenth century satire's famous typographical obsession as a fraught response to the Enlightenment's ocularcentric epistemological paradigms and to a print cultural moment identified by book historians as increasingly visual As the first to pay widespread attention to format layout and visual advertising strategies The Augustans were convinced of the ability of their texts to function as a kind of optical machinery rivaling that of the New Science enhancing readers' physical and moral vision while at the same time they feared the dangers of an overly scrutinizing gaze as one that might undermine the viewer's natural faculty for candor sympathy delight and desire Mannheimer studies this distrust of the empirical gaze and its applications in print to the inherent gender politics and broader ethical concerns of ocularcentrism in the works of Montagu Swift Pope and Fielding These writers sought to ensure that print itself never became either a mere tool of or an inert object for the gaze but rather that it remained a dynamic and interactive medium by which readers could learn both to see and to see themselves seeing

Printing History and Cultural Change Richard Wendorf, 2022 This study provides one of the most detailed and comprehensive examinations ever devoted to a critical transformation in the material substance of the printed page it carries out this exploration in the history of the book moreover by embedding these typographical changes in the context of other cultural phenomena in eighteenth century Britain The gradual abandonment of pervasive capitalization italics and caps and small caps in books printed in London Dublin and the American colonies between 1740 and 1780 is mapped in five year increments which reveal that the appearance of the modern page in English began to emerge around 1765 This descriptive and analytical account focuses on poetry classical texts Shakespeare contemporary plays the novel the Bible the Book of Common Prayer sermons and religious writings newspapers magazines anthologies government publications and private correspondence it also examines the reading public canon formation editorial theory and practice and the role of typography in textual interpretation These

changes in printing conventions are then compared to other aspects of cultural change the adoption of the Gregorian calendar in 1752 the publication of Johnson's Dictionary in 1755 the transformation of shop signs and the imposition of house numbers in London beginning in 1762 and the evolution of the English language and of English prose style This study concludes that this fundamental shift in printing conventions was closely tied to a pervasive interest in refinement regularity and standardization in the second half of the century and that it was therefore an important component in the self-conscious process of modernizing British culture publisher's website

[Annotation in Eighteenth-Century Poetry](#) Michael Edson, 2017-10-18 Recent years have witnessed a growing fascination with the printed annotations accompanying eighteenth-century texts Previous studies of annotation have revealed the margins as dynamic textual spaces both shaping and shaped by diverse aesthetic historical and political sensibilities Yet previous studies have also been restricted to notes by

or for canonical figures they have neglected annotation's relation to developments in reading audiences and the book trade and they have overlooked the interaction even tension between prose notes and poetry a tension reflecting eighteenth century views of poetry as aesthetically superior to prose Annotation in Eighteenth Century Poetry addresses these oversights through a substantial introduction and eleven essays analyzing the printed endnotes and footnotes accompanying poems written or annotated between 1700 and 1830 Drawing on methods and critical developments in book history and print culture studies this collection explores the functions that annotation performed on and through the printed page By analyzing the annotation specific to poetry these essays clarify the functions of notes among the other paratexts including illustrations by which scholars have mapped poetry's relation to the expanding book trade and the class specific production of different formats Because the reading and writing of poetry boasted social and pedagogical functions that predate the rise of the note as a print technology studying the relation of notes to poetry also reveals how the evolving layout of the eighteenth century book wrought significant changes not only on reading practices and reception but on the techniques that booksellers used to make new poems steady sellers and antiquarian discoveries legible to new readers Above all analyzing notes in poetry volumes contributes to larger inquiries into canon formation and the rise of literary studies as a discipline in the eighteenth century

Fashion and Authorship Gerald Egan, 2020-02-13 Studies of fashion and

literature in recent decades have focused primarily on representations of clothing and dress within literary texts But what about the author How did he dress What were her shopping practices and predilections What were his alliances with modishness stylishness fashion The essays in this book explore these and other questions as they look at authors from the eighteenth century through the postmodern and digital eras cultural producers who were also men and women of fashion Alexander Pope Hester Thrale Mary Robinson Lord Byron William Thackeray Charlotte Bronte Wilkie Collins Margaret Oliphant Virginia Woolf Rebecca West Trudi Kanter Angela Carter and Martin Margiela The essays collected here ultimately converge upon a fundamental question what happens to our notions of timeless literature when authorship itself is implicated in the transient and the temporary the cycles and materials of fashion Gerald Egan s provocative introduction to this exciting new book poses a bold question How are authorship and literature so often linked to ideas of transcendence implicated in the transient trends and stuff of fashion The thirteen chapters that follow track authorship s complex implication in the discourses and materiality of fashion and fashionable goods from the eighteenth to the twentieth centuries Wide ranging in discipline and chronology yet forensically focused and carefully argued this book makes a striking and wonderfully original contribution to studies of authorship celebrity and material culture Dr Jennie Batchelor Professor of Eighteenth Century Studies University of Kent UK
