**Women on Nature** Katharine Norbury,2021-05-13 What would happen I wondered if I simply missed out the fifty per cent of the population whose voices have been credited with shaping this particular cultural form If I coppiced the woodland so to speak and allowed the light to shine down to the forest floor and illuminate countless saplings now that a gap has opened in the canopy There has in recent years been an explosion of writing about place landscape and the natural world But within this blossoming of interest women s voices have remained very much in the minority For the very first time this landmark anthology collects together the work of women over the centuries and up to the present day who have written about the natural world in Britain Ireland and the outlying islands of our archipelago Alongside the traditional forms of the travelogue the walking guide books on birds plants and wildlife Women on Nature embraces alternative modes of seeing and recording that turn the genre on its head Katharine Norbury has sifted through the pages of women s fiction poetry household planners gardening diaries and recipe books to show the multitude of ways in which they have observed the natural world about them from the fourteenth century writing of the anchorite Julian of Norwich to the seventeenth century travel journal of Celia Fiennes from the keen observations of Emily Bront to a host of brilliant contemporary voices Women on Nature presents a groundbreaking vision of the natural world which in addition to being a rich and scintillating anthology that shines a light on many unjustly overlooked writers is of unique importance in terms of women s history and the history of writing about nature
