from each other Bronwen Low builds a surprising argument the very reasons teachers might resist the introduction of hip hop into the planned curriculum are what make hip hop so pedagogically vital Class discussions on topics such as what one can and cannot say in the school auditorium or who can use the N word raised pressing and difficult questions about language culture and identity As she reveals an innovative student centered pedagogy based on spoken word curriculum that is willing to tolerate conflict as well as ambivalence has the potential to air tensions and lead to new insights and understandings for both teachers and students
