the recent past *Britpop and the English Music Tradition* Jon Stratton, 2016-04-15 Britpop and the English Music Tradition is the first study devoted exclusively to the Britpop phenomenon and its contexts The genre of Britpop with its assertion of Englishness evolved at the same time that devolution was striking deep into the hegemonic claims of English culture to represent Britain It is usually argued that Britpop with its strident declarations of Englishness was a response to the dominance of grunge The contributors in this volume take a different point of view that Britpop celebrated Englishness at a time when British culture with its English hegemonic core was being challenged and dismantled It is now timely to look back on Britpop as a cultural phenomenon of the 1990s that can be set into the political context of its time and into the cultural context of the last fifty years a time of fundamental revision of what it means to be British and English The book examines issues such as the historical antecedents of Britpop the subjectivities governing the performative conventions of Britpop the cultural context within which Britpop unfolded and its influence on the post Britpop music scene in the UK While Britpop is central to the volume discussion of this phenomenon is used as an opportunity to examine the particularities of English popular music since the turn of the twentieth century *Performance, Fashion and the Modern Interior* Fiona Fisher, Trevor Keeble, Patricia Lara-Betancourt, 2011-11-22 An international assessment of how the last 150 years of interior design have been influenced by the clothes people wear and the desire to create drama and social rituals **British Nautical Melodramas, 1820-1850** Arnold Schmidt, 2022-07-30 During the 1820s and 30s nautical melodramas reigned supreme on London stages entertaining the mariners and maritime workers who comprised a large part of the audience for small theatres These plays mixed sentimental moments and comic interludes of domestic melodrama with patriotic images that communicated and reinforced imperial themes However generally the study of British theatre history moves from medieval and renaissance plays directly to the realism and naturalism of late Victorian and modern drama Readers typically encounter a gap between Restoration and eighteenth century plays like those of Oliver Goldsmith and Richard Brinsley Sheridan and late nineteenth plays by Henrik Ibsen and Oscar Wilde Nineteenth century drama with the possible exception of plays by Byron Shelley and Wordsworth remains all but invisible Until recently melodramatic plays written and performed during this gap received little scholarly attention but their value as reflections of Britain's promulgation of imperial ideology and its role in constructing and maintaining class gender and racial identities have given discussions of melodrama force and momentum The plays included in these three volumes have never appeared in a critical anthology and most have not been republished since their original nineteenth century editions Each play is transcribed from original documents and includes an author biography a headnote about the play itself full annotations with brief definitions of unfamiliar vocabulary and explanatory notes Comprehensive editorial apparatus details the nineteenth century imperial naval political and social history relevant to the plays nautical themes as well as discussing nineteenth century theatre history melodrama generally and the nautical melodrama in particular Contemporary theatre practices acting audiences staging lighting special effects are also examined

Cultures of Selling Laura Ugolini, 2018-12-07 The study of consumption and its relationship to cultural and social values has become a vibrant and important field in recent years Hitherto however relatively few detailed and full length works on this topic have been published In what will become a seminal volume this book examines retail selling in various historical contexts and locations as both an activity at once mundane and almost universal The book introduces the reader to the existing literature relevant to the subject and explores the widespread perceptions of moral ambiguity surrounding the practice of selling consumer goods ranging from concerns about the adulteration of goods to fears about sharp practice on the part of retailers and places such concerns in the context of wider societal values and ideas The ambivalence towards retail selling and sellers is also a central focus of the collection focussing on the attempts by retailers to develop selling techniques and successful practices of salesmanship and at the same time establish widely shared understandings of good retailing The book also delves into the more dubious practices of retail selling including practices on the margin of legality the issue of credit and changing attitudes towards debt Uniquely the book examines how sales techniques relate to the wider context of a whole shopping experience or shopping environment Taken as a whole this volume will provide a first port of call for students researchers and others interested in exploring consumer cultures and the cultural norms and practices involved in the sale of consumer goods in various historical periods and geographical contexts

Good Humor, Bad Taste Giseline Kuipers, 2011-12-22 Good Humor Bad Taste is the first extensive sociological study of the relationship between humor and social background Using a combination of interview materials survey data and historical materials the book explores the relationship between humor and gender age regional background and especially humor and social class in the Netherlands The final chapter focuses on national differences exploring the differences between the American and the Dutch sense of humor again using a combination of interview and survey materials The starting point for this exploration of differences in sense of humor is one specific humorous genre the

joke The joke is not a very prestigious genre in the Netherlands even less so than in the US It is precisely this lack of status that made it a good starting point for asking questions about humor and taste Interviewees generally had very pronounced opinions about the genre calling jokes their favorite kind humor but also completely devoid of humor and a form of intellectual poverty Good Humor Bad Taste attempts to explain why jokes are good humor to some bad taste to others The focus on this one genre enables Good Humor Bad Taste to have a very wide scope The book not only covers the appreciation and evaluation of jokes by different social groups and in different cultures and its relationship with wider humor styles It also describes the genre itself the history of the genre its decline in status from the sixteenth century onward and the way the topics and the tone of jokes have changed over the last fifty years of the twentieth century *Queering the Field* Gregory F. Barz, William Cheng, 2020 Drawing on ethnographic research and often deeply personal experiences with musical cultures *Queering the Field* Sounding out Ethnomusicology unpacks a history of sentiment that veils the treatment of queer music and identity within the field of ethnomusicology The thematic structure of the volume reflects a deliberate cartography of queer spaces in the discipline spaces that are strongly present due to their absence are marked by direct sonic parameters or are called into question by virtue of their otherness As the first large scale study of ethnomusicology's queer silences and queer identity politics *Queering the Field* directly addresses the normativities currently at play in musical ethnography fieldwork analysis performance transcription as well as in the practice of musical ethnographers identification participation disclosure observation authority While rooted in strong narrative convictions the authors frequently adopt radicalized voices with the goal of queering a hierarchical sexual binary The essays in the volume present rhetorical and syntactical scenarios that challenge us to read in prescient singular ways for future queer writing and queer thought in ethnomusicology
