Sit down. Strap up. And get ready to blast off into space with **Discovery Channel**. Humans have always studied the skies. In **Solar System** we discover planets, asteroids and moons of our nearest neighbors in the galaxy. In the **History of Earth** we go back four and a half billion years and trace what has been happening to our home planet. In **Universe** we get a close look at stars, celestial objects, and how the universe began and how it is changing.
