in the 1980s after China's reform and opening up. In this era of rapid social change, the older generation started to learn from the younger generation across many fields in a way that is markedly similar to the biological phenomenon of the old crow that keeps barking fed by their children from ancient Chinese poetry. In this book, the author discusses this new academic concept and other aspects of Chinese intergenerational relations. In the first volume, the author explains some popular social science theories about generations, traces the history of Chinese intergenerational relationships, and through focus group interviews with 77 families in mainland China, comprehensively discusses the younger generation's values, attitudes, behavior patterns, and the ways which differ from their ancestors. Following on from the first volume, this second volume further analyzes the multiple causes of cultural reverse, including rapid social change, the influence of peer groups, and the impact of the media. Then, in a broader context, the author discusses the complex interdependence of and conflict among the state, society, and youth. He tells a story of the transformation of Chinese youth over the past hundred years and names this one place fast-changing China and one time only unrepeatabe phenomenon China feeling. The book will be a valuable resource for scholars of Chinese sociology and also general readers interested in contemporary Chinese society.

Society & Culture, *Advertising, Society, and Consumer Culture* Roxanne Hovland, Joyce M. Wolburg, 2014-12-18. Designed as a core textbook for courses in Advertising and Society, Advertising Society and Consumer Culture develops an integrated perspective that gives students a framework for understanding past, present, and future issues in advertising communications. Chapter contents cover the entire range of social, political, cultural, regulatory, and economic issues that surround advertising and its role in modern society. The many social issues addressed include advertising and gender stereotyping, advertising to vulnerable audiences, and the distribution of wealth in consumer society. Advertising Society and Consumer Culture intertwines the development of the consumer culture with its coverage of the historical, political, regulatory, and ethical issues of advertising. It includes clear, comprehensive tables that chronicle historical developments and key legal cases. The text is readable for undergraduates but provides enough depth to serve as a graduate-level text. Including extensive notes and a bibliography, it can be adopted independently or alongside its companion volume, Readings in Advertising Society and Consumer Culture.

Now with SAGE Publishing, Cultural Anthropology: A Global Perspective delves into both classic and current research in the field, reflecting a commitment to anthropology's holistic and integrative approach. This text illuminates how the four core subfields of anthropology—biological anthropology, archaeology, linguistics, and cultural anthropology—together yield a comprehensive understanding of humanity. In examining anthropological research, this text often refers to research conducted in other fields, sparking the critical imagination that brings the learning process to life. The Tenth Edition expands on the book's hallmark three-themed approach: diversity of human societies, similarities that make all humans fundamentally alike, and a synthetic/complementary approach by introducing a new fourth theme addressing psychological essentialism. Recognizing the necessity for students to develop an enhanced

global awareness more than ever before author Raymond Scupin uses over 30 years of teaching experience to bring readers closer to the theories data and critical thinking skills vital to appreciating the full sweep of the human condition This title is accompanied by a complete teaching and learning package
