Religion Index One ,1998 Advances in Natural Hazards and Hydrological Risks: Meeting the Challenge Francisco Fernandes, Ana Malheiro, Helder I. Chaminé, 2020-01-02 This book gathers the proceedings of the 2nd International Workshop on Natural Hazards NATHAZ 19 held in Lajes do Pico Pico Island Azores in 2019 Natural hazards constitute the threat of a naturally occurring event having a negative effect on human beings These effects are often called natural disasters Among the natural hazards and potential disasters to be considered are earthquakes volcanic eruptions landslides subsidence floods droughts and coastal erosion In addition there are anthropogenic hazards that occur as a result of human interactions with the environment They include technological hazards which occur due to exposure to hazardous substances in the environment Grasping the behaviour of natural systems requires a comprehensive understanding of climatology geology and hydrology data and dynamics Thus it is important to conduct hazard and risk assessment studies for meaningful hazard mitigation Further the book demonstrates that an accurate understanding of natural systems and interactions between engineering and natural resources is of vital significance to the entire socio economic sector This volume offers an overview of natural hazards in model regions in Europe America and Atlantic islands Providing new insights on the characterisation assessment protection and modelling of geological hazards water systems urban areas and coastal zones it represents a valuable resource for all researchers and practitioners in the fields of Geosciences Hydrology Water Resources Natural Hazards Environments and Engineering Main topics include 1 Natural Hazards and Disasters 2 Sustainable Water Systems and Climate Change 3 Technological Hazards and Engineering Design Whitaker's Books in Print ,1998 **LGBTIQ+**

people and Pentecostals Marius Nel, 2020-01-01 This book provides Pentecostals with the necessary equipment and motivation to contribute to one of Africa's important ethical challenges LGBTIQ people and Africa's homophobic reaction to them The study is aimed at Christian believers and pastors to empower them with relevant information about the issue The issue is discussed in terms of existing biological psychological anthropological sociological philosophical and queer theory knowledge along with a study of the biblical texts in order to answer the question what should a responsible African Pentecostal response be towards the LGBTIQ issue and what should Pentecostals attitude be towards such people

Religious Responses to Earthquake and Volcanic Eruption Disasters David Chester, Angus Duncan, John Duncan, 2024-07-26 This book argues that although secular and religious perspectives on disasters have often conflicted today there are grounds for believing that the world's major faiths have much to contribute to the processes of post disaster

recovery and future disaster risk reduction DRR It seeks to demonstrate how contemporary dialogues between theologians disaster scholars and policymakers are defining new ways of working together These explore how the resources of religious communities e g buildings human resources and finance may be used to foster successful policies of DRR particularly in the aftermath of earthquakes and volcanic eruptions Musing on the relationships between religion and disasters has occurred for millennia and has affected many societies worldwide In societies where the world s major religions Buddhism Christianity Hinduism Islam Judaism and Shinto have been and remain dominant attempting to find supernatural explanations for disasters has occurred throughout history and there have been many theologies seeking to explain why people suffer losses It is argued that developments both within these traditions of faith and in how disasters are understood by the hazard research community of researchers and planners have allowed a new *modus vivendi* to emerge which emphasises both a recognition of religious worldviews by academic writers and disaster planners on the one hand and a desire by people of faith and their leaders to be more fully committed to the goals of DRR The book will appeal to those who are interested in the interface between disasters and theology across the principal religions of the world This includes researchers and students in geology geography theology and religious studies It will also be useful for specialist academic audience and the educated general reader
