Continuities in Sociological Human Ecology Michael Micklin, Dudley L. Poston, 2013-11-11 The completion of this volume would not have been possible without the generous and dedicated help of numerous people The book had its genesis in a conference held at Cornell University in the fall of 1990 that was organized by Dudley Poston Paul Eberts and Michael

Hannan all professors at the time at Cornell With the very generous financial assistance of David Call then the dean of Cornell s College of Agriculture and Life Sciences Poston Eberts and Hannan put together a two day conference of lectures and papers by human ecologists from Cornell University and elsewhere The conference focused on sociological human ecology and celebrated the fortieth anniversary of the publication of Amos Hawley s *Human Ecology* Ronald Press 1950 Professor Hawley was the keynote speaker at the conference Many of the authors of the chapters in this volume presented earlier versions at the Cornell conference in 1990 Cornell s Departments of Rural Sociology and Sociology also contributed financial assistance however without Dean Call s very generous support the conference would not have been possible A few months after the conference Poston and Michael Micklin discussed the possibility of asking the various authors of the Cornell conference papers to revise them for publication in a volume on sociological human ecology Many opted to do so but others did not because of time and other kinds of commitments and constraints **Handbook of Population** Dudley L.

Poston, Michael Micklin, 2006-08-10 This comprehensive handbook provides an overview and update of the issues theories processes and applications of the social science of population studies The volume s 30 chapters cover the full range of conceptual empirical disciplinary and applied approaches to the study of demographic phenomena This book is the first effort to assess the entire field since Hauser and Duncan s 1959 classic *The Study of Population* The chapter authors are among the leading contributors to demographic scholarship over the past four decades They represent a variety of disciplines and theoretical perspectives as well as interests in both basic and applied research *Society in Focus* William E.

encourage students to take a closer look at society and selected social issues *Current Catalog* National Library of Medicine (U.S.),1992-10 **Structure and Agency in Young People's Lives** Magda Nico,Ana Caetano,2021-05-12 *Structure and Agency in Young People's Lives* brings together different takes on the possible combinations of agency and structure in the life course thus rejecting the notion that young individuals are the single masters of their lives but also the view that their social destinies are completely out of their hands How did I get here This is a question young people have always asked themselves and is often asked by youth researchers There is no easy and single answer The lives that are told on one hand and their interpretation on the other may have the underlying idea of own doing or the idea of social determinism or more accurately and frequently a combination of the two This collection constitutes a comprehensive map on how to make sense of youth's biographies and trajectories it questions and reshapes the discussion on the role and responsibility of youth studies in the understanding of how people juggle opportunities and constraints and contributes to escaping what Furlong and Cartmel identified as the epistemological fallacy of late modernity in which young people find themselves responsible for collective failures or inevitabilities It can thus interest students researchers and professors youth workers and all of those who work for and with young people **Historical Foundations of Black Reflective Sociology** John H Stanfield II,2016-06-03 John H Stanfield II a leading historian of Black social science distills decades of his research and thinking in a set of articles some original to the volume others from fugitive sources that trace the trajectories of Black scholars and scholarship in relationship to the broader African American experience over the past two centuries Stanfield's signature contributions to this research tradition range from the role of philanthropy in the study and life of African Americans to institutional racism in sociology and the impacts of race on scholarly careers His analyses run from global formulations to individual biographies including his own and stretch from the early decades of social science to the present This work creates a nuanced historical context for reflective Black sociology that will be of interest to social historians sociologists and scholars of color from all disciplines *The Word As Scalpel* Samuel W. Bloom,2002-05-23 A doctor can damage a patient as much with a misplaced word as with a slip of the scalpel In this statement from Lawrence J Henderson a famous physician whose name is part of the basic science of medicine epitomizes the central theme of *The Word as Scalpel* If words the main substance of human relations are so potent for harm how equally powerful they can be to help if used with disciplined knowledge and understanding Nowhere does this simple truth apply more certainly than in the behavior of a physician *Medical Sociology* studies the full social context of health and disease the interpersonal relations social institutions and the influence of social factors on the problems of medicine Throughout its history medical sociology divides naturally into two parts the pre modern represented by various studies of health and social problems in Europe and the United States until the second World War and the modern post war period The modern period has seen rapid growth and the achievement of the full formal panoply of professionalism This engaging account documents the development of professional associations official journals and
