Donahue, Patricia R. Heck, 2019-05-07 This edited collection addresses a growing concern in Europe and the United States about the future of the European Union democratic institutions and democracy itself The current success of right wing parties marked by the adoption of extremist nationalistic rhetoric aimed to incite fear of the other and the use of authoritarian policies when attaining the majority is putting pressure on basic human rights and the rule of law Eight

sociocultural anthropologists working in England Northern Ireland Italy France Poland Germany Hungary and the United States use varying methodological and theoretical approaches to inspect a number of such parties and their supporters while assessing the underpinnings of current right wing successes in what has heretofore been a recurring post war cycle The research collected in Cycles of Hatred and Rage supports the validity of the above concerns and it ultimately suggests that in the current battle between democratic globalists and authoritarian nationalists the outcome is far from clear

The Making of Eurosceptic Britain Chris Gifford, 2017-11-30 Offering a radical interpretation of a major political issue Chris Gifford moves beyond existing narrative and institutional accounts of Britain and Europe to present a theoretically coherent and unique perspective on this troubled relationship He acknowledges that populist Euroscepticism has become fundamental to constituting Britain and Britishness in a post imperial context despite membership of the European Union Organized chronologically this interesting study provides lucid overviews of key periods in the British European Union relationship It combines political economy with political identity to illustrate how forms of Euroscepticism have become embedded across the British political class and culture The book focuses not on outlining history or the impact of British integration on British institutions but on the ways in which elite behaviour towards European integration should be analyzed as practices and discourses that use Euroscepticism to construct Britain and distinctive British political projects

European States and their Muslim Citizens John R. Bowen, Christophe Bertossi, Jan Willem Duyvendak, Mona Lena Krook, 2013-10-07 This book responds to the often loud debates about the place of Muslims in Western Europe by proposing an analysis based in institutions including schools courts hospitals the military electoral politics the labor market and civic education courses The contributors consider the way people draw on practical schemas regarding others in their midst who are often categorized as Muslims Chapters based on fieldwork and policy analysis across several countries examine how people interact in their everyday work lives where they construct moral boundaries and how they formulate policies concerning tolerable diversity immigration discrimination and political representation Rather than

The Politics of Authenticity and Populist Discourses Christoph Kohl, Barbara Christophe, Heike Liebau, Achim Saupe, 2021-02-12 This edited volume breaks new ground and opens up new perspectives by capturing the role played by claims to authenticity in populist discourses in Brazil India and Ukraine By conceiving of both triumphant populism and increasing demands for authenticity as expressions of crisis the volume seeks to satisfy the need to take a closer look at yearnings for orientation in a globalised world that is often associated with rapid social change and the disappearance of old certainties Starting from the assumption that media play a crucial role for populist discourses of authenticity the volume moves beyond conventional and social media by expanding its focus to media in formal education notably school textbooks and curricula These two particular media formats lastingly shape younger generations and thus the future The proposed volume adopts global perspectives from three postcolonial countries that are often beyond the scope of studies dealing with populist discourses and media entanglements insights that contribute new aspects to international scholarly debates

Rural protest groups and populist political parties Dirk Strijker,Gerrit Voerman,Ida Terluin,2023-08-07 Some agricultural or rural protest groups in the Western world evolved into political parties often of a populist nature whereas others did not This book is the first to explore under which conditions this happens and to what extent current populist parties have agricultural or rural ties and related agendas Well known authors with a background in rural studies or in political sciences describe and analyse the situation in a number of Western countries the United Kingdom France Poland Austria the Netherlands Australia Finland The contributions in this book show that the accessibility and responsiveness of the political system and the institutionalized agrarian interest groups as well as the existing political landscape are influencing the decisions of rural protest groups to found a political party However nowadays the chances of these parties being successful are small due to the declining share of the agricultural sector within European societies Although there will always be grounds for agrarian protest it seems safe to say that the heyday of agrarian populism is over

Christopher J. Bickerton,Carlo Invernizzi Accetti,2021-03-20 Technocratic appeals to expertise and populist invocations of the people have become mainstays of political competition in established democracies This development is best understood as the emergence of technopopulism a new political logic that is being superimposed on the traditional struggle between left and right Political movements and actors such as Italy s Five Star Movement and France s La R publique En Marche combine technocratic and populist appeals in a variety of ways as do more established parties that are adapting to the particular set of

incentives and constraints implicit in this new unmediated form of politics In the first book length treatment of the phenomenon of technopopulism we combine theoretical and historical approaches offering a systematic definition of the concept of technopopulism while also exploring a number of salient contemporary examples This book provides a detailed account of the emergence of this new political logic as well as a discussion of its troubling consequences for existing democratic regimes It ends by considering some possible remedies that go beyond the simplistic idea that in the right dose populism and technocracy can counter balance one another

Sovereignty Across Generations Alessandro Ferrara,2023-02-16 Every cohort of voters may dream of being the people under the sway of serial visions of sovereignty or understand itself more modestly as co author of a constitutional project in a cross generational sequence rooted in the past and extending into the future Sovereignty Across Generations offers a theory of democratic sovereignty and constituent power grounded in John Rawls s political liberalism Neither exegetic nor abstractly analytic this book assumes that political liberalism is broader than Political Liberalism In answering the question How is it possible for there to exist over time a just and stable society of free and equal citizens who remain profoundly divided by reasonable religious philosophical and moral doctrines the paradigm implicit in Political Liberalism enables us to address facets of that question that Rawls sidelined in the context of his time Following populist threats to democracy which were still latent in 1993 this book responds to the urgency of clarifying the proper relation of the people as transgenerational author of the constitution to its pro tempore living segment in its capacity as electorate and as co author of the constitution An explanation of that relation brings constituent power into the picture and unfolds in seven steps that form the conceptual backbone of this book By taking new steps in updating and revisiting political liberalism this book reconstructs Rawls s implicit view of constituent power beyond the pages dedicated to it in Political Liberalism and brings that view into conversation with major constitutional theories of the twentieth century This book is a must read for all those interested in the fields of politics philosophy and constitutional law
