Populist Paradox

Bernard Rulof

Populist Paradox:

The Populist Paradox Elisabeth R. Gerber, 1999-07-21 Gerber's key finding that citizen interest groups are more effective in using the initiative to alter the status quo and that economic groups are more effective at preserving it is an important amendment to the popular perception that interest groups now control the initiative process Bruce E Cain University of California Berkeley The questions raised in *The Populist Paradox* are fundamental to our understanding of elections and representation and to the roles of citizens organized interests and elected officials The book is well written and extremely well organized Frank R Baumgartner Pennsylvania State University

Re-Globalization Roland Benedikter, Mirjam Gruber, Ingrid Kofler, 2022-04-27 Re-Globalization examines the changing face of globalization with political economic and social balances in flux and tensions increasing in many parts of the globe This book discusses and problematizes the current transition phase of globalization in response to issues such as inequalities climate change and health crises offering a comprehensive collection of responses to the question what is re-globalization The authors discuss the various definitions and forms of re-globalization using a range of approaches examples and case studies in order to shed light on this process The analysis of the phenomenon of re-globalization understood as an economic political and social process is both inter and transdisciplinary This volume offers contributions from academic disciplines within the social sciences as well as technology global security global studies health and climate and environmental sciences Overall the book analyzes and illustrates how globalization shifts are interconnected and how they relate to a transition in global society proposing a framework for a series of future scenarios This socio-geographically diverse book will be of great interest to students scholars and researchers across a broad spectrum of disciplines exploring the future of globalization

Contemporary Populism Sergiu Gherghina, Sergiu Mişcoiu, Sorina Soare, 2013-07-16 The fundamental question uniting the contributions to this volume is what exactly is populism This is certainly not a new question as a large amount of literature has focused on this topic for more than half a century As little conceptual consensus has been reached so far this book aims to reduce the level of abstraction To this end it approaches the populist phenomenon from a broader theoretical and empirical perspective making reference to its developments on several continents The book is divided into two parts the first is theoretical and discusses various perspectives on populism while the second is empirical and emphasises the diversity of the forms populism has embraced throughout the world Without aiming to solve old dilemmas to cover all the existing forms of populism or to outline unequivocal conclusions the contributions to this book fulfil a twofold task On the one hand they help to clarify theoretically a concept that is difficult to grasp and use On the other hand by way of reflecting these difficulties they present several forms of populism worldwide Their main purpose is to highlight the differences between the continents Each of the chapters in the second section successfully accomplishes this providing an overview that is useful both in analysing populism and in identifying the populist elements in national and international political actions or discourses

Direct Democratic Choice

Hanspeter Kriesi, 2008-01-01 *Direct Democratic Choice* sets out to understand how the citizens actually decide in direct democratic votes. Author Hanspeter Kriesi has analyzed nearly twenty years of post election surveys in Switzerland 1981-1999 which he has contextualized according to the various political issues and the relevant arguments provided by the political elites. This book's core argument is that the citizens who participate in direct democratic votes make competent choices. Kriesi's extensive empirical research shows that the majority of these voters arrive at their decisions on the basis of arguments about the advantages and disadvantages of the available options. The less competent and less interested citizens either do not vote or if they do employ heuristic shortcuts allowing them to make approximately reasonable decisions. Kriesi provides strong support for an optimistic view of direct democratic decision making but also indicates that this process wherever it occurs can be improved by proper institutional design and by appropriate strategies enacted by the political elite.

Globalization in the 21st Century Manfred B. Steger, 2024-01-04 The fate of globalization in the 21st century hangs in the balance. Although recent data show that most global integration has been on the rebound after the 2008-9 global financial meltdown and the COVID-19 pandemic, public sentiments about globalization have soured. The neoliberal glorification of globalization as beneficial market integration is running out of steam while national populist visions of deglobalization exert significant mass appeal. Today's ostensible globalization backlash scenario seems to be confirmed by soaring inflation rates, global supply chain disruptions, accelerating climate change and ecological deterioration, lagging transitions to greener forms of energy, escalating economic inequality and rising geopolitical competition among the Great Powers, especially the United States-China rivalry and the protracted Russian-Ukrainian war. On the flipside, however, such grim scenarios reinforce the fact that most of today's problems are global in nature. This book provides an accessible assessment of 21st century globalization that draws on global theory and history to engage pressing issues such as digitization, ideological polarization, higher education, demographics, human development and the environment. Assembling such a big picture of globalization in this young century supports the practical efforts of setting the globe on a more equitable and sustainable path.

International Discourses of Authoritarian Populism Ludwig Deringer, Liane Ströbel, 2022-12-30 *International Discourses of Authoritarian Populism* provides 15 cutting edge chapters probing into the diversity of present day populist discourse from across the world. Not adhering to any particular school, the volume explores populism from a variety of disciplines and perspectives with contributions characterized by heuristic openness as called for by the manifold manifestations of populism. The chapters balance theoretical and empirical studies as well as quantitative and qualitative surveys and case studies to offer readings on historical and new types of populism and the politicians associated with these variates. Authors draw on a variety of print, digital, textual and visual source materials to provide a close examination of the phenomena interconnected with populism, including separatism, Catalexit, human rights and legal issues, debate rhetoric and journalism, with many authors writing as insiders about the situation within their own country. Through its multi-disciplinarity, *International Discourses of*

Authoritarian Populism provides fresh insights into the existing and potential dangers of populism and a basis for further critical assessment and discussion. It will be a key resource for scholars and students across a range of disciplines including sociology, political science, linguistics, media and communication studies, literary studies and history. Moreover, it will be of special interest to professionals who deal with both national and international issues of populism.

The Elgar Companion to Public Economics Attiat F. Ott, Richard J. Cebula, 2006-01-01 Attiat Ott and Richard Cebula have recognised the need to present in an accessible and straightforward way the voluminous literature in the public economics arena. Advances in econometric techniques and the spillover of knowledge from other disciplines made it difficult not only for students but also for lecturers to accurately find the information they need. This major Companion addresses a wealth of topics common to the study of both public economics and public choice, including questions such as: How does one structure the whole spectrum of public finance in a manageable framework? What is Wagner's Law really about and what does empirical testing tell us? How binding is the budget constraint? How encompassing is a dictator's interest? How do veto powers of the executive, institutional structures and regimes affect public sector outcomes? Do voters behave rationally? Do conflicts yield benefits? Is war cost effective and does secession offer a viable exit option? The contributions, both theoretical and empirical, shed light on some contentious issues in the public economics literature and provide readers with insight into issues that are at the forefront of discussions about the public economy. The empirical analysis utilizes recent econometric techniques to validate or refute empirical findings based on older vintage econometrics. The diversity of coverage ranges from traditional models of the public economy to the incorporation of defence spending as a significant and often neglected function of the public sector. The contributors include many pioneers and leading lights in the field. The Elgar Companion to Public Economics will be required reading for academics and scholars at many levels in the fields of public economics and public choice but mainly graduate and above. The Companion will also be of value to scholars in the wider social sciences in general and political science in particular.

Populism and Liberal Democracy Takis S. Pappas, 2019-04-02 Populism and Liberal Democracy is the first book to offer a comprehensive theory about populism during both its emergence and consolidation phases in three geographical regions: Europe, Latin America and the United States. Based on the detailed comparison of all significant cases of populist governments, including Argentina, Greece, Peru, Italy, Venezuela, Ecuador, Hungary and the U.S., and two cases of populist failure, Spain and Brazil, each of the book's seven chapters addresses a specific question: What is populism? How to distinguish populists from non-populists? What causes populism? How and where does populism thrive? How do populists govern? Who is the populist voter? How does populism endanger democracy? If rising populism is a threat to liberal democratic politics, as this book clearly shows, it is only by answering the questions it posits that populism may be resisted successfully.

Conservatism in Canada James Farney, David Rayside, 2013-01-01 Conservatism in Canada explores the ideological character of contemporary Canadian conservatism, its support in the electorate, its impact on public policies such as

immigration and foreign policy and its articulation at both federal and provincial levels Popular Legitimism and the Monarchy in France Bernard Rulof, 2020-09-10 This book explores mid nineteenth century French legitimism and the implications of popular support for a movement that has traditionally been portrayed as an aristocratic force intent on restoring the Old Regime This type of monarchism has often been understood as a form of elitist patronage politics or alternatively identified with ultramontane Catholicism Although historians have offered a more nuanced view in the last few decades their work nevertheless has predominantly focused on legitimist leaders rather than their followers and their professed feelings of loyalty to monarchy and monarch This book's originality therefore is twofold firstly as an analysis of popular rather than elite monarchism and secondly as a study which portrays this form of royalism as a political movement characteristic of a period which saw the emergence of mass politics while parties were still non-existent It not only discusses the social and cultural settings of popular monarchism but also contributes to the history of political parties citizenship and democracy **The Practice of American Public Policymaking** Selden Biggs, Lelia B. Helms, 2014-12-18 Designed for upper level and professional courses this text is a state of the art introduction to the public policymaking process that gives equal attention to issues of policy implementation and public governance It uses an innovative systems approach integrating the activities actors tools and techniques of policymaking to provide a comprehensive framework for policy design and analysis The book is practice oriented with a focus on the ways that policymakers at all levels employ the standard technologies of governance authority agency program rule contract and budget to design policy outputs and achieve policy outcomes Through extensive use of graphics the text makes concepts easy to grasp for a generation of students accustomed to the visual presentation of ideas Case studies illustrate the tools and techniques discussed and key terms questions for discussion and suggested readings round out each chapter *Multilingual Democracy* Nenad Stojanović, 2021-06-29 Most experts on divided societies and institutional design broadly agree that it is more difficult to establish and maintain a stable functioning democracy in a country with multiple languages and linguistically fragmented public spheres than in more homogeneous countries Multilingual countries such as Canada and Belgium have been experiencing considerable difficulties in past decades see the almost successful 1995 referendum on sovereignty in Quebec or the institutional deadlock and the rise of Flemish nationalism in Belgium since the 1970s The prospects for the EU to become a viable democracy are even more haunted by multilingualism considering that it has 24 official languages and no lingua franca Switzerland however is also a multilingual country without a lingua franca fragmented into 22 mono lingual and three multilingual cantons as well as into four distinct public spheres German French Italian Romansh And yet it is widely seen as one of the most stable and successful democracies Conventional wisdom in political science literature suggests that consociational political institutions account for the success of Swiss multilingual democracy This book offers a different institutional explanation The author argues that in mainstream literature important Swiss institutions in particular direct democracy Parliament and the federal

executive have largely been misinterpreted they have been labelled as consociational whereas they are rather a product of centripetalism an approach to institutional design in which political incentives are directed toward intergroup compromise because of the need to appeal to voters across group lines in order to form majorities This approach to achieving long term democratic stability stands in sharp contrast to consociationalism *Politics in the American States* Virginia Gray, Russell L. Hanson, Thad Kousser, 2017-03-28 Winner of the 2017 Mac Jewell Enduring Contribution Award of the APSA s State Politics and Policy Section *Politics in the American States* Eleventh Edition brings together the high caliber research you expect from this trusted text with comprehensive and comparative analysis of the 50 states Fully updated for all major developments in the study of state level politics including capturing the results of the 2016 elections the authors bring insight and uncover the impact of key similarities and differences on the operation of the same basic political systems Students will appreciate the book s glossary the fully up to date tables and figures and the maps showcasing comparative data **When Movements**

Matter Edwin Amenta, 2020-11-10 *When Movements Matter* accounts for the origins of Social Security as we know it The book tells the overlooked story of the Townsend Plan a political organization that sought to alleviate poverty and end the Great Depression through a government provided retirement stipend of 200 a month for every American over the age of sixty Both the Townsend Plan which organized two million older Americans into Townsend clubs and the wider pension movement failed to win the generous and universal senior citizens pensions their advocates demanded But the movement provided the political impetus behind old age policy in its formative years and pushed America down the track of creating an old age welfare state Drawing on a wealth of primary evidence historical detail and arresting images Edwin Amenta traces the ups and downs of the Townsend Plan and its elderly leader Dr Francis E Townsend in the struggle to remake old age In the process Amenta advances a new theory of when social movements are influential The book challenges the conventional wisdom that U S old age policy was a result mainly of the Depression or farsighted bureaucrats It also debunks the current view that America immediately embraced Social Security when it was adopted in 1935 And it sheds new light on how social movements that fail to achieve their primary goals can still influence social policy and the way people relate to politics

Pipeline Populism Kai Bosworth, 2022-05-24 How contemporary environmental struggles and resistance to pipeline development became populist struggles Stunning Indigenous resistance to the Keystone XL and the Dakota Access pipelines has made global headlines in recent years Less remarked on are the crucial populist movements that have also played a vital role in pipeline resistance Kai Bosworth explores the influence of populism on environmentalist politics which sought to bring together Indigenous water protectors and environmental activists along with farmers and ranchers in opposition to pipeline construction Here Bosworth argues that populism is shaped by the affective infrastructures emerging from shifts in regional economies democratic public review processes and scientific controversies With this lens he investigates how these movements wax and wane moving toward or away from other forms of environmental and political ideologies in the Upper

Midwest This lens also lets Bosworth place populist social movements in the critical geographical contexts of racial inequality nationalist sentiments ongoing settler colonialism and global empire crucial topics when grappling with the tensions embedded in our era s immense environmental struggles Pipeline Populism reveals the complex role populism has played in shifting interpretations of environmental movements democratic ideals scientific expertise and international geopolitics Its rich data about these grassroots resistance struggles include intimate portraits of the emotional spaces where opposition is first formed Probing the very limits of populism Pipeline Populism presents essential work for an era defined by a wave of people powered movements around the world **The Oxford Handbook of State and Local Government** Donald P.

Haider-Markel,2014-04-03 The Oxford Handbook of State and Local Government is an historic undertaking It contains a wide range of essays that define the important questions in the field evaluate where we are in answering them and set the direction and terms of discourse for future work The Handbook will have a substantial influence in defining the field for years to come The chapters critically assess both the key works of state and local politics literature and the ways in which the sub field has developed It covers the main areas of study in subnational politics by exploring the central contributions to the comparative study of institutions behavior and policy in the American context Each chapter outlines an agenda for future research *Democratic Community* John W. Chapman,Ian Shapiro,1995-06-01 A state of the art meditation on relations

theoretical and practical among a familiar triad of themes comunitarianism liberalism and democracy American Political Science Review A collection of distinguished contributors from a wide range of disciplines examine the implications of the resurgence of interest in community The chapters in Democratic Community consider the fundamental issues that divide liberals and communitarians as well as the structure of communities the roles of freedom and democratic institutions in sustaining one another the place of a democratic civil society in a democratic polity and the contributions of feminist thinking This thirty fifth volume in the American Society of Political and Legal Philosophy series is devoted as is each volume in the series to a single topic in this case the implications for human nature and democratic theory of the resurgence of interest in community Democratic Community deals not only with fundamental issues that divide liberals and communitarians but is also concerned with the structure of communities the roles of freedom and democratic institutions in sustaining one another the place of a democratic civil society in a democratic polity and the contributions of feminist thinking to the great debate The collection of distinguished contributors from a wide range of disciplines includes Richard J Arneson University of California San Diego Jean Baechler University of Paris Sorbonne Christopher J Berry University of Glasgow Robert A Dahl Yale University Martin P Golding Duke University Carol C Gould Stevens Institute of Technology Amy Gutmann Princeton University Jane Mansbridge Northwestern University Kenneth Minogue London School of Economics Robert C Post University of California Berkeley David A J Richards New York University Gerald N Rosenberg University of Chicago Bruce K Rutherford Yale University Alan Ryan Princeton University and Carmen Sirianni Brandeis University **The Recall** Joseph

F. Zimmerman, 2014-01-01 In depth study of the recall the most important popular device allowing voters to remove unresponsive elected officials from office The recall or election in reverse is meant to allow voters to remove an elected official from office prior to the completion of his her term in office In this revised second edition of *The Recall* Joseph F Zimmerman examines the rise of the recall in the United States and its use by American voters Proponents of the recall believe the threat of removal from office would ensure that elected officials would act in accord with the public s will while opponents fear their use would disrupt and inhibit public officers in the performance of their duties Zimmerman provides a detailed analysis of how the recall has functioned in practice and discovers that the recall has seldom been employed against elected state officials Although used more often against local government officials the rate is still not exceptionally high when one considers the extremely large number of elected officials After a century of use in the United States the recall has not produced a new era of public official responsibility as hoped for by proponents but neither has it caused extensive disruption of state and local governments the original concern of early opponents

Radical Republicanism Bruno Leipold, Karma Nabulsi, Stuart White, 2020-03-05 Republicanism is a powerful resource for emancipatory struggles against domination Its commitment to popular sovereignty subverts justifications of authority locating power in the hands of the citizenry who hold the capacity to create transform and maintain their political institutions Republicanism s conception of freedom rejects social political and economic structures subordinating citizens to any uncontrolled power from capitalism and wage labour to patriarchy and imperialism It views any such domination as inimical to republican freedom Moreover it combines a revolutionary commitment to overturning despotic and tyrannical regimes with the creation of political and economic institutions that realise the sovereignty of all citizens institutions that are resilient to threats of oligarchical control This volume is dedicated to retrieving and developing this radical potential challenging the more conventional moderate conceptions of republicanism It brings together scholars at the forefront of tracing this radical heritage of the republican tradition and developing arguments texts and practices into a critical and emancipatory body of political and social thought The volume spans historical discussions of the English Levellers French and Ottoman revolutionaries and American abolitionists and trade unionists explorations of the radical republican aspects of the thought of Machiavelli Marx and Rousseau and theoretical examinations of social domination and popular constitutionalism It will appeal to political theorists historians of political thought and political activists interested in how republicanism provides a robust and successful radical transformation to existing social and political orders

Hollywood's White House Peter C. Rollins, John E. O'Connor, 2005-02-01 From action flicks to biopics to SNL skits how presidents are portrayed on screen An interesting study of the real presidency and the reel presidency USA Today Magazine Winner of the Popular Culture Association s Ray and Pat Browne Book Award Whether serious or satirical biographical or fictional the ways that US presidents are depicted in popular culture reveal much about us as a nation The contributors to *Hollywood s White House* examine the historical

accuracy of presidential depictions illuminate their influence and uncover how they reflect the concerns of their times and the social and political visions of the filmmakers With reflections on portrayals of Washington Adams Lincoln FDR Nixon and more this volume which includes a comprehensive filmography and a bibliography is ideal for both historians and film enthusiasts An engaging collection Robert Brent Toplin author of *Reel History In Defense of Hollywood*

Populist Paradox Introduction

In today's digital age, the availability of Populist Paradox books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Populist Paradox books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Populist Paradox books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Populist Paradox versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Populist Paradox books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Populist Paradox books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Populist Paradox books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free

access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Populist Paradox books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Populist Paradox books and manuals for download and embark on your journey of knowledge?

FAQs About Populist Paradox Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Populist Paradox is one of the best book in our library for free trial. We provide copy of Populist Paradox in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Populist Paradox. Where to download Populist Paradox online for free? Are you looking for Populist Paradox PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to get ideas is always to check another Populist Paradox. This method for see exactly what may be included and adopt these ideas to your book. This site will almost certainly help you save time and effort, money and stress. If you are looking for free books then you really should consider finding to assist you try this. Several of Populist Paradox are for sale to free while some are payable. If

you arent sure if the books you would like to download works with for usage along with your computer, it is possible to download free trials. The free guides make it easy for someone to free access online library for download books to your device. You can get free download on free trial for lots of books categories. Our library is the biggest of these that have literally hundreds of thousands of different products categories represented. You will also see that there are specific sites catered to different product types or categories, brands or niches related with Populist Paradox. So depending on what exactly you are searching, you will be able to choose e books to suit your own need. Need to access completely for Campbell Biology Seventh Edition book? Access Ebook without any digging. And by having access to our ebook online or by storing it on your computer, you have convenient answers with Populist Paradox To get started finding Populist Paradox, you are right to find our website which has a comprehensive collection of books online. Our library is the biggest of these that have literally hundreds of thousands of different products represented. You will also see that there are specific sites catered to different categories or niches related with Populist Paradox So depending on what exactly you are searching, you will be able to choose ebook to suit your own need. Thank you for reading Populist Paradox. Maybe you have knowledge that, people have search numerous times for their favorite readings like this Populist Paradox, but end up in harmful downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful bugs inside their laptop. Populist Paradox is available in our book collection an online access to it is set as public so you can download it instantly. Our digital library spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, Populist Paradox is universally compatible with any devices to read.
