G Thomas

Portable Utopia Glasgow And The United States 1820 19:

Adventurers And Exiles Marjory Harper, 2010-07-23 The Scots have always been a restless people says leading Scottish historian Marjory Harper but in the nineteenth century their restlessness exploded into a sustained surge of emigration that carried Scotland almost to the top of a European league table of emigrant exporting countries This is the first book to provide a comprehensive account of that Great Exodus In many ways it challenges the popular belief that the Scottish Diaspora were reluctant exiles There were indeed those who went unwillingly through clearance kidnapping or banishment Orphans and frequently against their parents wishes children of destitute parents were exported into domestic service by well meaning institutions But there were also adventurers many with fortunes to invest who went full of hope and many who left as a response to famine or destitution did so willingly in the belief that they would improve their lot There were temporary emigrants too off for a season's railroad building or a stretch in the East India Company ow were these people recruited Where did they embark from what was the voyage out like Where did they go And what happened when they got there From the Highlands Lowlands and islands to Canada Australia New Zealand the Caribbean Ceylon and India Harper brings alive the experience of the Scottish emigrant rawing and quoting from a vast range of contemporary letters diaries newspapers and magazines some examples are attached this rich immensely detailed and hugely rewarding book tells the stories of emigrants from diverse backgrounds as well as looking at the wider context of restless mobility that has taken Scots to England and Europe from the middle ages on Glasgow: 1830 to 1912 Thomas Martin Devine, 1995 Covering the period of political reform at the beginning of the 1830s to the great expansion of the city's boundaries in 1912 it examines the adjustments which had to be made to cope with some of the fastest urban growth in Europe Particular attention is paid to the people institutions and power structures as Glasgow s intricate class profile is unravelled and the pivotal role of politics and government is fully explored Atlantic Crossings Daniel T. RODGERS, 2009-06-30 The most belated of nations Theodore Roosevelt called his country during the workmen's compensation fight in 1907 Earlier reformers progressives of his day and later New Dealers lamented the nation's resistance to models abroad for correctives to the backwardness of American social politics Atlantic Crossings is the first major account of the vibrant international network that they constructed so often obscured by notions of American exceptionalism and of its profound impact on the United States from the 1870s through 1945 On a narrative canvas that sweeps across Europe and the United States Daniel Rodgers retells the story of the classic era of efforts to repair the damages of unbridled capitalism He reveals the forgotten international roots of such innovations as city planning rural cooperatives modernist architecture for public housing and social insurance among other reforms From small beginnings to reconstructions of the new great cities and rural life and to the wide ranging mechanics of social security for working people Rodgers finds the interconnections adaptations exchanges and even rivalries in the Atlantic region s social planning He uncovers the immense diffusion of talent ideas and action that were breathtaking in their range and

impact The scope of Atlantic Crossings is vast and peopled with the reformers university men and women new experts bureaucrats politicians and gifted amateurs This long dur e of contemporary social policy encompassed fierce debate new conceptions of the role of the state an acceptance of the importance of expertise in making government policy and a recognition of a shared destiny in a newly created world Scots in the North American West, 1790-1917 Ferenc Morton Szasz,2000 Scots trappers dominated the fur trade often proving more loyal to clan than to trading company or nation Relying on centuries of experience raising livestock for British markets Scottish investors and managers became highly visible in the post Civil War western cattle industry with thriving outfits such as the Swan Land and Cattle Company in Wyoming They introduced new breeds to western ranching such as the Aberdeen Angus that remain popular today Similarly Scots herders dominated the western sheep industry running herds of over 100 000 animals Andrew Little's sheep ranch in Idaho was so famous that a letter addressed simply Andy Little USA found its intended recipient Imperialism and juvenile literature Jeffrey Richards, 2017-03-01 Popular culture is invariably a vehicle for the dominant ideas of its age Never was this truer than in the late nineteenth and early twentieth centuries when it reflected the nationalist and imperialist ideologies current throughout Europe It both reflects popular attitudes ideas and preconceptions and it generates support for selected views and opinions This book examines the various media through which nationalist ideas were conveyed in late Victorian and Edwardian times in the theatre ethnic shows juvenile literature education and the iconography of popular art It seeks to examine in detail the articulation and diffusion of imperialism in the field of juvenile literature by stressing its pervasiveness across boundaries of class nation and gender It analyses the production distribution and marketing of imperially charged juvenile fiction stressing the significance of the Victorians discovery of adolescence technological advance and educational reforms as the context of the great expansion of such literature An overview of the phenomenon of Robinson Crusoe follows tracing the process of its transformation into a classic text of imperialism and imperial masculinity for boys The imperial commitment took to the air in the form of the heroic airmen of inter war fiction The book highlights that athleticism imperialism and militarism become enmeshed at the public schools It also explores the promotion of imperialism and imperialist role models in fiction for girls particularly Girl Guide stories Eighteenth Century Scotland Tom M. Devine, John R. Young, 2022-01-06 This impressive collection of essays is based on a two year seminar series of the Research centre in Scottish History at the University of Strathclyde New and original research as well as historiographical overviews and commentaries illuminate the study of this formative century in the creation of modern Scotland Contributors are leading figures in their fields and the Scottish experience is examined within an international dimension Topics include Scottish modernisation before the Industrial Revolution the Union of 1707 Scotland and British expansion Scottish Jacobitism the Catholic underground Scottish national identity the Scottish Enlightenment urbanisation demographic change Scottish Gaeldom Highland estate management and tenant emigration and Scottish radicalism Contributors Thomas M Devine John R

Young Michael Fry Allan I Macinnes James F McMillan Alexander Murdoch Richard J Finlay Jane Rendall Bernard Aspinwall Ian D Whyte Robert E Tyson T C Smout Andrew Mackillop Christopher A Whatley Elaine W McFarland Refugees and Population Transfer Management in Europe, 1914–1920s Kamil Ruszała, 2024-08-20 This book provides a comprehensive study of refugee movements and population transfers across Europe during the First World War and the early postwar period Drawing parallels with contemporary migration issues the book serves a social and educational purpose by highlighting Europe s history of migration and emphasizing the relevance of past experiences to current challenges It seeks to enhance understanding raise social awareness and contribute to the broader discourse on war refugeeism by applying historical insights to address contemporary migration crises The authors discuss how issues of refugee movements and population transfers were addressed in different contexts and reflect on refugees as both war induced migrants and political tools for authorities The book covers a range of topics including humanitarian systems during the war and the early postwar period refugee locations policy influence national issues self organization and aid for refugees as well as immigration control in time after bordering the postimperial Europe It also addresses the composition of populations in postwar reconstruction processes and its population dynamics This volume will be of value to those interested in modern European history social and political People and Society in Scotland, 1830-1914 W. Hamish Fraser, R. J. Morris, 2021-11-01 This is the second volume of a three volume study of Scottish social change and development from the eighteenth century to the present day originally published by John Donald in association with the Economic and Social History Society of Scotland The series covers the history of industrialisation and urbanisation in Scottish society and records many experiences which Scotland shared in common with other societies looking at the impact of those changes throughout the spectrum of society from croft bothy and hunting lodge to mines foundries and urban poor houses. The series is intended to illustrate the identity and distinctiveness of Scotland through its separate institutions and through areas such as language law and religion and recognises Scotland as a multi cultured society the highland and lowland cultures being only two among several **Urban Governance** Robert I. Morris, Richard H. Trainor, 2017-07-05 This is a coherent and integrated set of essays around the theme of governance addressing a wide range of questions on the organisation and legitimation of authority At the heart of the book is a set of topics which have long attracted the attention of urbanists and urban historians all over the world the growth and reform of urban local government local centre relationships public health and pollution local government finance the nature of local social lites and of participation in local government Approaching these topics through the concept of governance not only raises a series of new questions but also extends the scope of enquiry for the historian seeking to understand towns and cities all over the world in a period of rapid change Questions of governance must be central to a variety of enquiries into the nature of the urban place There are questions about the setting of agendas about when a localised or neighbourhood issue becomes a big city or even national political issue about what makes a problem Public health and related matters form a

central part of the issues especially for the British in North America fire and the development of urban real estate have dominated in India the security of the colonial government had a prominent place The historical dynamic of these essays follows the change from the chartered governments of the seventeenth and eighteenth centuries towards the representative regimes of the nineteenth and twentieth However such historical change is not regarded as inevitable and the effects of bureaucratic growth regulatory regimes the legitimating role of rational and scientific knowledge as well as the innovatory use of ritual and space are all dealt with at length **Neo-Confederacy** Euan Hague, Heidi Beirich, Edward H. Sebesta, 2009-09-15 A century and a half after the conclusion of the Civil War the legacy of the Confederate States of America continues to influence national politics in profound ways Drawing on magazines such as Southern Partisan and publications from the secessionist organization League of the South as well as DixieNet and additional newsletters and websites Neo Confederacy probes the veneer of this movement to reveal goals far more extensive than a mere celebration of ancestry Incorporating groundbreaking essays on the Neo Confederacy movement this eye opening work encompasses such topics as literature and music the ethnic and cultural claims of white Anglo Celtic southerners gender and sexuality the origins and development of the movement and its tenets and ultimately its nationalization into a far reaching factor in reactionary conservative politics The first book length study of this powerful sociological phenomenon Neo Confederacy raises crucial questions about the mainstreaming of an ideology that founded on notions of white supremacy has made curiously strong inroads throughout the realms of sexist homophobic anti immigrant and often orthodox Christian populations that would otherwise have no affiliation with the regionality or heritage traditionally associated with Confederate history and Transnational Progressivism D. Gutzke, 2016-04-30 This collection of essays explores how Progressivism was the historical catalyst for reforms across the social and political spectrum in Britain for over half a century The Cambridge <u>Urban History of Britain</u> Peter Clark, David Michael Palliser, Martin J. Daunton, 2000 The process of urbanisation and suburbanisation in Britain from the Victorian period to the twentieth century **Temperance And Racism** David M. Fahey, 2021-10-21 One hundred twenty years ago the Independent Order of Good Templars was the world's largest most militant and most evangelical organization hostile to alcoholic drink Standing in the forefront of the international temperance movement it was recognized worldwide as a potent social and moral force Temperance and Racism restores the Templars now an almost forgotten footnote in American and British social history to a position of prominence within the temperance movement The group s ideology of universal membership made it unique among fraternal organizations in the late nineteenth century and led to pioneering efforts on behalf of equal rights for women Its policy toward African Americans was more ambiguous Though a great many white Templars especially those in Great Britain rejected the extreme racism prevalent in the late nineteenth century members in the American South did not The decision to allow state lodges to rule on their membership eligibility led to the great schism of 1876 87 The break was mended only after British leaders compromised their ideals of universal brotherhood and sisterhood for the sake of the organization s international unity Drawing on previously unused primary sources David Fahey reveals much about racial attitudes and behavior in the late nineteenth century on both sides of the Mason Dixon line and on both sides of the Atlantic America, History and Life, 1985 **Municipal Services** and Employees in the Modern City Michèle Dagenais, Irene Maver, 2016-04-15 Municipal Services and Employees in the Modern City considers the roles played by local institutions and particular processes that shaped the urban fabric It rediscovers from models and maps the constituent dynamics of cities since the beginning of the nineteenth century and demonstrates how patterns evolved in the way services and locations were organized how urban transformation was underpinned by structural development and how the municipal workforce became an integral part of the agencies of change Municipal Services and Employees in the Modern City suggests that municipal experiences are central to the development of urban studies Its focus of analysis ranges across Europe and the Americas from high ranking bureaucrats to firefighters engineers to accountants and town clerks to public servants Each essay provides detailed information on how change was formulated or resisted within the administrative apparatus offering insight into a sector of the white collar class and the degree of commitment to public values often at times of social and political upheaval They explore the course of relationships between local and central government and the shifting bounds of municipal interventionism over a broad period whilst incorporating a social history approach to interpret the day to day responsibilities and routine of administration

American Book Publishing Record ,1984-09 Bibliographic Guide to North American History, 1985 Religion and National Identity Alistair Mutch, 2015-03-23 Presbyterianism has shaped Scotland and its impact on the world Behind its beliefs lie some distinctive practices of governance which endure even when belief fades These practices place a particular emphasis on the detailed recording of decisions and what we can term a systemic form of accountability This book examines the emergence and consolidation of such practices in the 18th century Church of Scotland Using extensive archival research and detailed local case studies it contrasts them to what is termed a personal form of accountability in England in the same period The wider impact of the systemic approach to governance and accountability especially in the United States of America is explored as is the enduring impact on Scottish identity This book offers a fresh perspective on the Presbyterian legacy in contemporary Scottish historiography at the same time as informing current debates on national identity The **Oxford Companion to Scottish History** Michael Lynch, 2007 Searchable online reference covers more than 20 centuries of history and interpret history broadly covering areas such as archaeology climate culture languages immigration migration and emigration Multi authored entries analyze key themes such as national identity women and society living standards and religious belief across the centuries in an authoritative yet approachable way The A Z entries are complemented by maps genealogies a glossary a chronology and an extensive guide to further reading From title screen The Economist ,1984
