**Steinbeck's Imaginarium** Robert DeMott, 2022-11-15 In Steinbeck's Imaginarium Robert DeMott delves into the imaginative creative and sometimes neglected aspects of John Steinbeck's writing DeMott positions Steinbeck as a prophetic voice for today as much as he was for the Depression era 1930s as the essays explore the often unknown or unacknowledged elements of Steinbeck's artistic career that deserve closer attention He writes about the determining scientific influences such as quantum physics and ecology in Cannery Row and considers Steinbeck's addiction to writing through the lens of the extensive obsessive full length journals that he kept while writing three of his best known novels The Grapes of Wrath The Wayward Bus and East of Eden DeMott insists that these monumental works of fiction all comprise important statements on his creative process and his theory of fiction writing DeMott further blends his personal experience as a lifelong angler with a reading of several neglected fishing episodes in Steinbeck's work Collectively the chapters illuminate John Steinbeck as a fully conscious self aware literate experimental novelist whose talents will continue to warrant study and admiration for years to come

**Modernism, Inc** Jani Scandura, Michael Thurston, 2001 Drawing on a variety of interdisciplinary debates in cultural studies and contemporary theory Modernism Inc provides a new look at the relationship between modernism and postmodernism within the critical frame of twentieth century American culture Organized around the idea of incorporation embodiment repressed memory and advanced capitalism Modernism Inc covers a wide range of topics Josephine Baker's hot house style the president's penis in American political life myth making and the Hoover Dam trauma poetics and the Armenian genocide feminist kitsch and the recuperation of North America's Great Lady painters Gertrude Stein and Jewish Social Science the Reno Divorce Factory and the production of gender Andy Razaf and Black Bolshevism Collectively the essays suggest that the relationship between the modern and the postmodern is not one of rupture belatedness dilution or extremity but of haunting Modernism Inc looks at our ghosts and at the unspeakable secrets of modernity from which they re derived Contributors Maria Damon Walter Kalidjian Walter Lew Janet Lyon William J Maxwell Cary Nelson John Timberman Newcombe David G Nicholls Thomas Pepper Paula Rabinowitz Daniel Rosenberg Marlon Ross Jani Scandura Kathleen Stewart Julia Walker

**Along the Ancient Silk Routes** Herbert Härtel, Marianne Yaldiz, Museum für Indische Kunst (Germany), Metropolitan Museum of Art (New York, N.Y.), 1982      *The True Story of Alice B. Toklas* Anna Linzie, 2006-04 In this original and intriguing study Anna Linzie examines three mid twentieth century texts never before treated as interrelated in a book length work of literary criticism Gertrude Stein's *The Autobiography of Alice B. Toklas* 1933 and Alice B. Toklas's *The Alice B. Toklas Cook Book* 1954 and *What Is Remembered* 1963 Taking these three texts as intertexts or as an assemblage of the true story of Alice B. Toklas Linzie challenges assumptions about primary authorship and singular identity that have continued to limit lesbian and feminist rereadings of autobiography as a genre and of Stein and Toklas as writers and historical figures *The True Story of Alice B. Toklas* explores how the concept of autobiography as a primarily referential genre is challenged and transformed in relation to autobiographical texts written about the same person the same life but differently by different writers at different points in time The concept of one true story is deconstructed in the process as Linzie modifies Homi K. Bhabha's almost the same but not quite not white for the purposes of this particular study as almost the same but not quite not straight The investigation moves simultaneously on the planes of textuality and sexuality in order to provisionally articulate a lesbian autobiographical subject in Linzie's reading of these three texts Linzie's study fills a gap in literary criticism where Stein's companion and her work have been more or less neglected conceptualizing the Stein Toklas sexual textual relationship as fundamentally reciprocal *The True Story of Alice B. Toklas* provides a new critical perspective on Toklas as indispensable to Stein's literary production a cultural laborer in her own right and a writer of her own books Making a significant contribution to recent lesbian feminist reconceptualizations of the genre of autobiography this study will fascinate Stein and Toklas scholars as well as those interested in queer and autobiography studies      *Beyond Boundaries* Susan Shillinglaw, Kevin Hearle, 2002-08-21 Documents life among the Kayapo Indians of central Brazil a fiercely independent tribe who were forced to become businessmen or see their traditional way of life destroyed      *Colorado School of Mines Magazine*, 1910      *The Journey Home* Joyce Antler, 2010-05-11 A unique positive collection of essays profiles a number of forgotten female Jewish leaders who played key roles in various American social and political movements from suffrage and birth control to civil rights and fair labor practices      ***The Colorado School of Mines Magazine***, 1910      *Authority Matters*, 2015-06-29 In this wide ranging collection of essays eleven literary scholars and creative writers examine authorship and authority in relation to the production and reception of cultural texts Ranging in time from the Renaissance to the era of digital publishing the essays invite us to reconsider the influential theories of Roland Barthes Michel Foucault and Pierre Bourdieu for our understanding of writers such as Philip Sidney Thomas Hardy Laura Riding W. B. Yeats Gertrude Stein and J. M. Coetzee Shedding new light on authority's complex role in the generation of cultural meaning the essays will be of interest to students and teachers of literary history and critical theory alike      *Index of Patents Issued from the United*

**The Delighted States** Adam Thirlwell, 2008-05-27 The Delighted States follows a carousel of literary influence that shows how translation and emigration lead to a new and true history of the novel This book is a provocation a box of tricks a bedside travel book it is also a work of startling intelligence and originality from a young writer      **Accented America** Joshua L. Miller, 2011-04-21 American literary works written in the heyday of modernism between the 1890s and 1940s were playfully painfully and ambivalently engaged with language politics The immigrant waves of the period fed into writers aesthetic experimentation their works in turn rewired ideas about national identity along with literary form Accented America looks at the long history of English Only Americanism the political claim that U S citizens must speak a singular shared American tongue and traces its action in the language workshop that is literature The broadly multi ethnic set of writers brought into conversation here including Gertrude Stein Jean Toomer Henry Roth Nella Larsen John Dos Passos Lionel Trilling Am rico Paredes and Carlos Bulosan reflect the massive demographic shifts taking place during the interwar years These authors share an acute awareness of linguistic standardization while also following the defamiliarizing sway produced by experimentation with invented and improper literary vernaculars Rather than confirming the powerfully seductive subtext of monolingualism that those who speak alike are ethically and politically likeminded multilingual modernists compose literature that speaks to a country of synthetic syntaxes singular hybrids and enduring strangeness

**The Municipal Review of Canada** , 1908      *The Canadian Municipal Journal* , 1909      *Tornado Alley* Howard B. Bluestein, 2006 Tornadoes are the most violent magnificent and utterly unpredictable storms on earth reaching estimated wind speeds of 300 mph and leaving swaths of destruction in their wake In Tornado Alley Howard Bluestein draws on two decades of experience chasing and photographing tornadoes across the Plains to present a fascinating historical account of the study of tornadoes and the great thunderstorms that spawn them A century ago tornado warnings were so unreliable that they usually went unreported Today despite cutting edge Doppler radar technology and computer simulation these storms remain remarkably difficult to study Leading scientists still conduct much of their research from the inside of a speeding truck and often contend with jammed cameras flash floods and windshields smashed by hailstones and flying debris Using over a hundred diagrams models and his own spectacular color photographs Bluestein documents the exhilaration of hair raising encounters with as many as nine tornadoes in one day as well as the crushing disappointment of failed expeditions and ruined equipment Most of all he recreates the sense of beauty mystery and power felt by the scientists who risk their lives to study violent storms For scientists amateur weather enthusiasts or anyone who s ever been intrigued or terrified by a darkening sky Tornado Alley provides not only a history of tornado research but a vivid look into the origin and effects of

nature s most dramatic phenomena
