## **Portfolio Teaching Second Edition:**

**The Art and Craft of College Teaching, Second Edition** Robert Rotenberg, 2012-03-15 The second edition of Rotenberg's popular guide to college teaching includes additional material on teaching in a digital environment universal design and teaching diverse students As in the first edition the book provides a hands on quick start guide to the complexities of the college classroom for instructors in their first five years of teaching independently The chapters survey the existing literature on how to effectively teach young adults offering specific solutions to the most commonly faced classroom dilemmas The author a former department chair and award winning instructor encourages the new teacher to support their students as individual learners who are engaged in a program of study beyond their individual class A focus on the choices made during the design of the course helps the instructor coordinate their class with a department or college curriculum An extensive discussion of the relationship between classroom design and class size as well as tips of assessment and grading enable the new instructor to better handle the challenges of contemporary college classrooms **The Portfolio Book**

Elizabeth F. Shores, Cathy Grace, 1998 Presents the use of portfolio books to assess children's learning Provides ten easy to use steps that can be integrated into everyday teaching Teaching Engineering, Second Edition Phillip C. Wankat, Frank S. Oreovicz, 2015-01-15 The majority of professors have never had a formal course in education and the most common method for learning how to teach is on the job training This represents a challenge for disciplines with ever more complex subject matter and a lost opportunity when new active learning approaches to education are yielding dramatic improvements in student learning and retention This book aims to cover all aspects of teaching engineering and other technical subjects It presents both practical matters and educational theories in a format useful for both new and experienced teachers It is organized to start with specific practical teaching applications and then leads to psychological and educational theories The practical orientation section explains how to develop objectives and then use them to enhance student learning and the theoretical orientation section discusses the theoretical basis for learning teaching and its impact on students Written mainly for PhD students and professors in all areas of engineering the book may be used as a text for graduate level classes and professional workshops or by professionals who wish to read it on their own Although the focus is engineering education most of this book will be useful to teachers in other disciplines Teaching is a complex human activity so it is impossible to develop a formula that guarantees it will be excellent However the methods in this book will help all professors become good teachers while spending less time preparing for the classroom This is a new edition of the well received volume published by McGraw Hill in 1993 It includes an entirely revised section on the Accreditation Board for Engineering and Technology ABET and new sections on the characteristics of great teachers different active learning methods the application of technology in the classroom from clickers to intelligent tutorial systems and how people learn **The Learning Portfolio** John Zubizarreta, 2009-03-16 The learning portfolio is a powerful complement to traditional measures of student achievement and

a widely diverse method of recording intellectual growth This second edition of this important book offers new samples of print and electronic learning portfolios An academic understanding of and rationale for learning portfolios and practical information that can be customized Offers a review of the value of reflective practice in student learning and how learning portfolios support assessment and collaboration Includes revised sample assignment sheets guidelines criteria evaluation rubrics and other material for developing print and electronic portfolios      **Encyclopedia of Distance Learning, Second Edition** Rogers, Patricia L.,Berg, Gary A.,Boettcher, Judith V.,Howard, Caroline,Justice, Lorraine,Schenk, Karen D.,2009-01-31 Offers comprehensive coverage of the issues concepts trends and technologies of distance learning
