Portrait Of Divorce Adjustment To Marital Breakdown:

Portrait of Divorce Gay C. Kitson, William Michael Holmes, 1992 Despite the increase of research on divorce relatively little is known about such topics as how men adjust to divorce compared with women how blacks adjust compared to whites and what divorce adjustment looks like over time Filling a gap in the literature PORTRAIT OF DIVORCE presents a comprehensive and detailed report on the causes and consequences of divorce Inclusive in its scope the book covers the period of estrangement through the divorce process and on to 4 years after the couples separated The work is based on the integration of original data with over 50 years of prior research In addition it contrasts divorcing people with a comparable sample of people who remain in intact marriages The book opens with a discussion of today s changing attitudes about marriage and the resulting mixed view of divorce A new model of divorce adjustment one that integrates the pathology and crisis models of adjustment and includes elements of loss and change is outlined The four sources of study data used for the book are described as are the ways in which such key elements as subjective distress attachment self esteem and illness contacts were measured To address the issue of comparability of the married samples background characteristics of the suburban reconciled and marital transition samples are examined Also risk factors that have been thought predispose those who divorce are explored Having laid the groundwork subsequent chapters cover the processes of the relationship estrangement that occurs within marriage and various causes of divorce including legal definitions psychological correlates and marital complaints The effect of divorce on physical and mental health and the implications of age and other life events on the ability to adjust are described Parents initial perceptions of the impact of divorce on their children are reported as are changes in their perceptions over time Other topics include economic factors social support systems and life after divorce Finally analyses are presented that illustrate what factors are associated with better and worse adjustment to divorce for blacks and whites and men and women both cross sectionally and longitudinally Adding immeasurably to our understanding about the causes and consequences of divorce this volume will be valued by clinicians who work with the divorced community psychologists child and family development scholars and and sociologists interested in family and health Well written and clearly organized it also serves as a classroom text for students in these fields **Psychosocial and Legal**

Perspectives of Marital Breakdown Margit Gaffal, 2010-10-23 Divorce has long been viewed as a single phenomenon affecting two individuals without considering the framework conditions in which it occurs Due to the increase of divorce rates in the past decades researchers have changed their perspective and have concentrated on the view of divorce as a personal experience that is greatly affected by the socials and economic environment The aim of this thesis is to investigate divorce that has become a mass phenomenon in our present society The assumption is that in order to understand the grounds for divorce and its consequences we have to view divorce as a phenomenon that occurs at the intersection of personal socio economic and legal factors Family disputes involve persons who have interdependent and continued relati

ships and arise in a context of distressing emotions Separation and divorce affect all the members of the family especially children The study presents a comprehensive analysis of divorce as a psychological process that is situated within a social and a legal context It presents a comprehensive view of divorce as a psychosocial economic and legal phenomenon and contains a review of the research literature about divorce and its consequences for parents and children Moreover it describes divorce by proposing conceptual frames and explanatory models **Handbook of Divorce and Relationship**

European Review of Social Psychology Wolfgang Stroebe, Miles Hewstone, 2005-02-24 The

European Review of Social Psychology is an annual series that reflects the dynamism of social psychology in Europe and has been widely accepted as one of the most important international series in social psychology. The series is open to authors from all nations and its primary purpose is to further the international exchange of ideas by providing an outlet for substantial accounts of theoretical and empirical work. With the help of an editorial board consisting of senior scholars from various European countries, Australasia and North America, the editors invite outstanding researchers to contribute to these volumes. Invitations are based either on suggestions from editorial board members or made in response to proposals submitted to the editors. The emphasis of these contributions is on critical assessment of major areas of research and of substantial individual programmes of research as well as on topics and initiatives of contemporary interest and originality.

Situated Fathering William Marsiglio, Kevin Roy, Greer Litton Fox, 2005-07-28. Situated Fathering proposes a new theoretical framework for studying how various contingencies of physical space in conjunction with social symbolic issues affect men's identities as fathers and their involvement with children. Written largely for family scholars and students by an interdisciplinary team of leading scholars, this distinct volume of original research explores fathers in a wide range of physical and social spaces. Contributors outline directions for theoretically guided research in specific, often gendered, fathering sites.

The Golden Rules of Marriage Hugo Rodriguez, 2012. It was good to see another book from this talented author and I enjoyed reading The Golden Rules of Marriage. The book is a thought-provoking and knowledgeable read from start to finish. Written by a psychologist, the work explains why marriage counselling has not been effective and shows the reasons. The book focuses on profiting from differences rather than trying to solve them and the crucial role that thoughts play in determining one's attitude. Using some ancient wisdom, the work contains a five-week program with practical strategies that a couple can complete at home. It explains what true love is and the difference with romantic love and shows how if a couple go by the Golden Rules, then their problems can be solved. Written in an easy, fluent style with excellent advice, it explains how our minds and thoughts govern our situations. I particularly liked the way the book combines ancient wisdom with modern concepts and shows there is not much difference after all. Leanne Saunders, Evaluator.

Soft Patriarchs, New Men W. Bradford Wilcox, 2004-05. In the wake of dramatic recent changes in American family life, evangelical and mainline Protestant churches took markedly different positions on family change. This work explains why these two traditions responded so differently to family change and then goes on to explore how the stances of evangelical and mainline Protestant churches toward marriage and parenting influenced the husbands and fathers that fill their pews. According to W. Bradford Wilcox, the divergent family ideologies of evangelical and mainline churches do not translate into large differences in family behavior between evangelical and mainline Protestant men who are married with children. Mainline Protestant men, he contends, are new men who take a more egalitarian approach to the division of household labor than their conservative peers and a more involved approach to parenting than men with no religious affiliation. Evangelical Protestant men meanwhile are

soft patriarchy not as authoritarian as some would expect and given to being more emotional and dedicated to their wives and children than both their mainline and secular counterparts Thus Wilcox argues that religion domesticates men in ways that make them more responsive to the aspirations and needs of their immediate families

Stress Processes across the Life Course Heather A. Turner, Scott Schieman, 2008-07-22 Stress researchers have become increasingly aware of the ways in which structural and psychosocial variations in the life course shape exposure and vulnerability to social stress This volume of *Advances in Life Course Research* explores theoretically and empirically stress processes both within and across specific life stages Chapters within this volume incorporate several areas of research including How physical and mental health trajectories are shaped by life course variations in stressors and resources Stress associated with social role transitions and the significance of different role trajectories for stress exposure and outcomes Life course variations in the quality and content of institutional contexts such as school work and family and their significance for stress processes Differences in types levels and effects of different stress moderating resources within and across life course stages Ways in which race gender and social class influence or condition stress processes over the life course The relevance of linked lives within families and across generations for stress exposure and vulnerability Historical variations in stress related conditions and cohort differences in stress experiences Methodological and theoretical advances in studying stress processes across the life course

Financial Issues and Millennials' Partnered Relationships Satisfaction Dr. Wisler Antoine, 2020-11-06 The purpose of this study is to establish the relationship between financial issues and millennials partnered relationships satisfaction Furthermore in the analysis of this topic there are three main financial issues being discussed These financial issues are the following financial management financial problem and financial distress These were used as the determining factors in assessing the level of satisfaction for millennials partnered relationships The quantitative method was used in this study by carefully selecting 385 participants whose ages range from 25-36 years old Provided that they had stayed together for at least three years these millennial participants were randomly picked from the United States of America USA In the course of this study variables including their gender educational level and income were the primary focus The results revealed that 90% of the selected millennials in partnered relationships who did not adopt the policy of financial management ended up having financial problems which eventually led them into financial distress From the results obtained it was concluded that in order for the millennials in partnered relationships to have a successful financial satisfaction they have to and ought to know how to manage their finances well Managing one's finances efficiently would definitely help in reducing our financial problems which in turn might reduce financial distress and the couples can enjoy a high level of financial satisfaction with their relationships

Families, Ageing and Social Policy Chiara Saraceno, 2008-01-01 Offers insights into the way in which social policies and welfare state arrangements interact with family and gender models This title presents the research in the field based on a variety of national and comparative sources and using different theoretical and methodological

approaches The Cambridge Handbook of Personal Relationships Anita L. Vangelisti, Daniel Perlman, 2018-06-21 With the field of personal relationships having grown dramatically in the past quarter century The Cambridge Handbook of Personal Relationships Second Edition serves as a benchmark of the current state of scholarship synthesizing the extant theoretical and empirical literature tracing its historical roots and making recommendations for future directions Written by internationally known experts from key disciplines the Handbook addresses both fundamental questions and cutting edge concerns This second edition has been thoroughly updated to reflect recent developments in analytical techniques shifts in theoretical emphases and an increased attention to social processes New chapters include the Neuroscience of Salutary Close Relationships Self Disclosure in Relationships Acceptance Rejection and the Quest for Relational Value Relationships and Physical Health Personal Relationships and Technology in the Digital Age and Promoting Healthy Relationships This compendium of state of the art research and theory on personal relationships will be of great value to researchers graduate students and practitioners *Alone Together* Paul R. Amato, Alan Booth, David R. Johnson, Stacy J. Rogers, 2009-06-30 Based on two studies of marital quality in America twenty years apart *Alone Together* shows that while the divorce rate has leveled off spouses are spending less time together The authors argue that marriage is an adaptable institution and in accommodating the changes that have occurred in society it has become a less cohesive yet less confining arrangement

Proposing Prosperity? Jennifer M. Randles, 2016-12-27 Fragile families unmarried parents who struggle emotionally and financially are one of the primary targets of the Healthy Marriage Initiative a federal policy that has funded marriage education programs in nearly every state These programs which encourage marriage by teaching relationship skills are predicated on the hope that married couples can provide a more emotionally and financially stable home for their children Healthy marriage policy promotes a pro marriage culture in which two parent married families are considered the healthiest It also assumes that marriage can be a socioeconomic survival mechanism for low income families and an engine of upward mobility Through interviews with couples and her own observations and participation in marriage education courses Jennifer M Randles challenges these assumptions and critically examines the effects of such classes on participants She takes the reader inside healthy marriage classrooms to reveal how their curricula are reflections of broader issues of culture gender governance and social inequality In analyzing the implementation of healthy marriage policy Randles questions whether it should target individual behavior or the social and economic context of that behavior The most valuable approach she concludes will not be grounded in notions of middle class marriage culture Instead it will reflect the fundamental premise that love and commitment thrive most within the context of social and economic opportunity **Conceptualizing and Measuring Father Involvement** Randal D. Day, Michael E. Lamb, 2003-10-03 After decades of focusing on the mother's role in parenting family studies researchers have turned their attention to the role of the father in parenting and family development The results shed new light on childhood development and question conventional wisdom by showing that

beyond providing the more traditional economic support of the family fathers do indeed matter when it comes to raising a child. Stemming from a series of workshops and publications sponsored by the Family and Child Well Being Network under the federal fatherhood initiative of the National Institute of Child Health and Development, this comprehensive volume focuses on ways of measuring the efficacy of father involvement in different scenarios using different methods of assessment and different populations. In the process, new research strategies and new parental paradigms have been formulated to include paternal involvement. Moreover, this volume contains articles from a variety of influences while addressing the task of finding the missing pieces of the fatherhood construct that would work for new age as well as traditional and minority fathers. The scope of this discussion offers topics of interest to basic researchers as well as public policy analysts.
