**Prices** Olav Velthuis, 2007-08-19 How do dealers price contemporary art in a world where objective criteria seem absent Talking Prices is the first book to examine this question from a sociological perspective On the basis of a wide range of qualitative and quantitative data including interviews with art dealers in New York and Amsterdam Olav Velthuis shows how contemporary art galleries juggle the contradictory logics of art and economics In doing so they rely on a highly ritualized business repertoire For instance a sharp distinction between a gallery's museumlike front space and its businesslike back space safeguards the separation of art from commerce Velthuis shows that prices far from being abstract numbers convey rich meanings to trading partners that extend well beyond the works of art A high price may indicate not only the quality of a work but also the identity of collectors who bought it before the artist's reputation was established Such meanings are far from unequivocal For some a high price may be a symbol of status for others it is a symbol of fraud Whereas sociological thought has long viewed prices as reducing qualities to quantities this pathbreaking and engagingly written book reveals the rich world behind these numerical values Art dealers distinguish different types of prices and attach moral significance to them Thus the price mechanism constitutes a symbolic system akin to language Van Gogh's Second Gift Cliff Edwards, 2020-08-18 Cliff Edwards a well known Vincent Van Gogh author and scholar explores Van Gogh's second gift the surprising written works of Van Gogh in letters to his brother fellow artists and friends Edwards illuminates Van Gogh's vision and creative process for readers as a way of living and creating more deeply Van Gogh's Second Gift gives us another side of Van Gogh whose poetic creative and original mind opened up startling insights on the creative process A perfect book for creatives and those who want to understand more about one of the world's most beloved artists the genius creator of works like Starry Night Focusing on more than 40 letter excerpts Edwards offers clear background and insights into Van Gogh's life and creative ideas as well as suggestions for reflection and personal engagement Van Gogh sketches are scattered throughout the book *Economics of Visual Art* Amy Whitaker, 2021-08-12 Markets Cost Price Structure Failure Power Labor Property Investment Systems **An Artist Empowered: Define and Establish Your Value as an Artist** Ed Maxwell, 2007-06-16 Ed Maxwell is a brilliant and passionate artist who has explored challenged and mastered every facet of the creative process from the trenches to the mountaintops it's all here a powerful and pragmatic textbook for artists of every age and stage of development a virtual how to for creators embarking on the spiritual voyage of a lifetime Mary Anne Bartley Artist in Residence Villanova University WHY PBS
