Three Essays and Three Revolutions Francis Goskowski, 2012-06-07 If you have ever wondered why American Catholics and American Protestants in the mainline denominations in 2011 believe and worship in very similar ways why Democrats and Republicans accept the necessity of governmental intervention to secure the safety net of services citizens may need to access at various times in their lives and why average American workers in their pivotal role as producers and consumers of goods and services own the nation's economy Three Essays and Three Revolutions is the book for you Author Francis Goskowski argues that Martin Luther Jean Jacques Rousseau and Karl Marx three Founding Fathers of the modern world are responsible for the big ideas that have shaped current thinking in religion politics and economics By closely examining one important work of each thinker the author shows how the revolutionary concepts Luther Rousseau and Marx advanced provoked fierce opposition within the prevailing order but ultimately gained acceptance in all circles evidenced by the fundamental agreement on religious liberty civic equality and economic justice apparent throughout the Western world today This eloquently written thought provoking and sensibly priced collection of essays is timely and long overdue Three Essays and Three Revolutions is the sort of wonderful book of which any aspiring writer might wish to claim authorship I am sure that it will be wisely read thoughtfully debated and much treasured in the years ahead John Quentin Feller Ph D K H S former professor of history and historical consultant to the late Cardinal Lawrence J Shehan and retired Cardinal William H Keeler 12th and 14th Archbishops of Baltimore respectively **Savage Anxieties** Robert A. Williams, Jr., 2012-08-21 Presents an intellectual history of the West's bias against tribalism that explains how acts of war and dispossession have been justified in the name of civilization and have typically victimized tribal groups **Painting and Sculpture in Europe, 1880-1940** George Heard Hamilton, 1993-01-01 This new edition of a book that offers the best available grounding in its huge subject as the Sunday Times called it includes color plates and a revised and expanded bibliography Professor Hamilton traces the origins and growth of modern art assessing the intrinsic qualities of individual works and describing the social forces in play The result is an authoritative guide through the forest of artistic labels Impressionism and Expressionism Symbolism Cubism Constructivism Surrealism etc and to the achievements of Degas and Cezanne Ensor and Munch Matisse and Kandinsky Picasso Braque and Epstein Mondrian Dali Modigliani Utrillo and Chagall Klee Henry Moore and many other artists in a revolutionary age Rousseau's Reader John T. Scott, 2020-05-04 On his famous walk to Vincennes to visit the imprisoned Diderot Rousseau had what he called an illumination the realization that man was naturally good but becomes corrupted by the influence of society a fundamental change in Rousseau's perspective that would animate all of his

subsequent works At that moment Rousseau saw something he had hitherto not seen and he made it his mission to help his readers share that vision through an array of rhetorical and literary techniques In Rousseau s Reader John T Scott looks at the different strategies Rousseau used to engage and persuade the readers of his major philosophical works including the Social Contract Discourse on Inequality and Emile Considering choice of genre textual structure frontispieces and illustrations shifting authorial and narrative voice addresses to readers that alternately invite and challenge apostrophe metaphor and other literary devices and of course paradox Scott explores how the form of Rousseau s writing relates to the content of his thought and vice versa Through this skillful interplay of form and content Rousseau engages in a profoundly transformative dialogue with his readers While most political philosophers have focused understandably on Rousseau s ideas Scott shows convincingly that the way he conveyed them is also of vital importance especially given Rousseau s enduring interest in education Giving readers the key to Rousseau s style Scott offers fresh and original insights into the relationship between the substance of his thought and his literary and rhetorical techniques which enhance our understanding of Rousseau s project and the audiences he intended to reach

Master of the Two

Left Feet Richard Meyer,2022-09-13 An account of the life and work of a once famous self taught American artist of the 1940s and a study of how artists go missing from public memory The exhibition Morris Hirshfield Rediscovered at the American Folk Art Museum in New York City curated by the author and developed as an extension of the book is on view from September 22 2022 to January 27 2023 A garment worker and slipper manufacturer with no training in art Morris Hirshfield was never expected to make history Against all odds his wildly stylized paintings of female figures often nude animals and landscapes became internationally known in the 1940s Admired by Pablo Picasso Piet Mondrian and the French surrealists his peak moment of visibility occurred in 1943 when the Museum of Modern Art mounted a one man show of his

work The exhibition was widely reviewed though mostly reviled by the press who jeeringly crowned Hirshfield Master of the Two Left Feet for his tendency to display the female body in that unorthodox fashion After the artist's death in 1946 his work was largely forgotten but in Master of the Two Left Feet art historian Richard Meyer rediscovers Hirshfield for twenty first century audiences offering full color reproductions that capture the vibrant imagination and sheer visual pleasure of Hirshfield's paintings The book also features a catalog of works compiled by curator Susan Davidson which provides the most comprehensive documentation of the artist's work ever assembled Ten years in the making Master of the Two Left Feet presents Hirshfield's unlikely career as a painter not only as a missing episode in the history of twentieth century art but as a case study of the ways in which artists go missing from historical knowledge and public memory By looking closely at Hirshfield and his milieu in 1940s Brooklyn Meyer demonstrates how much we have yet to learn and to see of the visual past

Henri Michaux Margaret Rigaud-Drayton,2005-07-28 Henri Michaux is widely recognized as a major twentieth century French poet and painter Although his fascination with universal languages has attracted critical attention it has up until now been treated as a marginal concern This study argues that Michaux's ideas on universal languages are central to an understanding of his works **The Concept of the Self in the French Enlightenment** Jean Ashmead Perkins,1969

Wallace Stevens and the Aesthetics of Abstraction Edward Ragg,2010-07-15 Edward Ragg's study was the first to examine the role of abstraction throughout the work of Wallace Stevens By tracing the poet's interest in abstraction from Harmonium through to his later works Ragg argues that Stevens only fully appreciated and refined this interest within his later career Ragg's detailed close readings highlight the poet's absorption of late nineteenth century and early twentieth century painting as well as the examples of philosophers and other poets work Wallace Stevens and the Aesthetics of Abstraction will appeal to those studying Stevens as well as anyone interested in the relations between poetry and painting This valuable study embraces revealing philosophical and artistic perspectives analyzing Stevens place within and resistance to Modernist debates concerning literature painting representation and the imagination *Antiquity, Theatre, and the Painting of Henry Fuseli* Andrei Pop,2015 In this volume Pop examines how art of the mid 1700s and early 1800s inspired by translations of Greek tragedy reveals a view of modern Europe attempting to recognize its own historical status as one culture among many He analyses this broad view of culture through the lens of Anglo Swiss artist Henry Fuseli's life and work Modern Primitives: Masters of Naïve Painting Oto Bihalji-Merin,1961 Donated by Sydney Harris **The Noble**

Enlightenment against Empire Sankar Muthu, 2009-01-10 Inspired by a more multifaceted view of the Enlightenment Muthu looks at a forgotten legacy from this period its anti imperialism Gregory Jusdanis *Research in African Literatures* In the late eighteenth century an array of European political thinkers attacked the very foundations of imperialism arguing passionately that empire building was not only unworkable costly and dangerous but manifestly unjust Enlightenment Against Empire is the first book devoted to the anti imperialist political philosophies of an age often regarded as affirming imperial ambitions Sankar Muthu argues that thinkers such as Denis Diderot Immanuel Kant and Johann Gottfried Herder developed an understanding of humans as inherently cultural agents and therefore necessarily diverse These thinkers rejected the conception of a culture free natural man They held that moral judgments of superiority or inferiority could be made neither about entire peoples nor about many distinctive cultural institutions and practices Muthu shows how such arguments enabled the era's anti imperialists to defend the freedom of non European peoples to order their own societies In contrast to those who praise the Enlightenment as the triumph of a universal morality and critics who view it as an imperializing ideology that denigrated cultural pluralism Muthu argues instead that eighteenth century political thought included multiple Enlightenments He reveals a distinctive and underappreciated strand of Enlightenment thinking that interweaves commitments to universal moral principles and incommensurable ways of life and that links the concept of a shared human nature with the idea that humans are fundamentally diverse Such an intellectual temperament Muthu contends can broaden our own perspectives about international justice and the relationship between human unity and diversity Gatecrashers Katherine Jentleson, 2020-04-07

After World War I artists without formal training crashed the gates of major museums in the United States diversifying the art world across lines of race ethnicity class ability and gender At the center of this fundamental reevaluation of who could be an artist in America were John Kane Horace Pippin and Anna Mary Robertson Grandma Moses The stories of these three artists not only intertwine with the major critical debates of their period but also prefigure the call for inclusion in representations of American art today In *Gatecrashers* Katherine Jentleson offers a valuable corrective to the history of twentieth century art by expanding narratives of interwar American modernism and providing an origin story for contemporary fascination with self taught artists **Makers of Nineteenth Century**
