In these sixteen stimulating contributions he develops theories of textual criticism and editing that are inflected by our advance into the digital era, structurally analyses arts of composition in literature and music and traces the cultural implications discernible in book design and in the canonisation of works of literature and their authors. Distinctive and ambitious, these essays move beyond the concerns of the community of critics and scholars. Gabler responds innovatively to the issues involved and often endeavours to re-think their urgencies by bringing together the orthodox tenets of different schools of textual criticism. He moves between a variety of topics ranging from fresh genetic approaches to the work of James Joyce and Virginia Woolf to significant contributions to the theorisation of scholarly editing in the digital age. Written in Gabler's fluent style, these rich and elegant compositions are essential reading for literary and textual critics, scholarly editors, readers of James Joyce, New Modernism specialists and all those interested in textual scholarship and digital editing under the umbrella of Digital Humanities. *The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950* George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries. **A Portrait of the Artist as a Young Man** James Joyce, 2007 A Portrait of the Artist as a Young Man is one of the twentieth century's great coming of age novels. [A Portrait of the Artist as a Young Man](#) James Joyce, 1916 *James Joyce* Thomas Jackson Rice, 2015-12-22 James Joyce A Guide to Research first published in 1982 is a selective annotated bibliography of works by and about James Joyce. It consists of three parts: the primary bibliography which includes separate bibliographies of Joyce's major works, of scholarly editions or collections of his works, of his letters and of concordances to his works; the secondary bibliography which includes bibliographies of bibliographical, biographical and critical works concerning Joyce generally or his individual works and major foreign language studies. This title will be of interest to students of literature. **James Joyce and the Politics of Desire** Suzette A. Henke, 2015-12-22 This title first published in 1990 offers a feminist and psychoanalytic reassessment of the Joycean canon in the wake of Freud, Lacan and Kristeva. The author centres her discussion of Ulysses, Dubliners, A Portrait of the Artist, Finnegans Wake and Exiles around questions of desire and language and the politics of sexual difference. Suzette

Henke's radical re-vision of Joyce's work is a striking example of the crucial role feminist theory can play in contemporary evaluation of canonical texts. As such, it will be welcomed by feminists and students of literature alike. *ReJoycing* Rosa Bollettieri Bosinelli, Harold F. Mosher Jr., 2021-05-11. In this volume, the contributors, a veritable Who's Who of Joyce specialists, provide an excellent introduction to the central issues of contemporary Joyce criticism. *Reading Modernism with Machines* Shawna Ross, James O'Sullivan, 2016-11-30. This book uses the discipline-specific computational methods of the digital humanities to explore a constellation of rigorous case studies of modernist literature. From data mining and visualization to mapping and tool building, and beyond, the digital humanities offer new ways for scholars to question literature and culture. With the publication of a variety of volumes that define and debate the digital humanities, we now have the opportunity to focus attention on specific periods and movements in literary history. Each of the case studies in this book emphasizes literary interpretation and engages with histories of textuality and new media rather than dwelling on technical minutiae. *Reading Modernism with Machines* thereby intervenes critically in ongoing debates within modernist studies while also exploring exciting new directions for the digital humanities, ultimately reflecting on the conjunctions and disjunctions between the technological cultures of the modernist era and our own digital present.
