Portrait of a Decade Charles Freeman,1990 **The Lost Decade? The 1950s in European History, Politics, Society and Culture** Heiko Feldner,Claire Gorrara,Kevin Passmore,2010-10-12 This volume of essays explores the social political and cultural legacies of a decade which has until relatively recently received scant scholarly attention Sandwiched uncomfortably between the traumatic events of the Second World War and the dramatic changes of the 1960s the 1950s appeared as seemingly transitional years while they were in fact an astonishingly fecund period of reassessment and experimentation when traditional models were re evaluated and new models were road tested to be either developed or rejected An important intervention in the dynamic scholarly re examination of the 1950s this volume analyzes these years in relation to three broadly defined areas historiography politics and society and culture What emerges from all three parts of the volume is a vision of the 1950s as a decade which was to have a profound impact on post war European identities in two key respects as a time of accelerated European intellectual exchange and as a time of fertile receptivity to the new variously formulated and contested across and within national borders Written by experts in the field the contributions to this volume represent some of the most exciting work on the 1950s currently being undertaken in Europe and the US They combine high intellectual standards with accessibility and will appeal to academics students and the general reader alike **Pop Goes the Decade** Ralph G. Giordano,2017-06-05 Covering significant historical and cultural moments public figures and celebrities art and entertainment and technology that influenced life during the decade this book documents the 1950s through the lens of popular culture On the surface the 1950s was a time of post war prosperity and abundance However in spite of a relaxation of immigration policies the good life in the 50s was mainly confined to white non ethnic Americans A new Cold War with the Soviet Union intended to contain the threat of Communism and the resulting red scare tinged the experience of all U S citizens during the decade This book examines the key trends people and movements of the 1950s and inspects them within a larger cultural and social context By highlighting controversies in the decade readers will gain a better understanding of the social values and thinking of the time The examination of the individuals who influenced American culture in the 1950s enables students to gauge the tension between established norms of conformity and those figures that used pop culture as a broad avenue for change either intentionally or by accident **Portraits of 21st Century Chinese Universities:** Ruth Hayhoe,Jun Li,Jing Lin,Qiang Zha,2012-12-03 This book examines the ways in which China s universities have changed in the dramatic move to a mass stage which has unfolded since the late 1990s Twelve universities in different regions of the country are portrayed through the eyes of their students faculty and leaders The book begins with the national level policy process around the move to mass higher education This is followed by an analysis of the views of 2 300 students on the 12 campuses about how the changes have affected their learning experiences and civil society involvement The 12 portraits in the next section are of three comprehensive universities three education related universities

three science and technology universities and three newly emerging private universities The final chapter sketches the contours of an emerging Chinese model of the university and explores its connections to China's longstanding scholarly traditions

A Brief History of Painting Roy Bolton, 2013-06-13 The urge to create pictures of our world has been with us ever since early man daubed a fingerful of pigment on a rock or used primitive colours to create exquisite images of the beasts he hunted images so breathtakingly

powerful they have never been surpassed however sophisticated we have become This book tells the story of what painting has meant to us and how its role has changed over the centuries In the crisp unstuffy commentary on each of 150 landmark works Christie s art expert Roy Bolton leads us through the development of painting until our own age where painting as a painterly craft has been overtaken by a proliferation of new forms introduced by contemporary art To the question Is the death of painting upon us the introductory chapter by Matthew Collings the multi award winning TV art presenter art historian and cultural critic gives an inspiring answer Painting justifies itself Rather than pathetically struggling to keep up with the new freak show culture of videos and installations painting will only be worth having if it reconnects with its own inner life where the old and the new are the same Roy Bolton s selection takes us from the Ancient World via the Italian Renaissance Rococo and Classicism to Impressionism Modernism and the Contemporary World Each painting with its context and artist is explained in terms designed to encourage us to judge art for ourselves Written with authority and full of original and helpful insights this is a history of art for our times While I find it interesting to think about all sorts of art I prefer painting to any of it Painting is soulful important serious and humane Matthew Collings We need to de mystify art by stripping it down to its bare essentials then rebuilding it ourselves using our own minds and eyes without all the pompous clutter Roy Bolton

Motion Picture Biographies John Cones,2015-04-01 Hollywood movies are famous for promoting negative stereotypes of all kinds especially against minorities women Southerners and Christians To what extent are biographical films selected for production according to certain biases conscious or unconscious among the Hollywood elite An expert on the U S film industry gives readers brief synopses of Hollywood biopics produced and or released from 1912 through 1994 This survey provides the basis for discussion and analysis Tracking these one sided depictions over a longer period of time the patterns of bias and the source of the problem become more clear The problem appears to be that most of the people who have green light authority in the U S film industry for either the production and or distribution of a motion picture share a common ethnic religious cultural background Thus the stories of their own cohort and those of all other ethnic religious and or cultural groups whose members seldom achieve positions of power in Hollywood are being filtered through the cultural sensibilities of a single group John Cones suggests that the solution could lie in increasing diversity at the highest levels in the U S film industry

Galenson, 2009-09-14 From Picasso s Cubism and Duchamp s readymades to Warhol s silkscreens and Smithson s earthworks the art of the twentieth century broke completely with earlier artistic traditions A basic change in the market for advanced art produced a heightened demand for innovation and young conceptual innovators from Picasso and Duchamp to Rauschenberg and Warhol to Cindy Sherman and Damien Hirst responded not only by creating dozens of new forms of art but also by behaving in ways that would have been incomprehensible to their predecessors Conceptual Revolutions in Twentieth Century Art presents the first systematic analysis of the reasons for this discontinuity David W Galenson whose earlier research has changed our understanding of creativity combines social scientific methods with qualitative analysis to produce a fundamentally new interpretation of modern art that will give readers a far deeper appreciation of the art of the past century and of today than is available elsewhere "Painting, Politics and the Struggle for the ?ole de Paris, 1944?964 " Natalie Adamson, 2017-07-05 Painting Politics and the Struggle for the ole de Paris 1944 1964 is the first book dedicated to the postwar or nouvelle ole de Paris It challenges the customary relegation of the ole de Paris to the footnotes not by arguing for some hitherto hidden merit for the art and ideas associated with this school but by establishing how and why the ole de Paris was a highly significant vehicle for artistic and political debate The book presents a sustained historical study of how this school was constituted by the paintings of a diverse group of artists by the combative field of art criticism and by the curatorial policies of galleries and state exhibitions By thoroughly mining the extensive resources of the newspaper and art journal press gallery and government archives artists writings and interviews with surviving artists and art critics the book traces the artists exhibitions and art critical debates that made the ole de Paris a zone of aesthetic and political conflict Through setting the ole de Paris into its artistic social and political context Natalie Adamson demonstrates how it functioned as the defining force in French postwar art in its defence of the tradition of easel painting as well as an international point of reference for the expansion of modernism In doing so she presents a wholly new perspective on the vexed relationships between painting politics and national identity in France during the two decades following World War II **Nineteenth- and**
