Portraits From The Hills:

Portraits of Industry Lorie A. Annarella, 2004 The fourteen paintings reviewed in this study chronicle industrial artist Howard L. Worner's interpretation of the steel industry. By employing ethnographic techniques to his art, Worner contributed much to the understanding of the culture of work. This book will provide students of art education a better understanding of the genre through artistic ethnography and interpretation as well as an excellent overview of industrial art. **The Indian Portrait, 1560-1860** Rosemary Crill, Kapil Jariwala, 2010 The role of the portrait in India between 1560 and 1860 served as an official chronicle or eye witness account as a means of revealing the intimate moments of everyday life and as a tool for propaganda. Yet the proliferation and mastery of Indian portraiture in the Mughal and Rajput courts brought a new level of artistry and style to the genre. **Centres of Pahari Painting** Chandramani Singh, 1981 *Photo-era*, 1915

Encyclopedia of Nineteenth-Century Photography John Hannavy, 2013-12-16 The Encyclopedia of Nineteenth Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century. It sets out to be the standard definitive reference work on the subject for years to come. Its coverage is global, an important first in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication. The Encyclopedia presents new and ground breaking research alongside accounts of the major established figures in the nineteenth century arena. Coverage includes all the key people, processes, equipment, movements, styles, debates, and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool, creative medium, and recorder of everyday life which it had become by the dawn of the twentieth century. The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth Century Photography an essential reference source for academics, students, researchers, and libraries worldwide. **Catalogue of a Selection of Art Objects from the Freer Collection** National Gallery of Art (U.S.), 1912 ... **History of Oswego County, New York** Crisfield Johnson, 1877 Presents a history of the various towns of Oswego County from 1877, maps of the county, engravings of various county scenes, and information about prominent individuals of that time and earlier. **The Amateur Photographer & Photography**, 1919 Photo-era Magazine Juan C. Abel, Thomas Harrison Cummings, Wilfred A. French, A. H. Beardsley, 1917 *The Complete Catalogue of Known and Documented Work by William Merritt Chase (1849-1916)* Ronald G. Pisano, William Merritt Chase, D. Frederick Baker, Marjorie Shelley, 2006-01-01 The first in a beautiful four volume complete catalogue of all known works by the beloved American artist William Merritt Chase. A perennial favorite of museum visitors, the works of William Merritt Chase 1849-1916 embody the quintessential characteristics of American Impressionism: outdoor landscapes, a colorful palette, and an energetic brushstroke. He was also a portrait painter of the first rank, a master of still life, a renowned teacher, and a leader of artists' societies. This gorgeous book, the first of a four volume definitive catalogue, features Chase's stunning paintings in pastel which constitute a major and previously

understudied body of work by the artist monotypes painted tiles and plates watercolors and prints Reconstructing Chase s oeuvre is a daunting task as the artist left few records of any kind and no documentation of his individual works exists Furthermore Chase s paintings and pastels have been forged in great numbers throughout the years and many of these works still surface on the art market Making this long awaited volume even more valuable is a list of every known exhibition of Chase s work during the artist s lifetime selected examples of major post 1917 exhibitions and an essay on Chase s innovative pastel technique The Grove Encyclopedia of American Art Joan M. Marter,2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries **The Origins and Evolution of Contemporary Miniature Painting in Pakistan** Marcella Sirhandi,2024-08-19 In 1982 Bashir Ahmad created the first curriculum in the world for a degree course in Indo Persian miniature painting When the British abandoned South Asia in 1947 artists lost royal patronage Two remaining hereditary court painters left India and accepted teaching posts at the National College of Arts in Lahore Pakistan Ahmad the only student dedicated to the serious study of this art form underwent a challenging eight year apprenticeship with two ustads teachers Ahmad rescued and perfected age old techniques verging on the cusp of extinction He introduced contemporary themes and encouraged his students to innovate as well In addition to biographies of Ahmad and his two ustads this book details his apprenticeship and traces the ongoing evolution of the craft by his students including Shahzia Sikander Imran Qureshi Saira Wasim Wasim Ahmad and Nusra Latif Qureshi Ahmad s transformation of the miniatures as well as student assignments are included as color illustrations
