Capital Histories Patricia L. Garside, 2019-01-15 First published in 1998 this book reprints eight articles from The London Journal covering the history of London from the middle ages to the twentieth century Each is an extensive bibliographical essay updated by the individual contributors for this anthology The book comes with a new introduction from a previous editor of the journal Patricia Garside and also with a specially commissioned guide to sources for London history and the libraries and special collections that house them The London Journal was founded in 1975 to provide a forum for the study of London history an eclectic and multi disciplinary field As well as articles based on original research The London Journal has carried notes and comments viewpoint and review articles and general surveys of particular aspects of London life In the past few decades the specialist literature on London has become extensive intricate and dense The opportunity for a systematic review of this literature presented itself on the twentieth anniversary of the founding of The London Journal and the core of the work presented here first appeared in Volume 20 2 November 1995 Each of the authors specialists in one of seven periods from Roman to contemporary times was asked to evaluate the literature that had appeared in their field of London expertise during the last 20 years For this book each contribution has been updated where possible to take account of the very latest publications

Bill Gates, Pay Your Fair Share of Taxes...Like We Do! Brigitte Alepin, 2012-03-28 Bill Gates and other wealthy individuals around the world do pay taxes but usually at rates far below what most taxpayers pay As Warren Buffet says his secretary pays a higher tax rate than he does on his multi million dollar income And most big corporations have mastered the art of paying next to nothing in taxes Many experts and financial journalists dismiss the idea that higher taxes for rich people and large corporations would make a difference to government revenues Even Bill Gates s personal fortune wouldn t make a dent in the huge US government deficit But Harvard trained economist and tax expert Brigitte Alepin has a different point of view Relying on her in depth knowledge of tax systems in Canada the US France and elsewhere Alepin provides a behind the scenes explanation of what has happened to create a massive gap in government revenues Over the last twenty years large corporations the super rich and private foundations have found many ways and means to avoid being taxed This black hole in government revenues found in virtually every country accounts for trillions of dollars in lost revenue every year As Alepin demonstrates using data drawn from leading international organizations those missing trillions would go a long way towards allowing the world s governments to balance their books Collecting taxes from big corporations and the super rich cannot be done by any one country alone But with governments of all political stripes facing this common problem there are concrete steps they can take together to address it Ensuring that wealthy individuals and corporations pay their fair share in taxes would not result in ruinously high rates Instead it would mean that the super

rich and corporations would pay their fair share of taxes at rates that would reflect their true ability to pay Brigitte Alepin shows how a fair tax system for Bill Gates and for the world's richest individuals and corporations can be the answer to the financial crisis the world faces today *Cities and the Super-Rich* Ray Forrest, Sin Yee Koh, Bart Wissink, 2017-02-28 With the rise of wealth inequalities our cities are changing dramatically This collection critically engages with and advances existing debates on the super rich and their roles in these transformations An interdisciplinary range of contributions from international experts including sociologists geographers historians discourse analysts and urban studies specialists reveal crucial aspects of the real estate investment practices of the super rich their social spaces in the city as well as the distinct influence of the super rich on the transformation of four key cities London Tokyo Singapore and Hong Kong By drawing together diverse disciplines perspectives and experiences across different geographical contexts this book offers a fresh comparative and nuanced take on the super rich and the 1% city as well as a solid empirically and theoretically grounded basis to think about future research questions and policy implications *The Rich and the Rest of Us* Tavis Smiley, Cornel West, 2012-04-17 Record unemployment and rampant corporate avarice empty houses but homeless families dwindling opportunities in an increasingly paralyzed nation these are the realities of 21st century America land of the free and home of the new middle class poor Award winning broadcaster Tavis Smiley and Dr Cornel West one of the nation's leading democratic intellectuals co hosts of Public Radio's Smiley West now take on the P word poverty *The Rich and the Rest of Us* is the next step in the journey that began with *The Poverty Tour A Call to Conscience* Smiley and West's 18 city bus tour gave voice to the plight of impoverished Americans of all races colors and creeds With 150 million Americans persistently poor or near poor the highest numbers in over five decades Smiley and West argue that now is the time to confront the underlying conditions of systemic poverty in America before it's too late By placing the eradication of poverty in the context of the nation's greatest moments of social transformation such as the abolition of slavery woman's suffrage and the labor and civil rights movements ending poverty is sure to emerge as America's 21st century civil rights struggle As the middle class disappears and the safety net is shredded Smiley and West building on the legacy of Martin Luther King Jr ask us to confront our fear and complacency with 12 poverty changing ideas They challenge us to re-examine our assumptions about poverty in America what it really is and how to eliminate it now *Frameworks, Methodologies, and Tools for Developing Rich Internet Applications* Alor-Hernández, Giner, Rosales-Morales, Viviana Yarel, Colombo-Mendoza, Luis Omar, 2014-09-30 Technological advances in the field of IT lead to the creation of new programs intended to merge the advantages of desktop based programs with the advantages of Web based programs in order to increase user accessibility and provide effective computer performance *Frameworks Methodologies and Tools for Developing Rich Internet Applications* presents current research and analysis on the use of JavaScript and software development to establish new programs intended for the Web With an in depth look at computer and Web programming this publication emphasizes the benefits and dynamic qualities of these emerging

technologies This book is an essential reference source for academicians researchers students practitioners and professionals interested in understanding and applying the advances in the combined fields of Web engineering and desktop programming in order to increase computer users visual experience and interactivity

Working Class Credit and Community since 1918 A. Taylor, 2002-11-26 This book explores the forms of credit which have historically been associated with the British working class Taylor seeks to assess the effect of credit on working class communities and relates this to the debate about community This work is the first comprehensive examination of the history of these forms of credit to make comparisons between the periods before and after 1945 Based on extensive archival research and oral history interviews this book combines lively individual accounts with theoretical arguments

Equality and the British Left Ben Jackson, 2007 The demand for equality has been at the heart of the politics of the Left in the twentieth century but what did theorists and politicians on the British Left mean when they said they were committed to equality How did they argue for a more egalitarian society Which policies did they think could best advance their egalitarian ideals *Equality and the British Left* provides the first comprehensive answers to these questions It charts debates about equality from the progressive liberalism and socialism of the early twentieth century to the arrival of the New Left and revisionist social democracy in the 1950s Along the way it examines and reassesses the egalitarian political thought of many significant figures in the history of the British Left including L T Hobhouse R H Tawney and Anthony Crosland This book demonstrates that the British Left has historically been distinguished from its ideological competitors on the Centre and the Right by a commitment to a demanding form of economic egalitarianism It shows that this egalitarianism has come to be neglected or caricatured by politicians and scholars alike and is more surprising and sophisticated than is often imagined *Equality and the British Left* offers a compelling new perspective on British political thought that will appeal to scholars and students of British history and political theory and to anyone interested in contemporary debates about progressive politics

The Politics of Retirement in Britain, 1878-1948 John Macnicol, 2002-04-18 A very important and thorough analysis of the debate on retirement and state pensions in Britain

The Quest for the Northwest Passage Frédéric Regard, 2015-10-06 These essays trace the history of the British search for the Northwest Passage the Arctic sea route connecting the Atlantic and Pacific oceans from the early modern era to the start of the nineteenth century

The Routledge Handbook of Critical Social Work Stephen Webb, 2019-01-03 The Routledge Handbook of Critical Social Work brings together the world s leading scholars in the field to provide a cutting edge overview of classic and current research and future trends in the subject Comprised of 48 chapters divided into six parts Historical social and political influences Mapping the theoretical and conceptual terrain Methods of engagement and modes of analysis Critical contexts for practice and policy Professional education and socialisation Future challenges directions and transformations it provides an authoritative guide to theory and method and the primary debates of today in social work from a critical perspective This handbook is a major reference work and the first book to

comprehensively map the wide ranging territory of critical social work It does so by addressing its conceptual developments its methodological advances its value based front line practice and as an influence on the policy field By offering a definitive survey of current academic knowledge as it relates to professional practice it provides the first comprehensive up to date definitive work of reference while at the same time identifying emerging innovative and cutting edge areas

Socialism and the Diasporic 'Other' Daniel Renshaw, 2018-03-13 Socialism and the Diasporic Other examines the relationship between the London based Left and Irish and Jewish communities in the East End between 1889 and 1912 Using a comparative framework it examines the varied interactions between working class diasporic groups conservative communal hierarchies and revolutionary and trade union organisations

Annual Review of Information Science and Technology Information Today Inc, 2005-10 ARIST published annually since 1966 is a landmark publication within the information science community It surveys the landscape of information science and technology providing an analytical authoritative and accessible overview of recent trends and significant developments The range of topics varies considerably reflecting the dynamism of the discipline and the diversity of theoretical and applied perspectives While ARIST continues to cover key topics associated with classical information science e g bibliometrics information retrieval editor Blaise Cronin is selectively expanding its footprint in an effort to connect information science more tightly with cognate academic and professional communities

Being poor in modern Europe Inga Brandes, 2006 Edited papers from an international conference at the University of Trier 2003

Broadway and Economics Matthew C. Rousu, 2018-06-27 Economics has often been described as the dismal science with TV and movies reinforcing this description However economics is a powerful tool that can be used to understand how the world works helping to answer confusing puzzles and solve the world's problems Surprisingly Broadway musicals are an excellent way to show this Musicals tell engaging stories through song and many are rich with economic concepts This book analyzes 161 songs from 90 musicals to explore what they can teach us about supply and demand monetary policy and numerous other core economic concepts While

some songs have an obvious connection to economics other connections may seem less apparent When you hear Let it Go from Frozen does your mind think about a firm's production decisions After reading this book it will Whether showing how Hamilton can illustrate concepts of central banking or how Stars from Les Miserables provides a perfect example of inelastic demand the author presents complicated topics in an understandable and entertaining way Featuring classic songs from some of the most popular shows ever produced along with some hidden gems Broadway and Economics will be of interest to anybody studying an introductory economics course as well as theatre aficionados

Slumming Seth Koven, 2006-08-13 In the 1880s fashionable Londoners left their elegant homes and clubs in Mayfair and Belgravia and crowded into omnibuses bound for midnight tours of the slums of East London A new word burst into popular usage to describe these descents into the precincts of poverty to see how the poor lived slumming In this captivating book Seth Koven paints a vivid portrait of the practitioners of slumming and their world who they were why they went what they claimed to have found how it changed them and how slumming in turn powerfully shaped both Victorian and twentieth century understandings of poverty and social welfare gender relations and sexuality The slums of late Victorian London became synonymous with all that was wrong with industrial capitalist society But for philanthropic men and women eager to free themselves from the starched conventions of bourgeois respectability and domesticity slums were also places of personal liberation and experimentation Slumming allowed them to act on their irresistible attraction of repulsion for the poor and permitted them with society's approval to get dirty and express their own dirty desires for intimacy with slum dwellers and sometimes with one another Slumming elucidates the histories of a wide range of preoccupations about poverty and urban life altruism and sexuality that remain central in Anglo American culture including the ethics of undercover investigative reporting the connections between cross class sympathy and same sex desire and the intermingling of the wish to rescue the poor with the impulse to eroticize and sexually exploit them By revealing the extent to which politics and erotics social and sexual categories overflowed their boundaries and transformed one another Koven recaptures the ethical dilemmas that men and women confronted and continue to confront in trying to love thy neighbor as thyself

The Culture of the Publisher's Series, Volume One J. Spiers, 2011-02-18 This volume focuses on the publisher's series as a cultural formation a material artefact and component of cultural hierarchies Contributors engage with archival research cultural theory literary and bibliometric analysis amongst a range of other approaches to contextualize the publisher's series in terms of its cultural and economic work

Reclaim the State Hilary Wainwright, 2003-07-17 From England to Brazil and Norway to China Hilary Wainwright sets out on a quest to discover how people are creating new stronger forms of democracy

Religious Vitality in Victorian London W. M. Jacob, 2021 This innovative book challenges many of the widely held assumptions about the place of religion in Victorian society and in London the world's first great industrial and commercial metropolis Against the background of Victorian London it explores the religiosity of Londoners as expressed through the dynamic renewal of traditional faith communities

including Judaism and the historic churches as well as fresh expressions of religion including the Salvation Army Mormons spiritualism and the occult It shows how laypeople especially the rich and women were mobilised in the service of their faith and their fellow citizens Drawing on research in social economic oral cultural and women s history Jacob argues that religious motivations lay behind concerns that subsequently preoccupied people in the twentieth and twenty first centuries These include the changing place of women in society an active concern for social justice the sexual exploitation of women and children and provision of education for all classes and all ages By examining religion broadly in its social and cultural context and looking beyond conventional approaches to religious history Religious Vitality in Victorian London illustrates the dynamic significance of religion in society influencing even the expression of secularism

Invincible Green Suburbs, Brave New Towns Mark Clapson, 1998 Explores the phenomenon of the mass movement of people away from town and city centres to live in new estates and towns built since World War II Using sociology town planning materials oral history and other sources this book examines the making of modern suburbia
