Revolutionary Europe 1815:

Revolutionary Europe, 1789-1815 Henry Morse Stephens, 1897 Revolutionary Europe George Rude, 2001-01-09 The new edition of this classic account of Revolutionary Europe brings to life many of the key issues that have fascinated historians since the fall of the Bastille and now includes a new introduction examining Rudinow's life and works and an updated list of readings **Revolutionary Europe** Henry Morse Stephens, 1948 Postrevolutionary Europe Martyn Lyons, 2006-04-16 Martyn Lyons reassesses European history between the fall of Napoleon and the Crimean War Refusing to characterize the period as a Restoration Lyons presents the struggle of the European monarchies for credibility in the wake of conflicts which had shattered the mystique of kingship Lyons stresses the invented aspects of emerging nationalism as well as the important process of rebuilding a political culture after 1815 and the democratic Revolutions of 1848

Post-revolutionary Europe Martyn Lyons, 2006-04-19 Martyn Lyons offers a fresh interpretation of European history in the half century following the fall of Napoleon Instead of seeing the period in traditional terms of Restoration and Reaction this new account emphasizes the problems of remembering and forgetting the recent revolutionary and Napoleonic past and of either incorporating or rejecting its legacy Post Revolutionary Europe makes interesting comparisons and contrasts between the fall of the French Empire in 1815 and the collapse of the Soviet Empire in 1989 91 examines the new forms of popular participation in political life which developed between the 1830 and 1848 Revolutions as a broad public sphere of action was created offers a series of thematic chapters which discuss key topics such as peasants and artisans the bourgeois family nationalism the growth of cities and European Jewry covers a wide geographical context from Britain to the Balkans and from Portugal to Russia Illustrated throughout this clear and engaging text is essential reading for all those with an interest in this important period of European history **Revolutionary Europe** H. Morse Stephens, 2015-06-02 Excerpt from Revolutionary Europe 1789 1815 In this volume I have endeavoured to write a history of Europe during an important period of transition I have reduced military details to the smallest possible limits and have preferred to mention rather than to describe battles and campaigns in order to have more space to devote to such questions as the Belgian revolution of 1789 the reorganisation of Prussia in 1806 12 and the Congress of Vienna I have throughout tried to describe the French Revolution in its influence on Europe and Napoleon's career as a great reformer rather than as a great conqueror The inner meaning of the period and its general results I have sketched in a short introductory chapter on which the rest of the volume is really a detailed historical commentary About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that

It employs both national and transnational contexts incorporating new debates in Atlantic history, empire studies and cultural history to give a comprehensive narrative of the period from 1775 to 1922. Rather than assessing revolution as a purely theoretical, socially driven force or a structural phenomenon, the book presents revolution as a process of community building and cultural identification born from instances of acute social and political crisis. Taking into account various moments of political upheaval during the 19th century including the French, Russian and 1848 revolutions, it explores the ways in which political actors attempted to construct new definitions of sovereignty and social unity in a period characterized by vast social, economic and governmental change. In a wide-ranging text that covers Britain and much of continental Europe in detail as well as reaching out to the Americas and Atlantic and Mediterranean Worlds, Gavin Murray-Miller provides an authoritative transnational study of revolution in the 19th century age of high nationalism.

Revolutionary Europe, 1783-1815 George F. E. Rudé, 1975 **Revolutionary Europe 1780-1850** Jonathan Sperber, 2017-04-21 Jonathan Sperber's *Revolutionary Europe 1780-1850* is a history of Europe in the age of the French Revolution from the end of the old regime to the outcome of the revolutions of 1848. Fully revised and updated, this second edition provides a continent-wide history of the key political events and social transformation that took place within this turbulent period, extending as far as their effects within the European colonial society of the Caribbean. Key features include analyses of the movement from society's old regime of orders to a civil society of property owners, the varied consequences of rapid population increase and the spread of market relations in the economy, and the upshot of these changes for political life from violent revolutions and warfare to dramatic reforms and peaceful mass movements, a lively account of the events of the period and a thorough analysis of the political, cultural and socioeconomic transformations that shaped them, a look into the lives of ordinary people amidst the social and economic developments of the time, a range of maps depicting the developments in Europe's geographic scope between 1789 and 1848, including for the 1820, 1830 and 1848 revolutions. *Revolutionary Europe 1780-1850* is the perfect introduction for students of the history of the French Revolution and the history of Europe more broadly.

Beginning with the eve of the French Revolution, Geoffrey Best explains in lively detail the vast armed forces and militarized societies of the Napoleonic age.

He then proceeds to analyse the contest between Europe's continuing revolutionary underground and the armies of reactionary and alien governments that culminated with the revolutions and wars of national liberation of 1848-66. Public Pantheons in Revolutionary Europe E. Bouwers, 2011-11-21

The story of how the concept of a pantheon, a building honouring great individuals, spread across Revolutionary Europe and interacted with socio-political and cultural changes. Analysing the canon and iconography of each pantheon, Bouwers shows how the commemoration of war and celebration of nationhood gave way to the protection of elite interests.

Revolutionary Europe H. Morse Stephens, 2020-10-27

THE states of Europe at the commencement of the year 1789 were ranked diplomatically in two important groups: the one dominated by the connection between France, Austria, Spain, and Russia; the other by the alliance between England, Prussia, and Holland. The great transformation which had been effected by the treaty between France and Austria in 1756 in the relationship between the powers of Europe was the crowning diplomatic event of the eighteenth century. The arrangements then entered into, and the alliances tested in the Seven Years War, still subsisted in 1789. But the spirit which lay at the root of the Austro-French alliance was sensibly modified. The Treaty of 1756 had never been really popular in either country. In France, Marie Antoinette, whose marriage with Louis XVI had set the seal on the Austrian alliance, was detested as the living symbol of the hated treaty as *l'Autrichienne*, the Austrian woman, and the most accredited political

thinkers and writers were always dwelling on the traditional policy of France and on the system of Henri IV Richelieu and Louis XIV which held the House of Hapsburg to be the hereditary and the inevitable enemy of the House of Bourbon and of the French nation The dislike of the alliance was felt with equal intensity in Austria by the wealthy and the educated classes The Austrian generals resented the inefficacy of the French intervention during the Seven Years War and the Austrian people attributed its reverses in that war to it with as much acrimony as if France had acted as an enemy instead of as an ally The same sentiment actuated even the Imperial House Our natural enemies travestied as allies who do more harm than if they were open enemies 1 such is the language in which Leopold of Tuscany brother of Marie Antoinette characterised the French in a letter written in December 1784 to his brother the Emperor Joseph II The Emperor Joseph was himself of the same opinion He preferred his Russian ally the Empress Catherine to his brother in law Louis XVI King of France and the tendency of his foreign policy was to strengthen his friendship with Russia even at the expense of sacrificing his alliance with France
